

Instructions for Form DTF-630

Claim for Green Building Credit

DTF-630-I

Temporary deferral of certain tax credits

For tax years beginning on or after January 1, 2010, and before January 1, 2013, if the total amount of certain credits that you may use to reduce your tax or have refunded to you is greater than \$2 million, the excess over \$2 million must be deferred to, and used or refunded in, tax years beginning on or after January 1, 2013. For more information about the credit deferral, see Form IT-500, *Income Tax Credit Deferral*, or Form CT-500, *Corporation Tax Credit Deferral*.

If you are subject to the credit deferral, you must complete all credit forms without regard to the deferral. However, the credit amount that is transferred to your tax return to be applied against your tax due or to be refunded to you may be reduced. Follow the instructions for Form IT-500 or CT-500 to determine the amounts to enter on your tax return.

General information

Tax Law section 19 allows taxpayers issued initial credit component certificates (component certificates) by the Department of Environmental Conservation (DEC) to claim a tax credit for certain expenses and purchases relating to the construction, rehabilitation, and maintenance of buildings that meet specified environmental and energy efficiency standards.

The first tax year for which the credit may be taken is the tax year set forth in the component certificate.

You must attach copies of the initial credit component certificate and eligibility certificate to Form DTF-630.

Complete a separate Form DTF-630 for each initial credit component certificate issued by DEC.

Eligibility

The following taxpayers are eligible to claim this credit:

- corporations taxable under Article 9, sections 183, 184, 185, or 186 of the Tax Law
- corporations taxable under Article 9-A of the Tax Law
- individuals, estates, and trusts taxable under Article 22 of the Tax Law
- partners in a partnership, including members of a limited liability company (LLC) that is treated as a partnership for federal tax purposes, shareholders of a New York S corporation, and beneficiaries of an estate or trust who are taxable under Article 22 of the Tax Law
- banking corporations taxable under Article 32 of the Tax Law
- insurance corporations taxable under Article 33 of the Tax Law

The first step in obtaining eligibility for the green building credit is to file an application with the DEC for a component certificate. The component certificate when issued will state the first tax year for which the credit may be claimed, an expiration date, and the maximum amount of credit component allowable for each year. In addition, for each year the credit is claimed, the taxpayer must be issued an eligibility certificate by a licensed architect or engineer certifying that the taxpayer has satisfied the required green building standards relating to each credit component for which a credit is claimed. For each tax year that a credit is claimed, the copy of the component certificate and

the eligibility certificate must be filed with Form DTF-630 and, in addition, the taxpayer shall have complied with the requirement to report certain specified information to the DEC.

Credit amount

The amount of the credit is the sum of the credit components specified in the component certificate. The credit is not refundable. If the amount of credit exceeds the taxpayer's tax for the year, the excess may be carried over to the following year or years. If a credit is allowed to an owner who sells a building or to a tenant who terminates his or her tenancy within the five-year period of allowance of such credit, the successor owner or successor tenant would be allowed the credit for the remainder of the five-year period, provided that the property continues to meet the applicable environmental and energy efficiency standards.

The credit cannot reduce the tax to less than the following statutory minimum taxes:

- \$75 under Article 9, section 183
- \$10 under Article 9, section 185
- \$125 under Article 9, section 186
- the larger of the tax on minimum taxable income base or the fixed dollar minimum tax computed under Article 9-A
- \$0 under Article 22
- \$250 under Article 32
- \$250 under Article 33

The credit is not allowed against the metropolitan transportation business tax surcharge (MTA surcharge) under Articles 9, 9-A, 32, or 33.
