

Minimum Price List for Cigarettes (Sold by the carton, 20 cigarettes per pack/10 packs per carton)

This publication is intended to assist you in determining the New York State minimum wholesale and retail cigarette selling prices. Under Article 20-A (Cigarette Marketing Standards Act) of New York State Tax Law, customers must be charged at least the minimum price shown in the following minimum price schedules, but may be charged any price in excess of the minimum.

How to use the price list

To determine a correct minimum selling price, find the agent's basic cost of the cigarettes in the first column and read across the chart until you find your business category. The agent's basic cost is generally the invoice cost of cigarettes to the agent who purchases from the manufacturer, less trade discounts, other than cash discounts, plus the full face value of tax stamps required to be affixed. Trade discounts do **not** include rebates.

If you are a wholesale dealer, chain store, or retail dealer, and do not know the agent's basic cost of the cigarettes, you may use the invoice price you paid your supplier (excluding prepaid sales tax), in the column that relates to your business activity and read across to your customer's category. However, your supplier should be able to give you the agent's basic cost of the cigarettes.

Note: The prepaid sales tax and the state and local sales taxes are not included in these minimum prices. Refer to TSB-M 95(7)S, *Prepaid Sales Tax on Cigarettes*, for more information.

Adjustments to prices

As manufacturers change their prices or excise tax rates change, minimum selling prices must be adjusted accordingly as required by Article 20-A (Cigarette Marketing Standards Act) of the New York State Tax Law.

Each time a manufacturer's price or an excise tax rate change occurs, you will be notified of the changes in the presumptive minimum prices of **standard brands and standard packages** in Publication 509, *Minimum Wholesale and Retail Cigarette Prices*. Publication 509 will also indicate the enforcement date(s) for any price change.

Enforcement dates

When a minimum price change occurs because of a manufacturer's price increase or decrease, the enforcement date of the change is the second Monday after the price change is announced. If a price change is announced on a Monday, that day is considered to be the first Monday. The enforcement date is in effect whether or not a manufacturer notifies the Tax Department of the price change.

After one manufacturer announces a price change, if other manufacturers also change their prices **before the second Monday after the initial price change is announced**, then those subsequent price changes will also be effective for enforcement purposes on the same second Monday.

When a minimum price change occurs because of an excise tax rate change, the enforcement date of the change is the date the rate change takes effect.

Violations

Any violation of Article 20-A, Cigarette Marketing Standards Act (CMSA), is a Class B misdemeanor. You may not purchase or sell or attempt to purchase or sell cigarettes at a price less than the minimum price set by law. You may not ask for, offer, or receive any rebate or concession of any kind in connection with the purchase of cigarettes.

Violations may result in the suspension of an agent's or wholesale dealer's license, the imposition of a fine not to exceed \$20,000, or both, for a first offense. Subsequent violations within three years may result in license revocation, license suspension, or license suspension plus a fine not to exceed \$50,000.
