Quarterly Return for Part-Quarterly Filers

THE SALES TAX RETURN

Two copies of the sales tax reporting form are mailed to each registered vendor. You must file the preaddressed copy. You may use the second as a copy for your records.

The completed quarterly return, Form ST-810, must show your actual gross sales, taxable sales and purchases subject to use tax for the 3 month period covered by the return, unless you are a distributor of motor fuel. If you are a distributor, see page 3 for instructions under notice to registered distributors.

All part-quarterly (monthly) filers must use this form as a report for the third month of the quarterly period and as a quarterly report, irrespective of which type (long or short form) part-quarterly return was filed for the first two months of the quarter.

The front of the return is a summary of business activity and tax due for the quarter. Page Two is used to report the details of taxable sales and services and purchases subject to use tax and the total state and local taxes due for each taxing jurisdiction. Although this return is all that is required for most vendors, certain vendors are required to file separate schedules in addition to the return. (See "Schedules Which May Be Required".)

Change in Filing Period

Monthly Filing

To convert to monthly filing, notify the Sales Tax Processing Unit or your district tax office immediately. Failure to file a monthly return may result in penalty and interest charges.

Quarterly Filing

If you are presently required to file part-quarterly returns and your taxable sales and services and purchases subject to use tax amounted to less than \$300,000 in every one of the last four quarters, you may request conversion to quarterly filing

-or-

you are a registered distributor of motor fuel or diesel motor fuel and your taxable sales of fuel were less than 100,000 gallons in every one of the last four quarters, you may request conversion to quarterly filing.

To convert to quarterly filing, notify the Sales Tax Processing Unit or your district tax office.

COMPLETING YOUR RETURN

Complete Page 2 of the sales tax return and any required schedules before completing Page 1.

Instructions for Page 2

The Department of Taxation and Finance is required by New York State law to collect and distribute the sales taxes imposed by local jurisdictions. The information on Page 2 of the sales tax return enables the department to make the correct distribution. Credits that can be identified by locality should be taken on the appropriate line on Page 2 of the return. Net credits (negative amounts) should be shown in parenthesis.

Notice to Registered Distributors of Motor Fuel and/or Diesel Motor Fuel

Distributors of motor fuel and/or diesel motor fuel registered under the Motor Fuel Tax Law must report all sales, self-use and sales taxes on automotive fuel on Form ST-100.7, Schedule D (motor fuel) and/or Form ST-100.8, Schedule E (diesel motor fuel) **only**. The schedule(s) must be filed with the vendor's sales and use tax return Form ST-810.

DO NOT include sales, purchases for self-use or sales tax on automotive fuel on Page 2 of your Form ST-810 if you are a registered distributor of motor fuel and/or diesel motor fuel.

Exception: Diesel motor fuel sold in bulk to purchasers who do not furnish an acceptable exemption document or certificate (e.g. TP-146.4 or PR-122) should be taxed as tangible personal property and should be reported on Page 2.

Vendors who are not registered as distributors of automotive fuel are NOT required to report sales of automotive fuel as taxable sales on their sales and use tax return.

Column (a) - Taxing Jurisdiction

Column (a) lists the name of each locality now imposing a sales and use tax.

Column (b) - Combined Tax Rate

Column (b) lists the combined state and local tax rates that apply in each of the localities listed in column (a).

Columns (c), (d) and (e)

Use columns (c), (d) and (e) to report taxable sales and services, purchases subject to use tax, and sales and use taxes for the localities listed in column (a). You must report these amounts for the full period covered by the return unless a shorter period is specifically indicated.

Column (c) - Taxable Sales and Services

Subtract any applicable exempt sales and adjustments from gross sales and services to arrive at taxable sales and services. Make adjustments for situations where the tax should not be paid, such as returned sales on which the tax was refunded to the customer and on sales previously reported which became bad debts.

Include taxable sales and services on the line for the locality in which delivery is made. Over-the-counter sales are considered delivered at the vendor's business location when the customer takes possession of the merchandise there rather than at the customer's residence.

Exception: When a motor vehicle is delivered within New York State, the rate of tax to be collected is determined by the purchaser's home address.

Do not include sales delivered to points outside New York State.

Sales made in localities that do not impose local sales and use taxes are subject only to the 4 percent state tax. Report receipts from sales and services in these localities on the NEW YORK STATE Only line.

On the **New York City** 4 percent line, report the sale of the following to businesses located within New York City:

- 1) fuel and utility services used directly and exclusively in the production of tangible personal property for sale,
- 2) machinery, machinery parts with a useful life of more than one year and equipment used directly and predominantly in such production,
- 3) parts with a useful life of more than one year used in or on telephone central office equipment or station apparatus or comparable telegraph equipment used directly and predominantly in receiving at destination or initiating and switching telephone or telegraph communication, and

- 4) the services of installing, repairing, maintaining and servicing tangible personal property used directly and predominantly to produce a product for sale by farming, including servicing tangible personal property used in erecting, adding to, altering or improving a silo (but not including the foundation), and the servicing of posts and wire used to make and maintain a trellis for grapes.

These transactions should **not** be reported on the New York City 8¼ percent line.

Column (d) - Purchases Subject to Use Tax

Use column (d) to report the value of tangible personal property or services purchased without payment of sales tax and used by you in your own operations. **Do not** include tangible personal property or services which are resold or which qualify for a production exemption.

Property or services are also subject to the use tax if purchased by a New York State resident, business or branch of a New York State business located outside New York State and shipped or brought into the State.

Additional Use Tax: If a sales or use tax was paid in one locality in New York State and the property is then used in another locality in New York State, an additional use tax will be due if the local tax rate is higher in the second locality and:

- the user is a resident of the locality where use occurs,
- the user, in the performance of a contract, incorporates the property into real property situated in the second locality, or
- the user is a nonresident but uses the property in the second locality in the course of his employment, trade, business or profession.

Attach an explanatory statement and use the blank lines at the bottom of Page 2. Enter the taxing jurisdiction in Column (a) and the additional rate of tax in Column (b).

Column (e) - Sales and Use Taxes

Compute the tax by multiplying the amounts in columns (c) and (d) by the combined state and local tax rate in column (b).

On the last line enter the total amounts reported on both sides of Page 2 in column (e). Include this total in the amount you report on Line 1, Page 1, of the return.
