Use this form to report only transactions for the period

**June 1, 1990 — August 31, 1990**

**Schedule U is to be used to report sales and use tax on the transactions described below.**

## General Instructions

All machinery or equipment and parts, tools and supplies used or consumed in production are exempt from statewide and from all local sales and use tax imposed outside of New York City.

Effective December 1, 1989 machinery or equipment and parts with a useful life of more than one year are also exempt from the local tax imposed inside New York City. However, the exemption **does not** include parts with a useful life of one year or less or tools or supplies used or consumed in production. Sales or use of these items remain subject to the 4% New York City tax.

Although the services of installing, maintaining or servicing production machinery, equipment, apparatus, parts, tools and supplies are exempt from the statewide sales and use tax, those services are subject to all local sales and use taxes.

Report on the appropriate line of this form the taxable sales of property or services, or purchases subject to use tax:

- (a) Machinery parts with a useful life of one year or less, tools and supplies used directly and predominantly in production within New York City only. (*Machinery parts with a useful life of more than one year, previously reported on Form ST-100, are no longer taxable effective December 1, 1989.*)
- (b) Parts with a useful life of one year or less, tools and supplies used in or on telephone central office equipment or station apparatus or comparable telegraph equipment used directly and predominantly in receiving at destination or initiating and switching telephone or telegraph communication within New York City only. (*Parts with a useful life of more than one year, previously reported on Form ST-100, are no longer taxable effective December 1, 1989.*)
- (c) The services of installing, repairing, maintaining or servicing:
  1. Machinery and equipment used directly and predominantly in production
