Instructions

General Information

This return is to be used by persons registered under Article 12-A of the Tax Law as **Retailers of Heating Oil Only** who are not required to file monthly tax returns. Form PT-100, *New York State Petroleum Business Tax Return* should be used for those required to file monthly returns.

If you are an exempt organization that has established its status as an exempt organization under section 1116(a) of the Tax Law, and any product that you import into New York State is consumed exclusively by you, then you are not subject to the Article 13-A tax on petroleum businesses (do not complete Part B of Form PT-201).

Diesel motor fuel is composed of two sub-categories of product, unenhanced diesel product and enhanced diesel product.

The specific products making up the unenhanced category include fuel oil, kero-jet fuel, and kerosene and water-white kerosene (K-1). This category does not include industry-standard No. 4 diesel fuel (see notice N-89-63 for definition of industry standard No. 4 diesel fuel).

The specific fuels making up the enhanced diesel product include diesel fuel, No. 1 diesel fuel, enhanced No. 2 fuel oil (the blended product that results from mixing No. 2 fuel oil with kerosene or a cetane improver to make the fuel oil more suitable to operate in a motor vehicle diesel engine) and any product designated as diesel motor fuel.

You may reproduce (e.g., computer-generate) Form PT-201.1 provided the form is clearly identified and contains all of the information (including form number, distributor's name, identification number, etc.) requested on the original form and the information is in the same format.
