Add column (e). Include this amount on Form ST-100 Part I, line 1				

Instructions

Schedule B should be completed by:

- vendors of telephone services, telephone answering services,* telegraph services, refrigeration, nonresidential gas, electricity or steam services in (1) certain school districts, (2) cities that impose a tax on utility services but not a general sales and use tax and (3) counties that have a general sales and use tax in which these cities are located;
- all vendors making sales of gas, including propane in containers of 100 pounds or more, electricity or steam services, coal, fuel oil, and propane in containers of 100 pounds or more to residential customers, and wood for residential heating;
- vendors who supply these services or who bill tenants on a submetering basis; and
- purchasers required to report use tax in the localities listed in Part I who have purchased the above services tax free under direct payment permits or otherwise.

* Telephone answering services are subject to tax. When these services are rendered in school districts that impose a tax on utilities, the tax due must be reported on Schedule B at the higher rate in effect in the school district.

Part I — Report sales of gas, including propane in containers of 100 pounds or more, electricity, or steam for **nonresidential** use and all sales of refrigeration service and telephone services (including telephone answering services) or telegraph services to customers located in the taxing jurisdictions listed.

All other sales of gas, including propane in containers of 100 pounds or more, electricity or steam for **nonresidential** use and all sales of refrigeration services and telephone services (including telephone answering services) or telegraph services in localities not listed in Part I of Schedule B should be included in the amount(s) reported on Form ST-100, *New York State and Local Quarterly Sales and Use Tax Return*, Part II.

Part II — Report sales of gas, including propane in containers of 100 pounds or more, electricity or steam for **residential** use to customers located in the taxing jurisdiction listed.

Part III — Report sales of gas, electricity, steam and propane in containers of 100 pounds or more, for **residential** use, to customers in all localities **other than those listed in Part II**. Part III should also be used to report all sales of coal and fuel oil for **residential** use, and wood for **residential** heating, in all localities other than those listed in Part IV. Please note that the sales of gas (including propane in containers of 100 pounds or more), electric and steam services in the city of New Rochelle (Westchester County) must be reported in Part II on the New Rochelle School District line, and sales of coal, fuel oil and wood (for heating) must be reported in Part IV on the New Rochelle line.

Part IV — Report the taxable receipts from the sale of coal and fuel oil for **residential** use, and wood for **residential** heating, for all sales in the jurisdictions listed.

Retailers of heating oil only who purchase enhanced diesel products that they later sell for residential heating may not take a credit for any prepaid tax passed through to them on these sales. They may recover this portion of the prepaid tax, however, by applying for a refund using Form FT-1010, *Application for Refund of Prepaid Sales Tax on Diesel Motor Fuel Sold Other Than at Retail Service Stations*.

All other taxable sales and services should be reported on Form ST-100, *New York State and Local Quarterly Sales and Use Tax Return*, on the appropriate lines in Part II.

Tax rate — column (b)

The rates shown in column (b) are the combined state and local tax rates, or the local tax rates, that apply in the localities listed in column (a).

Taxable sales and services — column (c)

Report in column (c) receipts from taxable sales and services on the line for the locality listed in column (a) in which your customers took delivery.

Enter the total amount reported in this column on the last line of each part and include the amount on Form ST-100, Part I, box B.

Purchases subject to use tax — Part I only — column (d)

On the appropriate lines, report purchases of gas, electricity, refrigeration, steam and telephone and telegraph services that are subject to the tax on consumer's utilities but upon which the tax has not been paid. Form ST-100 (or other appropriate schedule) should be used for reporting the use tax on other taxable transactions upon which the tax has not been paid. Industrial utility users who have not already paid a general sales tax must also report tax on these services.

Enter the total amount reported in this column on the last line of Part I and include the amount on Form ST-100, Part I, box C.

Sales and use taxes — column (e)

Compute the tax by multiplying the amounts in columns (c) and (d) by:

- the combined state and local tax rate in column (b) for **Part I**
- the local tax rate in column (b) for **Part II, Part III and Part IV**.

Enter the sum of all amounts reported in these columns on the total lines of each part.

Include the total sales tax reported in each part in the amount reported on Form ST-100, Part I, line 1, after you compute your vendor collection credit.

Vendor Collection Credit

The vendor collection credit can be claimed **only** on sales that are subject to New York State sales tax (Part I). Therefore, not all receipts reported on Schedule B are eligible for the vendor collection credit. To determine your vendor collection credit, complete the worksheet on page 4 of Form ST-100, and the *Vendor Collection Credit* box on page 3. If you report sales tax due on Schedule B, but report **no** tax due on pages 2 or 3 of Form ST-100 (or less tax due than the amount of the vendor collection credit), the figure on page 3, line G, may be a **negative** amount. To determine your net tax due, you must subtract the negative amount on line G from the total tax reported in column (e) of Schedule B. (If you report tax due on more than one schedule, add the amounts from **all** the schedules before subtracting.) Enter the result in Part I, line 1, of Form ST-100.

Credits

Credits that can be identified by locality should be taken on the appropriate line(s) on this form. Show net credits (negative amounts) in parentheses. Credit taken on this form should be included in the total amount entered on Form ST-100, Part I, box D, with the exception of the vendor collection credit.
