

Instructions for Form IT-602

Claim for EZ Capital Tax Credit

General information

Section 606(l) of the Tax Law allows an empire zone (EZ) capital tax credit to be applied against the taxes imposed by Article 22, based upon qualified investments in an EZ capital corporation.

The Laws of 1993 amended section 606(l) of the Tax Law effective for tax periods beginning on or after January 1, 1994. In addition to qualified investments in an EZ capital corporation, the credit was expanded to include contributions in the form of donations to an EZ capital corporation, qualified investments in certain certified EZ businesses, and monetary contributions to EZ community development projects.

The EZ capital tax credit is equal to 25% of the sum of the following investments and contributions made during the tax year that are certified by the Commissioner of Empire State Development:

- Qualified investments made in, or contributions in the form of donations made to, one or more empire zone capital corporations established pursuant to the General Municipal Law, section 964;
- Qualified investments in certain certified empire zone businesses; and
- Contributions of money to community development projects as defined in regulations issued by the Commissioner of Empire State Development.

The term *qualified investment* means (1) the contribution of property to a corporation in exchange for original issue capital stock or other ownership interest, (2) the contribution of property to a partnership in exchange for an interest in the partnership, and (3) similar contributions to a business entity not in a corporate or partnership form in exchange for an ownership interest in that entity.

Section 606(l) imposes **three limitations** on the capital tax credit, as follows:

- The credit may not exceed the tax due under Article 22;
- The total amount of credit allowable to a taxpayer for all years may not exceed \$300,000, and the total credit allowed for each of the three categories of qualified investments and contributions may not exceed \$100,000 (for additional limitations under section 606(l), see the instructions for line 20); and
- The credit and carryover of such credit may not exceed 50% of the tax imposed by section 601 of Article 22, without regard to any credit.

This credit is not refundable; however, any amount of credit or carryover of credit not deductible in the current tax year may be carried over to be deducted from the tax for succeeding tax years.

Column C — For recapture purposes, the amount of the credit to be added back must be the portion of the credit attributable to the stock, or other ownership interest disposed of, or the payment or contribution recovered, multiplied by the following percentages:
