Instructions

Purpose of form

Use Form CT-46-ATT to claim a credit for the rehabilitation expenditures of retail enterprises (Schedule A) or historic barns (Schedule B). If you qualify for either credit, or both, complete the applicable schedule and **attach** this form to Form CT-46.

The provisions for recapture applicable to investment tax credit property (section 210.12(g)) also apply to these credits. Refer to the instructions for computing recapture amounts in Schedule D on Form CT-46.

Credit for rehabilitation expenditures for retail enterprises

Section 210.12(k) allows a credit for qualified rehabilitation expenditures, as defined in Internal Revenue Code (IRC), section 47(c)(2). In addition to qualifying for the federal credit, the taxpayer must be a retail enterprise.

A *retail enterprise* is a taxpayer registered as a vendor under Tax Law Article 28, and is at least 50% engaged in retail sales as defined in section 1101(b)(4)(i).

The rehabilitated property must be located in New York State. The credit is limited to the portion of the expenditures attributable to the property employed in retail sales.

Credit for rehabilitation expenditures for historic barns

Section 210.12(l) allows a credit for qualified rehabilitation expenditures, as defined in IRC section 47(c)(2), paid or incurred for any barn located in New York State that is a qualified rehabilitated building, as defined in IRC section 47(c)(1).

A barn must be a building originally designed and used for storing farm equipment or agricultural products, or for housing livestock. No rehabilitation credit is allowed for a barn converted to a residence or a barn whose historic appearance has been altered.

A barn must either have been placed in service before 1936, or, if placed in service after that time, a barn must be a certified historic structure listed in the National Register of Historic Places, or located in a registered historic district certified by the Secretary of the Interior.

Expenditures for the enlargement of a barn **do not** qualify for the credit. However, a barn will not be disqualified from the credit because it has been enlarged. In such cases, the total expenditures paid or incurred for rehabilitation must be apportioned to exclude those expenditures attributable to the enlargement.

For detailed information concerning qualified rehabilitated expenditures, qualified rehabilitated buildings, alteration of the historic appearance of a barn, certified historic structures, registered historic districts, and enlargement of a barn, refer to TSB-M-97(5)(C), *A Credit for Rehabilitation of Historic Barns*.

Computation of tax credit(s)

Complete Schedules A and B as appropriate, and enter the total credits computed on Form CT-46, lines 3 and 4.

Schedule A — Rehabilitation expenditures for retail enterprises

Provide the information required in columns A, B, C, and D. Attach a separate page if you need more space. Enter in column E the portion of the qualified rehabilitation expenditures paid or incurred for that part of the building employed in retail sales activity.

Schedule B — Rehabilitation expenditures for historic barns

Questions 3 and 4 — If a barn is listed in the National Register, or a barn is located in a registered historic district **and** is of historic significance to the district, the barn is a certified historic structure. A certified historic structure must have a rehabilitation certified by the federal Secretary of Interior or the New York State Office of Parks, Recreation and Historic Preservation. If the barn for which a credit is claimed is a certified historic structure, attach the appropriate certification. For more information, see TSB-M-97(5)(C).

Questions 5 and 7 — Attach documentation that the historic appearance of the barn has not been materially altered and, where appropriate, documentation that the barn is of no historic significance to a registered historic district. One acceptable form of documentation is a letter from the Office of Parks, Recreation and Historic Preservation. Documentation that a federal rehabilitation credit of 10% or 20% has been allowed for a barn is another acceptable form of documentation.

Questions 8 and 9 — To qualify for the credit, a barn must have been substantially rehabilitated. To determine whether a barn has been substantially rehabilitated, the expenditures incurred to rehabilitate the barn during a measurement period selected by the taxpayer must exceed the greater of the adjusted basis of the barn or \$5,000. The measurement period is a 24-month period selected by the taxpayer and ending with or within the tax year. If the rehabilitation could reasonably be expected to be completed in phases set forth in architectural plans and specifications completed before the rehabilitation begins, the measurement period may be 60 months long. You may be required to submit documentation of the architectural plans and specifications at a later date. The adjusted basis is generally determined as of the beginning of the first day of the measurement period.

Provide the information required in columns A, B, and C. Attach a separate page if you need more space.

Column D — Enter in column D the amount of qualified rehabilitation expenditures paid or incurred for a qualified rehabilitated barn.

If the expenditures include the cost of enlarging a barn and can be separately accounted for, exclude the expenditures attributable to the enlargement. Otherwise, on a separate page, show the total expenditures (including the enlargement) and the apportionment method to exclude the expenditures for the enlargement (as prescribed in TSB-M-97(5)(C)) that was used to arrive at the amount of rehabilitation expenditures entered in this column.
