Instructions

Who may use this form

A taxicab licensee may file this form to obtain a refund for motor/diesel motor fuel consumed in a taxicab in this state. **Note:** Form TP-164.8 is no longer in use.

Taxicab licensee means every corporation, company, association, partnership, and person engaged in operating a taxicab, as defined in the Vehicle and Traffic Law, section 148-a and licensed by local authorities (as defined in the Vehicle and Traffic Law, section 122) to operate at a fixed rate of fare.

Section 148-a of the Vehicle and Traffic Law defines a taxicab as:

Every motor vehicle, other than a bus, used in the business of transporting passengers for compensation, and operated in such business under a license issued by a local authority. However, it shall not include vehicles which are rented or leased without a driver.

Biodiesel shall mean a diesel motor fuel substitute produced from nonpetroleum renewable resources that meets the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under Clean Air Act 42 U.S.C. 7545 section 211 and that meets the American Society of Testing and Materials D6751-02A standard specification for biodiesel fuel (B100) blend stock for distillate fuels.

B20 means a mixture consisting by volume of twenty percent biodiesel and the remainder of which is diesel motor fuel.

A tax may not be refunded until it has first been collected pursuant to Tax Law, section 289-c, subdivision 3(c).

The state does not collect until the month following that in which the tax was paid by the purchaser. For example, refunds for the month of March cannot be made until the Tax Department has received the tax due the state from the distributor late in April, and similarly for the succeeding months.

Claims for refunds must cover a complete calendar month. No refunds will be made by the department for purchases made more than three years before the date of filing the claim.

You must submit copies of sales invoices, delivery tickets, or monthly statements showing name and address of dealer, name and

address of claimant, date of purchase (month, day and year), number of gallons purchased, and the fact that the tax was included in the purchase price.

A claim for refund or reimbursement of tax paid on motor/diesel motor fuel must be based on records (including the original records of all purchases of motor/diesel motor fuel by the claimant and a record of the manner in which all motor/diesel motor fuel was used). These records must be kept for three years and be produced at any time for audit by the Tax Department.
