The credit is available to Article 9-A taxpayers or Article 22 taxpayers (individuals, including sole proprietors, partners in partnerships, shareholders of New York S corporations, estates and trusts, and beneficiaries of estates and trusts). For additional information about the credit see TSB-M-99(2.1)C, *Qualified Emerging Technology Company Tax Credits (Article 9-A Taxpayers Only)*, or TSB-M-00(2)I, *Qualified Emerging Technology Company Tax Credits (Personal Income Tax)*. Eligibility

You may claim this credit if you are:

- a corporation that is subject to tax under Article 9-A;
- an individual that is subject to tax under Article 22 including:
 - a sole proprietor (including estates and trusts that are sole proprietors);
 - a partner in a partnership (including a member of a limited liability company (LLC) that is treated as a partnership for federal income tax purposes);
 - a shareholder of a New York S corporation; **or**
 - a beneficiary of an estate or trust where the estate or trust is a sole proprietor, partner in a partnership, or a shareholder of a New York S corporation;

and the corporation, individual, sole proprietorship, partnership, or S corporation made a qualified investment in a certified QETC.

Credit amount

The QETC capital tax credit is computed on each qualified investment made during the tax year in a certified QETC and is equal to the sum of:

- ten percent of qualified investments in certified QETCs, if the taxpayer certifies to the Commissioner of Taxation and Finance at the time the credit is claimed that the qualified investment will not be sold, transferred, traded, or disposed of within four years from the close of the tax year in which the QETC capital tax credit is first claimed; **and**
- twenty percent of qualified investments in certified QETCs if the taxpayer certifies to the Commissioner of Taxation and Finance at the time the credit is claimed that the qualified investment will not be sold, transferred, traded, or disposed of within nine years from the close of the tax year in which the QETC capital tax credit is first claimed.

Definitions

Qualified investment means:

- the contribution of property to a corporation in exchange for original issue capital stock or other ownership interest; **and**

- the contribution of property to a partnership in exchange for an interest in the partnership; **and**
- similar contributions to a business entity not in corporate or partnership form in exchange for an ownership interest in the entity.

Qualified investments **do not include** investments made by or on behalf of an owner of the QETC, including, but not limited to, a stockholder, partner, sole proprietor, or any related person (as defined in section 465(b)(3)(C) of the Internal Revenue Code (IRC)).

An *owner of the qualified emerging technology company* means an entity that owns more than a 10% interest in a QETC. The percentage of ownership in a certified QETC is determined based upon the amount of the following:

- the number of shares of stock issued and outstanding; or
- the contribution of property to a partnership; **or**
- similar contributions in the case of a business entity not in corporate or partnership form.

A *qualified emerging technology company* is, pursuant to section 3102-e of the Public Authorities Law (PAL), a company located in New York State that has total annual product sales of \$10 million or less and meets either of the following criteria:

- Its primary products or services are classified as emerging technologies under section 3102-e(1)(b) of the PAL; **or**
- It has research and development activities in New York State and its ratio of research and development funds to net sales equals or exceeds the average ratio for all surveyed companies classified (as determined by the National Science Foundation (NSF) in the most recently published results from its survey of industrial research and development or a comparable successor survey as determined by the Tax Department).

For more information see TSB-M-99(2.1)C or TSB-M-00(2)-I, and TSB-M-12(9)C, (8)I.

A *certified QETC* means a qualified emerging technology company which has filed Form DTF-620, *Application for Certification of a Qualified Emerging Technology Company*, and has been certified as a QETC by the Commissioner of Taxation and Finance.

Credit limitations

Sections 210.12-F and 606(r) impose the following three limitations on the QETC capital tax credit:

- The credit and any carryover of the credit may not reduce the tax imposed by Article 9-A to less than the higher of the tax on minimum taxable income base or the fixed dollar minimum (computed before the addition of the metropolitan transportation business tax (MTA surcharge) and without regard to any credits); and the credit may not exceed the tax due under Article 22.
- The total amount of credit allowable to a taxpayer for all years may not exceed \$150,000 for a credit computed at the rate of 10% of qualified investments, and \$300,000 for a credit computed at the rate of 20% of qualified investments.

- The credit and any carryover of the credit may not exceed 50% of the tax imposed by Article 9-A section 209 and Article 22 section 601 without regard to any credit.

This credit is not refundable. However, any amount of credit or carryover of credit not deductible in the current tax year may be carried over and deducted from the tax in succeeding tax years.

Recapture of credit

If a taxpayer sells, transfers, or otherwise disposes of corporate stock, a partnership interest, or other ownership interest arising from the making of a qualified investment, or if an investment is recovered by the taxpayer that was the basis for the allowance of the QETC capital tax credit, and the disposal or recovery occurs during the tax year or within 48 months (for a credit at the rate of 10% of qualified investments), or 108 months (for a credit at the rate of 20% of qualified investments) from the close of the tax year when the credit was allowed, the taxpayer must add back to the tax in the tax year of the disposition or recovery, the required portion of the credit originally allowed. For more information, see Schedule C instructions.

Combined filers – A taxpayer filing as a member of a combined group is allowed to claim the credit. The credit is computed on a separate basis in Schedule A, Part 1 and Part 2, and applied against the combined tax.
