Beer Production Credit

General information

The New York State Tax Law provides a credit to taxpayers who meet the eligibility requirements.

Eligibility

To be eligible for this credit, you must meet **all** of the following requirements:

- you are subject to tax under Article 9-A or 22,
- you are registered as a distributor under Article 18 (Taxes on Alcoholic Beverages), and
- you produce 60 million gallons or less of beer in New York State during the tax year.

Credit information

The amount of credit per tax year for each gallon of beer produced in New York State on or after April 1, 2012, is:

- 14 cents (.14) per gallon for the first 500,000 gallons of beer produced, plus
- 4.5 cents (.045) per gallon for each gallon of beer produced in excess of 500,000 gallons.

However, no credit is allowed for any beer produced in excess of 15,500,000 gallons during the tax year.

The credit is **not** allowed against the metropolitan transportation business tax (MTA surcharge) under Article 9-A.

The credit may not reduce the tax due below the fixed dollar minimum tax. Any unused amount of credit for the current tax year will be treated as a refund or overpayment of tax to be credited to next year's tax. Interest will not be paid on the refund or overpayment.
