Do not use Form IT-238 to claim the historic homeownership rehabilitation credit. To claim that credit, you must use Form IT-237, Claim for Historic Homeownership Rehabilitation Credit, for the year in which you receive a Certificate of Completion (COC) from the New York State Office of Parks, Recreation and Historic Preservation (OPRHP) or the year in which you purchased and resided in a qualified historic home that has been rehabilitated. For more information, see the instructions for Form IT-237.

General information

What is the rehabilitation of historic properties credit?
The rehabilitation of historic properties credit is available to taxpayers for expenses related to the rehabilitation of a certified historic structure located in New York State.

For tax years beginning on or after January 1, 2010, and before January 1, 2020, the credit is equal to 100% of the federal credit amount allowed for the qualified rehabilitation expenditures relating to the rehabilitation of a certified historic structure as defined under IRC section 47(c)(3) for the same certified historic structure located in New York State. However, the credit cannot exceed $5,000,000 per structure. There is no limit on the number of structures for which the credit may be taken.

To claim the credit under Tax Law Article 22, including any credit allowed to a shareholder of a New York S corporation, the rehabilitation project must also be in whole or in part located within a census tract that is identified as being at or below 100% of the state median family income as calculated as of January 1 of each year using the most recent five-year estimate from the American Community Survey published by the U.S. Census Bureau.

Any new credit earned from rehabilitated historic properties placed in service on or after January 1, 2015, not used in the current tax year will be treated as a refund or overpayment of tax to be credited to the next year’s tax. Interest will not be paid on the refund or overpayment.

Any carry forward of credit from a prior tax year that is not applied against the tax for the current tax year may be carried over to the following years indefinitely.

Any credit taken must be recaptured if the federal credit on which the New York State credit is based is recaptured. Use Part 7 to calculate the New York State recapture amount.

Who is eligible to claim this credit?
• individuals (including sole proprietors)
• estates or trusts
• partners in a partnership (including members of a Limited Liability Company (LLC) that is treated as a partnership for federal income tax purposes)
• shareholders of a New York S corporation
• beneficiaries of an estate or trust

The credit must be claimed by the same taxpayer(s) that claimed the federal credit. Accordingly, the allocation of the New York State credit among partners in a partnership, members of an LLC, or shareholders of a New York S corporation must follow the same allocation allowed for purposes of the federal tax credit under IRC section 47.

How do I claim the credit?
If you are an individual (including a sole proprietor), file Form IT-238 with your personal income tax return, Form IT-201 or IT-203.

An estate or trust that divides the credit among itself and its beneficiaries must file Form IT-238 with Form IT-205, Fiduciary Income Tax Return, showing each beneficiary’s share of the credit. Provide each beneficiary with information about their share of the credit.

A partnership must file Form IT-238 with Form IT-204, Partnership Return, showing the total amount of the credit. Partnerships must provide each partner with information about their share of the historic properties credit from the partnership.

A New York S corporation cannot file Form IT-238. It must file Form CT-238, Claim for Rehabilitation of Historic Properties Credit. The corporation must provide each shareholder with information about his or her share of the historic properties credit from the S corporation.

When do I claim the credit for the rehabilitation of historic properties?
Generally, you must claim the New York State credit for the same year you were allowed the federal credit for the rehabilitation of historic properties. If you elect under IRC section 47(d) to claim the credit for federal purposes based on when the rehabilitation expenses are paid instead of when the historic structure is placed in service under IRC section 167, you may only claim the New York State credit for the year in which the historic structure is placed in service. However, the New York State credit is equal to 100% of the total federal credit, including any amount of federal credit for the same structure that you claimed in prior years, but may not exceed $5,000,000 per structure for the year the property is placed in service.
