Appendix	Effective Dates of New York State Taxes and Fees Administered by the Department of Taxation and Finance	A-1
Tax Descriptions	Description for some of New York State's Major Taxes	1

---

---

# Overview

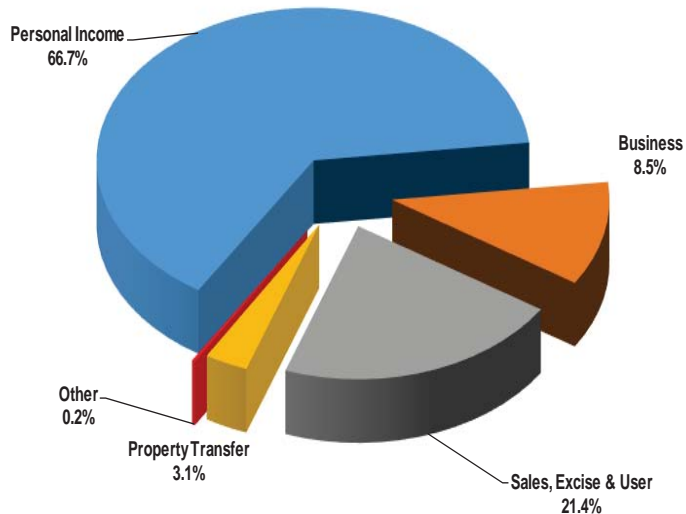

---

This publication contains a series of statistical tabulations detailing taxes administered by the New York State Department of Taxation and Finance. The information presented includes revenues and selected tax structure information for the State's major taxes. It also presents data for taxes, fees and assessments imposed by other State agencies and for some locally imposed taxes that are collected by the Department. This edition presents information for New York State Fiscal Year 2016-2017 (SFY 2016-2017) and some historical statistics. SFY 2016-2017 began April 1, 2016 and ended March 31, 2017.

During SFY 2016-2017, the Department collected \$71.2 billion from State-imposed taxes and fees. The State personal income tax accounted for the largest share, \$47.6 billion. The State sales, excise and user taxes (\$15.2 billion), business taxes (\$6 billion) and property transfer taxes (\$2.2 billion) contributed toward that total. Other taxes and fees totaled about \$0.2 billion. The following chart depicts the share of total revenues from these major sources.

## New York State Tax Collections: Fiscal Year 2016-2017

---

The publication is divided into seven sections containing 26 statistical tables. Section I presents State taxes and fees by major tax group. Sections II through VI contain detailed historical revenue information for the major categories presented in Section I. Where available, additional tax base information is presented. For example, Table 9 in Section III displays the amount of taxable gallons by product type for SFY 2016-17 on which the petroleum business tax was imposed. Section VII contains local taxes collected by the Department. It also shows additional detailed information on local sales tax receipts, the city of New York and city of Yonkers personal income tax and the regional Metropolitan Transportation Authority tax surcharge.

This year's report is the second year that reflects the 2014 corporate tax reform legislation, which merged the bank and general corporate franchise taxes and was first effective in the 2015 tax year. The negative value for bank tax in FY2016 is the result of settlement of prior period refund claims and the movement of unrequested overpayments from bank tax to the corporate franchise tax. The return to a positive value in FY2017 is predominantly the result of prior period audits settling during the fiscal year.

The Appendix summarizes the effective dates for New York's major taxes. For additional information and a summary of New York State and Local General Sales and Compensating Use Tax Rates, please visit the Department's website at [www.tax.ny.gov](http://www.tax.ny.gov). Finally, the Description of Taxes page provides a description for many of New York State's taxes.

Tabular data presented in this publication may also be obtained from the Department's web site at [www.tax.ny.gov/research/stats/statistics/collect\\_policy\\_stat\\_reports.htm](http://www.tax.ny.gov/research/stats/statistics/collect_policy_stat_reports.htm). a/ The category for clearing house banks was introduced to distinguish them from other commercial banks with the implementation of a new returns processing system late in fiscal year 2005-06. During that time and the following fiscal year, several payments were misclassified as received from clearing house banks. During fiscal year 2006-07, accounting adjustments corrected net revenue received by bank category in fiscal year 2005-06 and early fiscal year 2006-07 by moving payments from clearing house banks to other commercial banks. These adjustments resulted in negative net collections for clearing house banks for fiscal year 2006-07. Similar situations occurred in subsequent fiscal years.

b/ Amount for Savings Banks reflects a one-time adjustment for reclassifying a savings bank to a commercial bank.

1/ Taxable gallons are derived from monthly tax liability as reported by distributors on timely-filed returns, related to collection periods, and are before audit adjustments and tax credits.

2/ Beginning January 1999, the non-utility category includes gallons used to generate electricity, which are not eligible for the Tax Law Section 301-d utility credit (i.e. gallons used by entities which are not subject to price regulation by the Public Service Commission). With the continuing deregulation of the State's electric sector, more gallonage used to generate electricity will no longer be eligible for the 301-d utility credit, and will be taxed as commercial gallons, and not as residual fuel or non-highway diesel fuel used in utility production of electricity.

3/ Non-utility use and utility use in production of exhaust steam.

a/ Data not available.

b/ Not applicable; new statutory category effective April 1, 2001.
