## Instructions

#### **General information**

Corporate taxpayers who pay premiums for qualifying longterm care insurance policies may claim a credit against the taxes imposed by Article 9, sections 183, 184, 186, 186-a, and 186-e and Articles 9-A and 33. The credit is equal to 20% of the premiums paid during the tax year for the purchase of, or for continuing coverage under, a long-term care insurance policy that qualifies for the credit pursuant to Insurance Law section 1117. Individuals use Form IT-249, *Claim for Long-Term Care Insurance Credit*, to claim the credit.

A qualifying long-term care insurance policy is one that is:

- approved by the New York State Superintendent of Financial Services pursuant to Insurance Law section 1117(g); or
- a group contract delivered or issued for delivery outside of New York State that is a qualified long-term care insurance contract as defined in Internal Revenue Code (IRC) section 7702B. (Note: IRC section 7702B relates to policies for which a federal itemized deduction is allowed.)

This credit is not refundable. However, any portion of the credit that cannot be applied to the tax for the current tax year may be carried forward indefinitely to the following tax year or years.

The credit may not reduce the tax to less than the following:

- the applicable minimum tax fixed by Article 9, section 183 or 186
- · the fixed dollar minimum under Article 9-A
- \$250 under Article 33

Under Article 9, the credit must first be deducted from the taxes imposed by section 183 or 186. Any credit remaining must then be deducted from the taxes imposed by section 184.

The credit is not allowed against the metropolitan transportation business tax (MTA surcharge) under Article 9, 9-A, or 33.
