Instructions

If the estate **is not required** to file a federal estate tax return, use this form to claim the qualified conservation easement exclusion on the New York State estate tax return.

If the estate **is required** to file a federal estate tax return, do not use Form ET-418. Instead, enter on line 33b of Form ET-90 the amount from item 11 (line 21 of federal Schedule U), Part 5, Recapitulation, page 3, of federal Form 706, *United States Estate Tax Return*. When the estate is required to file a federal estate tax return and does not elect the exclusion on the federal estate tax return, the exclusion is not allowable for New York State estate tax purposes.

To qualify for the exclusion when a federal return is not required:

- 1 The land must be located within 25 miles of a metropolitan area, national park, or wilderness area, or within 10 miles of an Urban National Forest.
- 2 The land must have been owned by the decedent or a member of the decedent's family during the three-year period ending on the date of the decedent's death.
- 3 The land must be included in the decedent's New York gross estate.
- 4 The land must be subject to a qualified conservation easement granted by the decedent or a member of the decedent's family,

and the easement must be placed on the property no later than the date of the election.

- 5 The election to claim the exclusion must be made no later than the due date of the return, including extensions and once made the election is irrevocable.

A qualified conservation easement is a contribution of a qualified real property interest to a qualified organization exclusively for conservation purposes. The granting of a conservation easement does not prevent the property from qualifying for special use valuation.

Line 1 – Enter the date of death value of the land as reported on the appropriate schedule of the estate tax return, without reducing it for any mortgage outstanding. If the land was already subject to a qualifying conservation easement granted prior to the decedent's death, the value reported is the reduced value, and the date of death value of the previously granted easement is reported on line 2.

Line 2 – Enter the date of death value of any qualifying conservation easements granted prior to the decedent's death, whether granted by the decedent or someone else, provided: the value of the qualifying conservation easements is included in the amount on line 7; the value of the land is included in the decedent's estate; and the exclusion is elected for the land.
