New York State addition and subtraction modifications

In the modification descriptions below, you will refer to an individual, estate, trust or partnership, as applicable. See the chart starting on page 17 for information on which forms the modifications apply to.

Form IT-203 filers

Nonresident individuals
Enter in column A, Total amount, the New York State additions or subtractions that must be added to or subtracted from your recomputed federal adjusted gross income (AGI). Enter in column B, NYS allocated amount, the portion that relates to income, loss, or deduction derived from or connected with New York State sources. New York additions and subtractions that relate to intangible items of income, such as interest or ordinary dividends, are only required to the extent the property that generates the income is employed in a business, trade, profession, or occupation carried on in New York State.

Part-year residents
If you were a part-year resident, include the portion of any of the additions and subtractions that relate to your New York State resident period in the NYS allocated amount column. Also, for the period you were a nonresident, include in the NYS allocated amount column the portion of any of the additions and subtractions to the extent they are related to a business, trade, profession, or occupation carried on in New York State or are from real or tangible personal property located in New York State.

Payments for charitable purposes (estates and trusts only)
The additions and subtractions for Form IT-205, schedule B, lines 63 and 67 and items A-102, S-217, and S-116, S-117, S-121, and S-123 need not be made with respect to any amount paid or set aside for charitable purposes.

S corporation shareholders
If you are a shareholder of a federal S corporation for which the election to be a New York S corporation was in effect for the tax year, include any of the following additions and subtractions that apply to your pro rata share of S corporation items of income, gain, loss, or deduction. Additions A-302, A-303, and A-304, and subtraction S-302 do not apply to you since they apply only to nonelecting S corporations. If the election to treat the corporation as a New York S corporation terminated during the tax year, you must make the additions and subtractions only to the extent they are attributable to the period for which the election to be a New York S corporation was in effect. Obtain your share of S corporation items of income, gain, loss, and deduction from the S corporation.

If you are a shareholder of an S corporation that was eligible to make the election to be a New York S corporation for the tax year but did not make the election, include additions A-302, A-303, A-304, and subtraction S-302.

If you were not eligible to make the election to treat your corporation as a New York S corporation because the corporation was not subject to Article 9-A, general business corporation franchise tax, include any of the following additions and subtractions that apply to your pro rata share of S corporation items of income, gain, loss, or deduction. Additions A-301 through A-304, and subtractions S-301 and S-302 do not apply to you since they apply only to electing and nonelecting New York S corporations.
If a gain or loss is recognized on your federal income tax return due to the disposition of stock or indebtedness of an S corporation that did not elect to be a New York S corporation for any tax year after December 31, 1980, make addition A-304 or subtraction S-301, whichever applies to you. You must make the modifications for the tax year of the S corporation that ends in your tax year.

### New York State additions

Write in the applicable number(s) and the amount of each addition modification on lines 1a through 1g.

Any amounts passed to you by a partnership, S corporation, estate, or trust should be entered directly on lines 5a through 5g using the addition modification code provided to you by the entity.

#### A-101 New York City flexible benefits program

(IRC 125)

If a federal Form W-2 wage and tax statement(s) show(s) that an amount was deducted or deferred from your salary under a flexible benefits program established by New York City or certain other New York City public employers on your or a decedent’s behalf, then enter this amount. Certain other New York City public employers include:

- City University of New York;
- NYC Health and Hospitals Corporation;
- NYC Transit Authority;
- NYC Housing Authority;
- NYC Off-Track Betting Corporation;
- NYC Board of Education;
- NYC School Construction Authority;
- NYC Rehabilitation Mortgage Insurance Corporation;
- Manhattan and Bronx Surface Transit Operating Authority; and
- Staten Island Rapid Transit Authority.

#### A-102 Income from certain obligations of U.S. government agencies or instrumentalities

If, during the tax year, any interest or dividend income from any U.S. government authority, commission, or instrumentality that federal laws exempt from federal income tax but do not exempt from state income tax was received or credited, then enter that income. If you are uncertain whether a particular federal bond or obligation is subject to state income tax, contact the Tax Department (see Need help? in the instructions for the return you are filing).

#### A-103 New York’s 529 college savings program distributions

If a nonqualified withdrawal was made from an account established under New York’s 529 college savings program, then enter in the Total amount column the amount from line 7 of the worksheet on page 4.

⚠️ Full-year resident individuals: Do not include this modification on Form IT-225. Instead, enter the addition modification on Form IT-201, line 22, if applicable. See the instructions for Form IT-201, line 22.

Part-year resident individuals only: Also include in the New York State allocated amount column any portion of line 7 made while a resident of New York State.

A withdrawal is nonqualified if any of the following apply:

1. The withdrawal is actually disbursed in cash or in-kind from the college savings program and the funds are not used for the higher education of the designated beneficiary (even if the amount withdrawn is reinvested in New York’s college savings program within the IRC 60-day rollover period).

   For purposes of the above, higher education generally means public or private, non-profit or proprietary post-secondary educational institutions, in or outside New York State. Therefore, any withdrawal from a New York 529 college savings program used to pay tuition in connection with enrollment or attendance at elementary or secondary public, private, or religious schools, is a nonqualified withdrawal.

2. If on or after January 1, 2003, the funds are transferred from New York’s 529 college savings program to another state’s program (whether for the same beneficiary or for the benefit of another family member).

   However, nonqualified withdrawals do not include any withdrawals made in 2020 as a result of the death or disability of the designated beneficiary, regardless of how the funds are used. If you have participated in a New York 529 college savings program, a rollover of some or all its assets, either contributions or earnings, to a Qualified ABLE program is not considered a nonqualified withdrawal and requires no addition to your recomputed federal AGI in computing New York AGI.

3. The withdrawal is used to pay the principal or interest on any qualified education loan [as defined in IRC § 221(d)] of the designated beneficiary or a sibling of the designated beneficiary.

4. The withdrawal is used to pay expenses for fees, books, supplies, and equipment required for the participation of a designated beneficiary in an apprenticeship program.

**Note:** Transfers between accounts of family members not disbursed in cash or in-kind within New York’s program are not considered distributions and therefore not required to be added back as nonqualified withdrawals.

Include applicable amounts from all existing accounts owned on lines 1 through 7 of the worksheet below. Do not include amounts applicable to accounts that were closed in a prior tax year. If you are filing a joint return, include the applicable amounts from all existing accounts owned by you and your spouse.

**Also note:** Before completing the worksheet on page 4, you must first compute your subtraction modification S-103.
**Worksheet**

1. Total current and prior years’ nonqualified withdrawals from your account(s) ............ 1

2. Total current and prior years’ contributions to your account(s) ...................... 2

3. Total current year’s S-103 subtraction modification and prior years’ subtraction modifications* ..................... 3

4. Subtract line 3 from line 2 .. 4

5. Total prior years’ addition modifications* ........................................ 5

6. Add lines 4 and 5 ........................................................................ 6

7. Subtract line 6 from line 1. This is your current year A-103 addition modification. Enter on Form IT-225, line 1. If line 7 is 0 (zero) or less, there is no entry required on Form IT-225, line 1 for this addition ...... 7

*Be sure to include all prior years’ addition and subtraction modifications. Keep this worksheet with your copy of your return.

**A-104 414(h) retirement contributions**

**Individually:** Do not include this modification on Form IT-225. Instead, enter the addition modification on Form IT-201, line 21, or Form IT-203, line 21, if applicable. See the instructions for the return you are filing.

If an estate or trust has an amount shown on a decedent’s wage and tax statement(s), federal Form W-2, that was deducted from their salary as a retirement contribution, then enter that amount. **Note:** These are retirement contributions made by:

- a member of the New York State and Local Retirement Systems, which include the New York State Employees’ Retirement System and the New York State Police and Fire Retirement System; or
- a member of the New York State Teachers’ Retirement System; or
- a deceased employee of the State or City University of New York who belongs to the Optional Retirement Program; or
- a member of the New York City Employees’ Retirement System, the New York City Teachers’ Retirement System, the New York City Board of Education Retirement System, the New York City Police Pension Fund or the New York City Fire Department Pension Fund; or
- a member of the Manhattan and Bronx Surface Transit Operating Authority (MABSTOA) Pension Plan.

Do not enter contributions to an IRC section 401(k) deferred arrangement, IRC section 403(b) annuity, or IRC section 457 deferred compensation plan.

**A-105 Special additional mortgage recording tax deduction**

If special additional mortgage recording tax was deducted in computing your federal income, and the special additional tax was paid before January 1, 1988, and in a prior year you were allowed a New York State personal income tax credit for that tax, then enter the amount deducted. Do not make the addition for the tax paid to record a mortgage on or after January 1, 2004, even if you claimed a credit for that tax.

**A-106 Special additional mortgage recording tax basis adjustment**

If property on which you paid a special additional mortgage recording tax was sold or disposed of, and a special additional tax was paid before January 1, 1988, and in a prior year you or the partners claimed a New York State personal income tax credit for that tax, then enter the amount, if any, of the federal basis of the property that was not adjusted to reflect the amount of the credit allowed.

**A-107 Sales or dispositions of assets acquired from decedents**

**Note:** This modification is not required for property acquired from decedents who died on or after February 1, 2000.

Assets of decedents can sometimes have different bases for state and federal tax purposes. This requires adjustments in the gain or loss on the sale or disposition of those assets.

If during the tax year, there was a sale or other disposition of any assets that had been inherited or sold or disposed of directly by the estate of a decedent; and

- the estate of the decedent was not large enough to require a federal estate tax return; and
- the executor or administrator of that estate had valued those assets for New York State income tax purposes at less than their value for federal income tax purposes, then enter the difference between (a) the gain or loss on that sale or disposition that was included in your federal income for the tax year and (b) the gain or loss that would have resulted if the assets had been valued the same for New York State income tax purposes as for federal income tax purposes.

**A-108 Disposition of solar and wind energy systems**

If in any tax year beginning on or after January 1, 1981, and ending before December 31, 1986, you took a New York State solar and wind energy credit on property; and

- that property was sold or otherwise disposed of during the tax year; and
- a reportable gain resulted for federal income tax purposes from that sale or disposition; and
- you had included the cost of the energy system in the federal basis of the property but did not reduce the federal basis by the state credit, then enter the amount of the credit you had previously claimed.

**A-109 New business investment; deferral recognition**

If, in any tax year beginning on or after January 1, 1982, and before 1988, you chose to subtract all or a portion of a long term capital gain from your federal income because that amount had been reinvested in a new New York business, and if that reinvestment was sold in the current tax year, then enter the amount that had been previously subtracted.

**A-110 Qualified emerging technology investments (QETI)**

If you elected to defer the gain from the sale of QETI because you reinvested in a New York qualified emerging technology company, and if you sold that reinvestment during the tax year, then you must enter the amount previously deferred. See S-115.
A-111  Interest expense on loans used to buy obligations exempt from NYS tax, amortized bond premium on bonds that are exempt from NYS tax and other expenses relating to the production of income exempt from NYS tax

a) If your federal income includes a deduction for interest expense used to buy bonds, obligations, or securities whose interest income is taxable for federal purposes but exempt from New York State tax, then enter that interest expense.

b) If your federal income includes a deduction for the amortization of bond premiums on bonds whose interest income is taxable for federal purposes but exempt from NYS tax, then enter that amortized premium.

c) If your federal income includes a deduction for expenses relating to the production of income which is taxable for federal purposes but exempt from New York State tax, then enter that expense.

A-112  Health insurance and the welfare benefit fund surcharge

If you or a decedent were a career pension plan member of the NYC Employees’ Retirement System or the NYC Board of Education Retirement System; and your or the decedent’s wage and tax statement(s), federal Form W-2, show an amount that was deducted for salary for health insurance and the welfare benefit fund surcharge, then enter that amount.

A-113  Interest income on state and local bonds and obligations (but not those of New York State or its local governments)

a) Individuals: Do not include this modification on Form IT-225. Instead, enter the addition modification on Form IT-201, line 20, or Form IT-203, line 20, as applicable.

b) Estates and trusts: Do not include this modification on Form IT-225. Instead, enter the addition modification on Form IT-205, line 63.

Interest income on obligations of other states or political subdivisions of those states that is exempt from federal income tax is subject to New York State tax. This includes interest income on state and local bonds (but not those of New York State and local governments within the state), interest and dividend income from tax-exempt bond mutual funds, and tax-exempt money market funds that invest in obligations of states other than New York (section 612(b)(1)).

If you purchased a bond between interest dates, include the amount of interest you received during the year, less the seller’s accrued interest (the amount accrued from the interest date preceding your purchase to the date you purchased the bond). If you sold a bond between interest dates, include the amount of interest you received during the year plus the accrued interest amount (the amount accrued from the interest date preceding the date you sold the bond to the date you sold the bond). You should have received this information when you purchased or sold the bond.

A-114  Form 4970 accumulation distribution of trusts

If you filed federal Form 4970, Tax on Accumulation Distribution of Trusts, the income you reported on line 1 of Form 4970 is not included on line 11 of Form IT-201 or IT-203 because the IRC considers the distribution part of federal gross income. You must therefore enter the amount of income you reported on Form 4970, line 1, less any interest income on state and local bonds and obligations of New York State and its local governments (that was included on Form 4970, line 5).

A-115  Special accruals

If you have or had a change in resident status, you may have to use special accrual rules to compute your tax. Income accrues to you as a taxpayer when the amount becomes fixed and determinable and you have an unrestricted right to receive it. An accrued expense is a cost that has been incurred but not yet paid. See the instructions for the return you are filing for more information on special accruals.

If you are subject to the special accrual rules, then enter your accrued item of income, gain, loss, or deduction. Also see S-129.

A-116  Resident beneficiary accumulation distribution

For tax years beginning on or after January 1, 2014, if you are the beneficiary of a trust that, in any tax year, was not subject to tax because it met the conditions of Tax Law section 605(b)(3)(D) (except for an incomplete gift non-grantor trust). You must add to your recomputed federal AGI the amount determined under the first sentence of IRC section 677 for the tax year, to the extent not included in recomputed federal AGI. In computing the amount to be added, the beneficiary shall disregard IRC section 665(c), income earned by the trust in any tax year the trust was subject to New York tax, and income earned by the trust in any tax year before the beneficiary first became a resident of New York. Do not include any income paid to a beneficiary before June 1, 2014. See Tax Law section 612(b)(40) and TSB-M-14(3).

A-117  Incomplete gift non-grantor trust

If you transferred property to an incomplete gift non-grantor trust, then include the income (less deductions) of the trust, to the extent such income would be taken into account in computing your federal taxable income if the trust in its entirety were treated as a grantor trust for federal tax purposes.

An incomplete gift non-grantor trust means a resident trust that does not qualify as a grantor trust under IRC sections 671 through 679 and the grantor’s transfer of assets to the trust is treated as an incomplete gift under IRC section 2511 and its regulations. Do not include any income from a trust that was liquidated before June 1, 2014.

A-118  Net gain from casualty or theft

If you claim the New York itemized deduction for a casualty or theft loss and you computed a net gain on line 15 of the Casualty and theft worksheet for Form IT-196, New York Resident, Nonresident, and Part-Year Resident Itemized Deductions, then you must enter any gain as income, to the extent not already included as income on your federal return (Form 1040 or 1040NR, Schedule D).

These gains are considered income for New York State purposes and must be included as income on your tax return. For more information regarding casualty and theft loss that results in a net gain, see the instructions for Form IT-196.

A-119  Alimony or separate maintenance payments received

If you received any applicable alimony or separate maintenance payments during the tax year, then enter the amount received.

An applicable alimony or separate maintenance payment is a payment made under an alimony or separation instrument (as defined in IRC § 71 as it was in effect immediately prior to the enactment of Public Law 115-97) that was executed...
after December 31, 2018. This also applies to any divorce or separation instrument executed on or before December 31, 2018, and modified after December 31, 2018, if the modification to the instrument expressly provides that the addition and subtraction modifications contained in Tax Law § 612(w) apply.

⚠️ You must provide your SSN or individual taxpayer identification number (ITIN) to the spouse or former spouse who paid the alimony or separate maintenance payments.

**A-120 IRC § 199A deduction**

If an estate or trust was allowed a deduction under IRC section 199A in computing federal taxable income, then enter the amount of that deduction.

Are you a Form IT-201 or Form IT-203 filer who files federal Schedule(s) C, E, or F, or are you filing Form IT-204 or Form IT-205?

If **No**, go to New York State subtractions.

If **Yes**, see the addition modifications below.

**A-201 Personal income taxes and unincorporated business taxes deducted in determining recomputed federal AGI**

You may not deduct personal income taxes or unincorporated business taxes in computing New York State income.

If you included a deduction for state, local, or foreign income taxes, including unincorporated business taxes, when computing your federal income, then you must enter the amount of that deduction. For example, if you operated a business and deducted New York City unincorporated business tax on your federal return as an expense of doing business, include this tax amount.

**Note:** The New York State filing fee paid on Form IT-204-LL, Partnership, Limited Liability Company, and Limited Liability Partnership Filing Fee Payment Form, is not an income tax and therefore not included in this modification.

⚠️ **Estates and trusts:** Do not include this modification on Form IT-225. Instead, enter the addition modification, if applicable, on Form IT-205, line 64.

**S corporation shareholders:** If you are a shareholder of a federal S corporation for which a New York S election was in effect; and that corporation deducted taxes imposed by Article 9-A (general business corporation franchise tax) of the New York State Tax Law, then enter your pro rata share of those taxes. (However, you do not need to include state or local taxes of another state, political subdivision of another state, or the District of Columbia.)

**A-202 Percentage depletion**

If you claimed a deduction on your federal return for percentage depletion, then enter the amount deducted in computing your federal income. Also see S-206.

**A-203 Safe harbor leases (IRC section 168(f)(8))**

If, in computing your federal income, you took deductions attributable to a safe harbor lease (except for mass transit vehicles) made under an election provided for by IRC section 168(f)(8) as it was in effect for agreements entered into prior to January 1, 1984, then enter those deductions. Also see A-204, S-208, and S-209.

**A-204 Safe harbor leases**

If your financial matters during the tax year involved a safe harbor lease (except for mass transit vehicles) made under an election provided for by section 168(f)(8) of the IRC as it was in effect for agreements entered into prior to January 1, 1984, then you must enter the income that would have been included in federal income if such an election had not been made. Also see A-203, S-208, and S-209.

**A-205 Accelerated cost recovery system (ACRS) deduction**

If you claimed ACRS depreciation on your federal return for:
- property placed in service during tax years 1981 through 1984 (other than 280F property); or
- property placed in service outside New York State during tax years 1985 through 1993 (other than 280F property) and you elect to continue using IRC 167 depreciation (see TSB-M-99(1));

then enter the amount that was deducted in computing your federal income. You must submit Form IT-399, New York State Depreciation Schedule, with your return.

**Partners, shareholders, and beneficiaries** - Do not complete Form IT-399 to determine the amount to enter. The amount to enter should be provided to you by the entity of which you are a partner, shareholder, or beneficiary.

**A-206 ACRS property; year of disposition adjustment**

If you disposed of property that was depreciated for federal purposes using ACRS, and if ACRS depreciation was not allowed for state purposes (see A-205), then you must complete Part 2 of Form IT-399, New York State Depreciation Schedule, to determine the amount to enter. Submit Form IT-399 with your return. Also see S-211.

**Partners, shareholders, and beneficiaries** - Do not complete Form IT-399 to determine the amount to enter. The amount to enter should be provided to you by the entity of which you are a partner, shareholder, or beneficiary.

**A-207 Farmers’ school tax credit**

If you claimed the farmers’ school tax credit on your 2019 New York State tax return, and you deducted the school taxes in computing federal income on your 2019 federal return, then you must enter the amount of the credit claimed for 2019 on this year’s return. However, do not make this modification if you were required to report the amount of the credit as income on the 2020 federal return.

**A-208 Sport utility vehicle expense deduction**

If you claimed an IRC section 179 deduction on your federal return with respect to a sport utility vehicle that weighs more than 6,000 pounds, and you are not an eligible farmer as defined for purposes of the farmers’ school tax credit (see Form IT-217-I, Instructions for Form IT-217, Claim for Farmers’ School Tax Credit), then enter the amount of that deduction.

**Note:** If a partner is an eligible farmer for purposes of the farmers’ school tax credit, the partner is not required to make an addition modification for their share of the A-208 modification.

A sport utility vehicle is any four-wheeled passenger vehicle manufactured primarily for use on public streets, roads, and highways. However, sport utility vehicle does not include (1) any ambulance, hearse, or combination ambulance-hearse used directly in a trade or business; (2) any vehicle used directly in...

If you claimed a depreciation deduction for such property, and if no exception for reserse zone or New York liberty zone property applies, then complete Part 1 of Form IT-398, New York State Depreciation Schedule for IRC Section 168(k) Property, to determine the amount to enter. Submit Form IT-398 with your return.

**Partners, shareholders, and beneficiaries - Do not complete Form IT-398 to determine the amount to enter. The amount to enter should be provided to you by the entity of which you are a partner, shareholder, or beneficiary.**

**A-210 Special depreciation**

If you made an election for tax years beginning before 1987 for:

- special depreciation,
- research and development expenditures,
- waste treatment facility expenditures,
- air pollution control equipment expenditures, or
- acid deposition control equipment,

then enter the amount of depreciation or expenditures relating to these items that was deducted in computing federal income on your return. Submit Form IT-211, Special Depreciation Schedule, with your return. Also see S-207.

**Partners, shareholders, and beneficiaries - Do not complete Form IT-211 to determine the amount to enter. The amount to enter should be provided to you by the entity of which you are a partner, shareholder, or beneficiary.**

**A-211 Royalty and interest payments made to a related member or members**

For tax years beginning on or after January 1, 2003, New York requires certain taxpayers to add back deductions they took on their federal return for certain royalty payments for the use of intangible property, such as trademarks or patents, and interest payments they made to a related member or members. Include the amount for any such payments you deducted in computing your federal income. See Tax Law section 612(r).

Exceptions to this add back apply. For more information on the exceptions, see TSB-M-13(4). If you believe you do not have to make this add back as a result of one of the exceptions, attach a statement to your return explaining how you meet each requirement for the exception.

**A-212 Environmental remediation insurance premiums**

If you paid premiums for environmental remediation insurance and you claimed a deduction for such premiums and you also claimed the environmental remediation insurance credit by filing Form IT-613, Claim for Environmental Remediation Insurance Credit For Qualified Sites Accepted into the Brownfield Cleanup Program Prior to July 1, 2015, then enter the amount of the environmental remediation insurance credit allowed.

**A-214 Metropolitan commuter transportation mobility tax (MCTMT)**

If you claimed a federal deduction for the MCTMT imposed under Article 23 of the Tax Law, then enter the amount deducted.

**A-215 NOL deduction limitation**

If you reported adjustment code S-004 on Form IT-558, New York State Adjustments due to Decoupling from the IRC, and your recomputed NOL deduction included losses incurred before January 1, 2018, and your federal taxable income is less than your recomputed federal NOL deduction, then complete the NOL worksheet below. Enter the amount from line 6 of the worksheet as your New York State NOL addition modification in the Total amount column.

**Note:** For purposes of this modification, federal taxable income must be computed:

- as if the changes to the IRC after March 1, 2020, did not occur; and
- without the NOL deduction

**Form IT-203 filers: Do not enter an amount in the New York State allocated amount column.**

**NOL worksheet**

**Part 1 – New York State NOL deduction computation**

1. Enter as a positive number your recomputed federal NOL deduction as shown on Form IT-558 (adjustment code S-004) ........................................ 1

2. Enter your federal taxable income computed as if the changes to the IRC after March 1, 2020, did not occur and without the NOL deduction from line 1. If this amount is less than zero, enter 0 ........................................ 2

3. Enter the lesser of line 1 or line 2. This is the amount of NOL deduction you are allowed when computing your New York adjusted gross income. (If the amount on line 3 is less than the amount on line 1, complete Part 2, below.) ........................................ 3

**Note:** When determining the amount to enter on line 2, you may need to recompute certain federal items of income and deduction that are limited based on recomputed federal AGI.

**Part 2 – NOL addition modification**

If your NOL deduction allowed (line 3 above) is less than the amount on line 1 (above), the NOL deduction allowed for New York State income tax purposes is less than the NOL amount used to determine your recomputed federal AGI for the same tax year. To account for the difference between the NOL amount used to compute your recomputed federal AGI and the NOL amount allowed in the computation of your New York adjusted gross income, you must compute and report an NOL addition modification. Use the amounts from line 1 and line 3, above, to compute the amount that must be reported as an NOL addition modification on Form IT-225.

4. Enter the amount from Part 1, line 1 ............... 4

5. Enter the amount from Part 1, line 3 ............... 5

6. Subtract line 5 from line 4 and enter the result. If the result is less than zero, enter 0. This is your NOL addition modification ............. 6

S corporation shareholders

If you did not include S corporation distributions in your recomputed federal AGI due to the application of IRC sections 1368, 1371(e), or 1379(c) and these distributions were not previously subject to New York personal income tax because the corporation was a New York C corporation, then enter these distributions.

S corporation shareholders; disposition of stock or indebtedness with increased basis

Federal law requires holders of stock or indebtedness in a federal S corporation to include undistributed taxable income in their federal AGI and take a corresponding increase in basis. New York law requires a similar increase in basis on disposition of the stock or indebtedness where the federal S corporation is or was a New York C corporation.

If you reported a federal gain or loss because of the disposition of stock or indebtedness of an S corporation and that S corporation was a New York C corporation for any tax year beginning after December 31, 1980 (in the case of a corporation taxable under Article 9-A, general business corporation tax), or December 31, 1996 (in the case of a corporation taxable under Article 32 (banking corporation franchise tax) when it was in effect before its repeal), then enter the increase in the basis of the stock or indebtedness that is due to the application of IRC sections 1376(a) (as in effect for tax years beginning before January 1, 1983) and 1367(a)(1)(A) and (B) for each tax year that a New York S election was not in effect.

START-UP NY wages

START-UP NY wages should be reflected on your Form W-2 and will be reported to New York State by your employer.

To be eligible for the wage exclusion you must:

If eligible, then you are allowed a subtraction modification (exclusion) on your return as follows:
- During the first five years of an approved START-UP NY business’s 10 consecutive tax year period, the total wages paid to you by an approved business are to be subtracted from recomputed federal AGI, to the extent the wages are included in recomputed federal AGI, when computing New York adjusted gross income.
- During the second five years of the approved business’s 10 consecutive tax year period, the allowed wage exclusion for an eligible employee is:
  - $200,000 of annual wages, if your filing status is single,
  - $250,000 of annual wages, if your filing status is head of household, or
  - $300,000 of annual wages, if you are filing a joint return, to the extent included in recomputed federal AGI of the employee of the approved business.
New York State Tax Law allows for a pension and annuity income exclusion, but not more than $20,000, for pension and annuity income included in federal taxable income.

If the estate or trust received pension and annuity income of a decedent, then the estate or trust may make this subtraction if the decedent would have been entitled to it, had the decedent continued to live, regardless of the age of the beneficiary. If the decedent would have become 59½ during 2020, enter only the amount received after the decedent would have become 59½, but not more than $20,000.

Qualifying pension and annuity income does not include:
• distributions received as a nonemployee spouse in accordance with a court-issued qualified domestic relations order (QDRO) that meets the criteria of IRC section 414(p)(1)(A), or in accordance with a domestic relations order (DRO) issued by a New York court, or
• distributions received as a result of an annuity contract purchased with your own funds from an insurance company or other financial institution. The payments are attributable to premium payments made by you, from your own funds, and are not attributable to personal services performed.

Note: Do not enter any pension received from New York State or its political subdivisions.

Qualifying pension and annuity income includes the following:
• periodic payment for services performed as an employee before retirement;
• periodic and lump-sum payments from an IRA or from an HR-10 (Keogh) plan, but not payments derived from contributions made after retirement;
• lump-sum payment for services performed as an employee before retirement;
• distributions received as a result of an annuity contract purchased with your own funds from an insurance company or other financial institution. The payments are attributable to premium payments made by you, from your own funds, and are not attributable to personal services performed.

For more information, see Publication 36, General Information for Senior Citizens and Retired Persons.

Estates and trusts: If a decedent received any pension or distributions from a pension plan that represents a return of contributions in a year prior to retirement, as an officer, employee, or beneficiary of an officer or employee of:
• New York State, which includes:
  – State and City University of New York and New York State Education Department employees who belong to the Optional Retirement Program. Optional Retirement Program members may only subtract that portion
attributable to employment with the State or City University of New York or the New York State Education Department.

- Certain public authorities, including:
  - Metropolitan Transit Authority (MTA) Police 20-year Retirement Program;
  - Manhattan and Bronx Surface Transit Operating Authority (MABSTOA); and
  - Long Island Railroad Company;
- local governments within the state; or
- the United States, its territories or possessions, political subdivisions of these territories or possessions, the District of Columbia, or any agency or instrumentality of any of the above (including the military)

that was included in federal taxable income; then enter that amount.

For more information, see Publication 36, General Information for Senior Citizens and Retired Persons.

Also include distributions received from a New York State or local pension plan or from a federal government pension plan as a nonemployee spouse in accordance with a court-issued qualified domestic relations order (QDRO) that meets the criteria of IRC section 414(p)(1)(A), or in accordance with a domestic relations order (DRO) issued by a New York court. For additional information, see Publication 36.

You may not subtract (1) pension payments or returns of contributions that were attributable to the decedent’s employment by an employer other than a New York public employer, such as a private university, and any portion attributable to contributions the decedent made to a supplemental annuity plan which was funded through a salary reduction program, or (2) periodic distributions from government (IRC section 457) deferred compensation plans. However, these payments may qualify for the pension and annuity income exclusion; see S-106 Pension and annuity income exclusion.

Accelerated death benefits received that were includable in recomputed federal AGI

Enter any amount you included in federal income that was received by any person as (a) an accelerated payment or payments of part or all of the death benefit or special surrender value under a life insurance policy, or (b) a viatical settlement, as a result of a terminal illness (life expectancy of 12 months or less), or of a medical condition requiring extraordinary medical treatment, regardless of life expectancy.

Distributions made to a victim of Nazi persecution

Enter amounts included in federal income from an eligible settlement fund or grantor trust as defined by section 13 of the Tax Law (because you were persecuted or targeted for persecution by the Nazi regime), or distributions received because of your or a decedent’s status as a victim of Nazi persecution, or as a spouse or heir of the victim (successors or assignees, if payment is from an eligible settlement fund or grantor trust).

Items of income related to assets stolen from or otherwise lost to a victim of Nazi persecution

Enter items of income included in federal income attributable to, derived from, or in any way related to assets stolen from, hidden from, or otherwise lost to a victim of Nazi persecution immediately prior to, during, and immediately after World War II, including but not limited to interest on the proceeds receivable as insurance under policies issued to a victim of Nazi persecution by European insurance companies immediately prior to and during World War II, or as a spouse or heir of such victim.

However, do not include income attributable to assets acquired with assets as described above or with the proceeds from the sale of any asset described above. Also, do not include any income if you were not the first recipient of the asset, or if you are not considered a victim of Nazi persecution, or a spouse or descendent of a victim.

Professional service corporation shareholders

If in a tax year ending after 1969 and beginning before 1988, you were required to add to your federal income deductions made by a plan acquired through membership in a professional service corporation (PSC), then enter the portion of those deductions that can be allocated to pension, annuity, or other income you received from the plan, and were included in your federal income.

Gain to be subtracted from the sale of a new business investment reported on your federal income tax return

Individuals: If you reported a capital gain on your federal income tax return from the sale of a new business investment, as defined in NYS Tax Law section 612(o), that was issued before 1988 and was held at least six years, then include one-hundred percent (100%) of that federal gain.

Estates and trusts: This subtraction may be made only to the extent that it relates to items included in the federal distributable net income of the estate or trust.

Qualified emerging technology investments (QETI)

In general, you may defer the gain on the sale of QETI that are (1) held for more than 36 months, and (2) rolled over into the purchase of replacement QETI within 365 days from, and including, the date of sale. However:

- you must recognize any gain to the extent that the amount realized on the sale of the original QETI exceeds the cost of replacement QETI;
- you must add back any deferred gain in the year you sell the replacement QETI; and
- the gain deferral applies only to QETI sold on or after March 12, 1998, that was held for more than 36 months.

If you elect to defer the gain from the sale of QETI, then enter the amount of the deferred gain. This amount may not exceed the amount of the gain included in your federal income.

- If the purchase of replacement QETI within the 365-day period occurred in the same tax year as the sale of the original QETI, or in the following tax year and before the date you filed a New York State tax return, then, take the deduction on that return.
- If the purchase of replacement QETI within the 365-day period occurred in the following tax year and on or after the date you filed a New York State tax return, then you must file an amended tax return to claim the deduction.
• If the deferred gain must be included in a subsequent year’s tax return because the replacement QETI has been sold, then enter that amount as an addition to federal income (see A-110).

A QETI is an investment in the stock of a corporation, or an ownership interest in a partnership or limited liability company (LLC) that is a qualified emerging technology company, or an investment in a partnership or an LLC to the extent that such partnership or LLC invests in such companies. The taxpayer must acquire the investment as provided in IRC section 1202(c)(1)(B), or from a person who acquired it pursuant to that section. IRC section 1202(c)(1)(B) requires the acquisition to be original issue from the company, either directly or through an underwriter, and in exchange for cash, services, or property (but not in stock).

A qualified emerging technology company (QETC) is a company that is located in New York State, has total annual product sales of 10 million dollars or less, and meets certain criteria. See Form DTF-620, Application for Certification of a Qualified Emerging Technology Company.

Sales or dispositions of assets acquired before 1960 with greater state than federal bases

New York State income tax laws prior to 1960 and current laws regarding depletion can result in a difference in the state and federal adjusted bases of certain assets. If you realize a federally taxable gain from the sale of an asset that had a higher adjusted basis for state tax purposes, you may make a modification to reduce your gain for state tax purposes.

If your federal income included gain that was from either:
• property that had a higher adjusted basis for NYS income tax purposes than for federal tax purposes on December 31, 1959 (or on the last day of a fiscal year ending during 1960); or
• property that was held in connection with mines, oil or gas wells, and other natural deposits and that had a higher adjusted basis for NYS income tax purposes than for federal tax purposes when sold;
then enter the lesser of the gain itself or the difference in the adjusted bases.

Individuals: If you divide gain with respect to jointly owned property between you and your spouse, then you must also divide any subtraction for different adjusted bases between you and your spouse.

Partnership: Interest income on bonds or other obligations of the U.S. government is not taxed by New York. Dividends received from a regulated investment company (mutual fund) that invests in obligations of the U.S. government and meet the 50% asset requirement each quarter qualify for this subtraction. The portion of dividends that may be subtracted is based upon the portion of taxable income received by the mutual fund that is derived from federal obligations (section 612(c)(1)). If the

For federal income tax purposes, the moving expense deduction rules changed for tax years 2018 through 2025.

If during the tax year you received any qualified moving expense reimbursements or paid any moving expenses, then enter those amounts.

For New York income tax purposes, you can claim qualified moving expense reimbursement amounts (as defined under IRC § 132(g) as it existed prior to the Federal Tax Cuts and Jobs Act) you received (directly or indirectly) from an employer as payment for, or a reimbursement of, moving expenses (defined below) directly paid by you. You cannot claim any payment for, or reimbursement of, a moving expense actually deducted by you in a prior year.

- Moving expenses means expenses that are reasonable for the circumstances of your move. For example, the cost of traveling from your former home to your new one should be the shortest, most direct route available by conventional transportation. If, during your trip to your new home, you stop over, or make side trips for sightseeing, the additional expenses for your stopover or side trips are not deductible as moving expenses. You can deduct the following items as reasonable expenses:
  - moving your household goods and personal effects (including in-transit or foreign-move storage expenses, and
  - traveling (including lodging but not meals) to your new home.

Who can deduct moving expenses: If you move to a new home because of a new principal workplace, you may be able to deduct your moving expenses. You must meet both the distance and time tests that follow. Also, your move must be closely related both in time and place to the start of work at your new job location. For more information, see 2017 IRS Publication 521, Moving Expenses.

Distance test: Your new principal workplace must be at least 50 miles farther from your old home than your old workplace was. For example, if your old workplace was 3 miles from your old home, your new workplace must be at least 53 miles from that home. If you did not have an old workplace, your new workplace must be at least 50 miles from your old home. The distance between the two points is the shortest of the more commonly traveled routes between them.

Time test: If you are an employee, you must work full-time in the general area of your new workplace for at least 39 weeks during the 12 months right after you move. If you are self-employed, you must work full time in the general area of your new workplace for at least 39 weeks during the first 12 months and a total of at least 78 weeks during the 24 months right after you move.

Exception to the time test: You do not have to meet the time test if any of the following apply:

- Your job ends because of disability
- You are transferred for your employer’s benefit
- You are laid off or discharged for a reason other than willful misconduct
- You are in the Armed Forces and the move is due to a permanent change of station (see below)
- You meet the requirements for certain retirees or survivors living outside the United States when you move to a new home in the U.S. (see 2017 IRS Publication 521)
- You are filing this form for a decedent

Members of the Armed Forces: If you are in the Armed Forces, you do not have to meet the distance and time tests if the move is due to a permanent change of station. A permanent change of station includes a move in connection with and within one year of retirement or other termination of active duty.

Alimony or separate maintenance payments paid

If you made any applicable alimony or separate maintenance payments during the tax year, then enter the amount paid. See addition modification A-119 for the definition of applicable alimony or separate maintenance payment.

Form IT-203 filers: You must use the following formula to compute the amount to report in the NYS allocated amount column for alimony or separate maintenance payments paid:

\[ \text{Form IT-203, line 17 NYS amount column} \times \text{Alimony or separate maintenance payments paid} = \text{New York State allocated amount of alimony or separate maintenance payments paid}\]

The amount reported in the NYS allocated amount column cannot exceed the amount reported in the Total amount column.

*If this amount is a negative number, enter zero in the New York State allocated amount column.

You must attach a statement to your return that includes the SSN or ITIN of the spouse(s) or former spouse(s) receiving the alimony or separate maintenance payments.

Volunteer firefighter enhanced cancer disability benefits

If you were an eligible volunteer firefighter who received insurance payments related to the cancer disability benefits described in General Municipal Law § 205-cc, then enter the amount of such insurance payments includable in federal gross income.

State and local tax deduction other than state and local sales taxes and income taxes

If an estate or trust claimed a deduction for taxes under IRC § 164 that was limited to $10,000 as provided in IRC § 164(b)(6)(B), or that was denied under IRC § 164(b)(6)(A), then enter the amount of state and local taxes that the estate or trust was not able to deduct for federal income tax purposes because of such limitation or denial, other than state and local sales taxes and income taxes as described in Tax Law § 615(c)(1).

Note: In determining the makeup of the $10,000 of deduction claimed by the estate or trust under IRC § 164, it shall be presumed that the $10,000 first comprises the state and local amounts.
income taxes (or sales taxes, if applicable) the estate or trust accrued or paid during the tax year.

**Miscellaneous itemized deductions**

If an estate or trust had miscellaneous itemized deductions, as described in and limited by IRC § 67 (excluding the deductions described in section 67(e)), that the estate or trust was not able to deduct for federal income tax purposes due solely to IRC § 67(g), then enter the amount disallowed under IRC § 67(g).

Are you a Form IT-201 or Form IT-203 filer who files federal Schedule(s) C, E, or F, or are you filing Form IT-204 or Form IT-205?

If No, go to the instructions for line 18.

If Yes, see subtraction modifications below.

**Small business modification**

If you are a farm business or small business that is a sole proprietor, or a farm business that is a partnership (or an LLC treated as a partnership for federal income tax purposes) or a qualified joint venture, then:

- employs one or more persons during the tax year; and
- has net farm income or small business income of greater than zero but less than $250,000;

then you may deduct an amount equal to 5% of the net items of income, gain, loss, and deduction attributable to a sole proprietorship or farm business included in your recomputed federal AGI (but not less than zero).

For more information, see TSB-M-14(5), Small Business Subtraction Modification.

**Interest expense on loans used to buy federally tax-exempt obligations that are taxable to New York State**

**Individuals:** If you included interest income from bonds or other obligations that is federally tax exempt but taxable to NYS (as a New York addition), and the expense you incurred in buying the obligation is attributable to a trade or business you carried on, then enter that expense.

**Estates and trusts:** If the estate or trust included interest income from bonds or other obligations that are federally tax exempt but taxable to NYS (as a New York addition), and if the estate or trust reduced their federal taxable income by deducting interest expense on money borrowed to purchase or carry those obligations, then enter that expense.

**Expenses (other than interest expense) connected with federally tax-exempt income that is taxable to New York State**

**Individuals:** You may deduct expenses you incur to acquire or maintain income that is attributable to a trade or business. If you included income from bonds or other obligations that are federally tax exempt but taxable to NYS (as a New York addition) and the expense you incurred to either produce or collect that income or manage, conserve, or protect the assets that produce that income was not deducted for federal purposes and those expenses are attributable to a trade or business you carried on, then enter that expense.

**Estates and trusts:** If the estate or trust is including income that is federally tax exempt but taxable to New York State, and if in determining its federal taxable income, the estate or trust deducted expenses used to either produce or collect that income or manage, conserve, or protect the assets that produce that income, then enter that expense.

**Amortizable bond premiums on bonds that generate federally tax-exempt interest income that is taxable to New York State**

**Individuals:** You may deduct expenses incurred when buying an obligation that generates investment income that is attributable to a trade or business.

- If you are including interest income that is federally tax exempt but taxable to New York State (as a New York addition); and
- those bonds were bought for more than their face value (i.e., at a premium); and
- you did not reduce federal income by deducting the amortization of that premium attributable to 2020; and
- those bonds were attributable to a trade or business carried on by you in 2020 (as opposed to personal investments), then enter that amortization.

**Wage and salary expenses allowed as federal credits but not as federal expenses**

If you took a federal credit for which a deduction for wages and salary expenses is not allowed under IRC section 280C, then enter the wage payments not deductible for federal purposes.

**Cost depletion**

If you are making addition A-202 for any percentage depletion, then enter the cost depletion that IRC section 611 would allow on that property without any reference to either IRC section 613 or 613-A.

**Estate and trusts:** This subtraction may be made only to the extent that it relates to items included in the federal distributable net income of the estate or trust.

**Special depreciation expenditures**

You may carry over excess expenditures incurred in tax years beginning before 1987 in connection with depreciable, tangible business property located in New York State to the following tax year or years, and deduct such expenditures in computing your New York income for that year or years, if the expenditures exceed your New York income for that year before the allowance of those expenditures. Complete Form IT-211, Special Depreciation Schedule, to compute the amount to enter. Submit Form IT-211 with your return.

**Partners, shareholders, and beneficiaries** – Do not complete Form IT-211 to determine the amount to enter. The amount to enter should be provided to you by the entity of which you are a partner, shareholder, or beneficiary.

**Safe harbor leases**

Enter any amount you included in federal income (except for mass transit vehicles) solely because you made the safe harbor
Partners, shareholders, and beneficiaries - Do not complete Form IT-398 to determine the amount to enter. The amount to enter should be provided to you by the entity of which you are a partner, shareholder, or beneficiary.

IRC section 168(k) property (year of disposition adjustment)

If you disposed of IRC section 168(k) property placed in service inside or outside New York State on or after June 1, 2003 (except for resurgence zone property, and New York liberty zone property described in IRC section 1400L(b)(2)), and your total federal depreciation deduction was more than the New York depreciation deduction for that property, then complete Part 2 of Form IT-398, New York State Depreciation Schedule for IRC Section 168(k) Property, to compute the amount of the disposition adjustment to enter. Submit Form IT-398 with your return.

Refund of certain New York business tax credits

Enter the amount of any refund of certain New York State business tax credits included in your recomputed federal AGI (for example, the QEZE credit for real property taxes). See our website for a complete list of the credits this subtraction modification applies to. For additional information, see TSB-M-10(9)C, (15)I, New York State Tax Treatment of Refunds of the Qualified Empire Zone Enterprise (QEZE) Credit for Real Property Taxes.

New York State Innovation Hot Spot Program

Complete Form IT-223, Innovation Hot Spot Deduction, and enter any income or gain included in federal income that is attributable to the operations of a qualified entity at its location in, or as part of, a New York State innovation hot spot. Submit Form IT-223 with your return.

Taxable refunds

Individuals: If as a partner, S corporation shareholder, or a federal Schedule C or F filer you included in your federal income an amount of taxable refund that was not included on line 4 of Form IT-201 or IT-203, then use this subtraction modification code.

If you included in your federal income any refunds, credits, or offsets for overpayment of any income tax (including the New York City unincorporated business tax and any taxes imposed under Tax Law Article 23 (MCTMT)), then include that amount.

Subtractions S-301, S-302, and S-303 apply to S corporation shareholders only.

S corporation shareholders

If you reported a federal gain or loss because of the disposition of stock or indebtedness of an S corporation and that S corporation was a New York C corporation for any tax year beginning after December 31, 1980 (in the case of a corporation taxable under Article 9-A, general business corporation tax), or December 31, 1996 (in the case of a corporation taxable under former Article 32, banking corporation franchise tax), then enter the reduction in basis of the stock or indebtedness that is due to the application of IRC section 1376(b) (as in effect for tax years beginning before January 1, 1983) and 1367(a)(2)(B) and (C) for each tax year that the New York election was not in effect.
If, with respect to stock described above, you made any New York additions to recomputed federal AGI required under A-303, then enter the total of those additions. See New York Tax Law section 612(b)(20).

S-302  S corporation shareholders – pass-through income
If you included in your recomputed federal AGI any S corporation pass-through income pursuant to IRC section 1366 and the corporation is a New York C corporation, then enter the pass-through income.

S-303  Franchise tax refunds
If you as an S corporation shareholder received a pro rata share of a franchise tax refund from your S corporation, then enter that amount. For more information, see Form CT-225-I, Instructions for Form CT-225, New York State Modifications.

ES-901  Beneficiary’s share of fiduciary adjustment
If your share of the fiduciary adjustment is a net subtraction, then enter this amount and the modification number on Form IT-225, line 14. Also see EA-901.

As a beneficiary you may have income from an estate or trust. Any New York modifications that apply to that income, as well as any additions to or subtractions from federal itemized deductions, will be shown in your share of a single fiduciary adjustment.
The charts below are a quick reference guide showing (with an X in the column) which form each modification applies to and if the modification must be listed on Form IT-225 or directly on a line of your return.
