

Instructions for Form IT-636

Alcoholic Beverage Production Credit

General information

The New York State Tax Law provides a credit to taxpayers who meet certain requirements and are subject to tax under Articles 9-A and 22. Individuals (including sole proprietors), estates and trusts, shareholders of an S corporation, partners in a partnership (including a member of a limited liability company (LLC) that is treated as a partnership for federal income tax purposes), and beneficiaries of an estate or trust may claim the credit on Form IT-636.

Eligibility

To be eligible for this credit, you must meet **all** of the following requirements:

- you are subject to tax under Article 9-A or 22
- you are registered as a distributor under Article 18 (Taxes on Alcoholic Beverages)
- you produce 60 million gallons or less of beer or cider, 20 million gallons or less of wine, or 800,000 gallons or less of liquor in New York State during the tax year

A registered distributor that produces more than one type of alcoholic beverage in New York State in the same tax year qualifies for the credit for each alcoholic beverage produced within the production limits stated above. If the production limitation is exceeded for an alcoholic beverage, no credit is allowed for that beverage.

Example: A registered distributor that produced 50 million gallons of cider and 100 million gallons of beer in New York State in the same tax year qualifies to claim the credit for the cider production. The registered distributor would not qualify to claim a credit for the beer production since it produced greater than 60 million gallons of beer in New York State in the tax year.

Credit information

The amount of credit per tax year for each gallon of beer, cider, wine, or liquor produced in New York State is:

- 14 cents (.14) per gallon for the first 500,000 gallons produced, plus
- 4.5 cents (.045) per gallon for each gallon produced in excess of 500,000 gallons (up to 15 million additional gallons for beer, cider, or wine and up to 300,000 additional gallons for liquor).

However, no credit is allowed for any beer, cider, or wine produced in excess of 15.5 million gallons, or liquor produced in excess of 800,000 gallons during the tax year.

Any unused amount of credit for the current tax year will be treated as a refund or overpayment of tax to be credited to next year's tax. Interest will not be paid on the refund or overpayment.

How to claim the credit

File Form IT-636 if you are an individual, a beneficiary or fiduciary of an estate or trust, a partner in a partnership, or a shareholder of an S corporation, and you are claiming the alcoholic beverage production credit.

An estate or trust that divides the credit among itself and its beneficiaries must submit Form IT-636 with Form IT-205, *Fiduciary Income Tax Return*, showing each beneficiary's share of the credit.

A partnership must submit Form IT-636 with Form IT-204, *Partnership Return*, showing the total credit.

An S corporation does not file Form IT-636; it must file Form CT-636. If you are a shareholder of a New York S corporation, obtain your share of the S corporation's credit from the S corporation and follow the instructions on this form for claiming your credit on your personal income tax return.
