Title

Instructions

This is a single-transaction certificate; therefore, the purchaser must give a separate certificate each time an exempt purchase is made. Use this certificate to claim exemption from certain taxes on purchases of more than 4,500 gallons of enhanced diesel product for heating purposes.

Enhanced diesel motor fuel is:

- Any product specifically designated as:
 - a. diesel fuel.
 - b. No. 1 diesel fuel,
 - c. No. 2 diesel fuel, or
 - any like industry designation commonly used to refer to a fuel used in operation of a motor vehicle engine of the diesel type.
- The combined or blended product that has resulted from the act of enhancement.

Enhancement is the addition of kerosene or any other substance or additive, such as a cetane improver, to fuel oil that improves or enhances its performance in the operation of a diesel-type motor vehicle engine. Enhancement does not include the addition of a substance to No. 2 fuel oil if the resulting product is invoiced and sold, in good faith, as No. 2 fuel oil.

Do **not** use this certificate to purchase fuel for use in farm production; for that, use Form FT-1004, *Certificate for Purchases of Diesel Motor Fuel or Residual Petroleum Product for Farmers and Commercial Horse Boarding Operations*.

Without this certificate, purchases of more than 4,500 gallons of enhanced diesel product are subject to the diesel motor fuel tax, the petroleum business tax at the automotive-type diesel motor fuel rate, and the state and local sales taxes.
