How to check the status of your tax return

Within 48 hours, check your email or text messages to confirm that your return is accepted. You’ll receive notifications when:

• your return is submitted successfully (from both the IRS and New York State); or
• your return is rejected.

If your return is rejected, check your email for instructions about how to fix and resubmit your return. If you’d like help, return to the tax assistance site where you prepared your returns.

If you don’t receive a message from the IRS or New York State, log in to the account you created when you submitted your returns to be sure you successfully filed.
