

2011 State Assistance Limited

In these uncertain financial times, we would like to commend you and the Municipal Board for conducting cyclical reassessments and we'll continue to work with you to follow your multi-year plan.

For fiscal year 2011-2012 up to \$750,000 was appropriated for state financial assistance for improvement of real property tax administration. Assistance is only payable to assessing units conducting a reassessment for the first time in three years or more.

If a locality received state assistance in 2009 or 2010 they are not eligible to receive assistance this year. Likewise, interim assistance of up to \$2 per parcel is not available this year.

2011 Applications

Due to the 2011-12 funding limitations, localities should not file applications for assistance for 2011 unless they are conducting a reassessment for the first time in three years or more.

Plans for Cyclical Reassessments

To remain eligible for assistance, any changes to plans must be submitted no later than 120 days prior to tentative roll date. For municipalities on a standard assessment calendar, changes for 2012 need to be filed by December 30, 2011.

If you have any questions regarding state assistance or amending your plan, contact your Customer Relationship Manager.
