

Local Sales and Use Tax Rates on Qualified Motor Fuel, Highway Diesel Motor Fuel, and B20 Biodiesel

Effective September 1, 2016

In 2006, the New York State percentage rate sales and use taxes (sales tax) on motor fuel and highway diesel motor fuel changed to a cents-per-gallon method. This applies to sales of qualified fuel, as defined in TSB-M-06(8)S, New Guidelines on the Sales of Motor Fuel and Diesel Motor Fuel Subject to the Cents-Per-Gallon Sales Tax.

The Tax Law allows counties and cities to change their percentage rate sales tax to a cents-per-gallon method, or stay with a percentage rate method.

Part 1: Cents-per-gallon rates

State

The state tax rate is:

- 8 cents per gallon outside the Metropolitan Commuter Transportation District (MCTD), and
• 8 3/4 cents per gallon inside the MCTD.

Local

Table with 2 columns: County or other locality, Cents-per-gallon rate. Row: Seneca, 8

B20 biodiesel

B20 biodiesel sold or used as qualified fuel is subject to tax at 80% of any applicable cents-per-gallon rate.

The state rate on these sales of B20 biodiesel is:

- 6 cents per gallon outside the MCTD, and
• 6.6 cents per gallon inside the MCTD.

Table with 2 columns: County or other locality, Cents-per-gallon rate. Header: B20 biodiesel. Row: Seneca, 6

Part 2: Local percentage rates

The localities listed below impose their local sales tax on qualified fuel using the percentage rate method.

To determine the local sales tax due, multiply the taxable receipt amount by the appropriate rate in the chart below. See Publication 873, Sales Tax Collection Charts for Qualified Motor Fuel or Highway Diesel Motor Fuel Sold at Retail, for instructions on computing the taxable receipt using pump prices.

B20 biodiesel

In localities that continue to use the percentage rate method, 80% of the receipt from the sale of B20 biodiesel sold as qualified fuel is subject to the local tax.

In the localities listed below, multiply 80% of the taxable receipt by the appropriate rate in the chart to compute the local tax due.

Note: To compute the total state and local sales tax due, add the state cents-per-gallon tax (8 cents outside the MCTD and 8 3/4 cents within the MCTD) to the local tax amount.

Any items changed from the previous version appear in boldface italics.

Table with 2 columns: County or other locality, Rate %. Lists various counties and cities with their respective tax rates.
