## Steps for computing the amount of tax to be withheld:

Step 1 If the number of exemptions claimed is ten or fewer, look up the total exemption and deduction amount in Table A on page T-38, according to the payroll period and marital status claimed. (If there are more than 10 exemptions, multiply the number by the exemption amount in Table C on page T-38 and add it to the deduction amount from Table B.) Subtract the total exemption and deduction amount from the wages to get net wages.

For weekly payroll periods, if the amount of net wages is \$1,200 or less, you may use the simplified Dollar to Dollar Withholding Table beginning on page T-41 to find the amount to withhold. Otherwise, continue with Step 2.

- Step 2 Locate the table on this page for the appropriate payroll period. Find the line on which the net wages fall between the amounts in Columns 1 and 2.
- Step 3 Following across on the line you found in Step 2, subtract the amount in Column 3 from the net wages.
- Step 4 Following across the same line, multiply the result from Step 3 by the amount in Column 4.
- Step 5 Following across on the same line, add the result from Step 4 to the amount in Column 5. The resulting sum is the amount to withhold from wages.

See page T-40-A for withholding calculation examples using Method II.

# Steps for computing the amount of tax to be withheld:

Step 1 If the number of exemptions claimed is ten or fewer, look up the total exemption and deduction amount in Table A on page T-38, according to the payroll period and marital status claimed. (If there are more than 10 exemptions, multiply the number by the exemption amount in Table C on page T-38 and add it to the deduction amount from Table B.) Subtract the total exemption and deduction amount from the wages to get net wages.

For weekly payroll periods, if the amount of net wages is \$1,200 or less, you may use the simplified Dollar to Dollar Withholding Table beginning on page T-41 to find the amount to withhold. Otherwise, continue with Step 2.

- Step 2 Locate the table on this page for the appropriate payroll period. Find the line on which the net wages fall between the amounts in Columns 1 and 2.
- Step 3 Following across on the line you found in Step 2, subtract the amount in Column 3 from the net wages.
- Step 4 Following across the same line, multiply the result from Step 3 by the amount in Column 4.
- Step 5 Following across on the same line, add the result from Step 4 to the amount in Column 5. The resulting sum is the amount to withhold from wages.

See page T-40-A for withholding calculation examples using Method II.
