Overview

This publication is the seventh in a series of corporate tax statistical reports to be published by the Department of Taxation and Finance's Office of Tax Policy Analysis (OTPA). The reports are intended to provide a summary of corporate tax data to aid interested parties in their analysis of New York's corporate tax structure. The last report in this series was for the 1998 liability year.

The tables in this report present tax statistics for Article 9-A (the franchise tax on business corporations), Article 9 (the corporation and utilities tax), Article 32 (the franchise tax on banking corporations), and Article 33 (the franchise tax on insurance companies). The report focuses on the franchise taxes imposed under these articles. This enables data users to more easily understand the corporate franchise tax population and liability. By definition, it includes the excise taxes imposed under Article 9, Sections 186-a and 186-e.

The historical statistical tables, beginning with the 1995 tax year, appear in Appendix D. The temporary business tax surcharge was reduced to 0 percent starting in 1997. The surcharge was reduced in stages, and the effective date was dependent on tax article. Because of this, the effect of the surcharge is only included in tables showing data from 1997 and previous years.

Selected statistics presented in this publication may differ from data provided in the prior report and other published statistical documents. This is due to improvements in data collection and enhancements in data verification procedures.

Terms and data used in tables and charts, as well as data sources used in this report, are explained in Appendix A: Description of Terms and Data and Data Sources; Appendix B lists tax rate changes in 1998 and 1999, and Appendix C contains descriptive statistics of the calculation of tax liability for Articles 9-A, 32 and 33

Recent tax law changes have had an impact on the business population. A number of major legislative initiatives, which allowed the formation of limited liability companies, changed the components of the alternative minimum tax base and the fixed dollar minimum tax, and enabled truckers to elect to be taxed under Article 9-A instead of Article 9, have had a significant impact on taxpayers. These law changes have changed the size of tax burdens, the distribution of the burden within industries and the share each article represents of total State tax revenues.

There have been a number of significant new tax laws. For highlights of tax actions, see OTPA's *Summary of Tax Provisions*, published each year. This report is available on the Department's Web site at: <http://www.tax.state.ny.us/Statistics>. *The New York State Tax Sourcebook*, also published by OTPA, contains both historical and current information on tax law changes.

Tax Articles: Data Summary

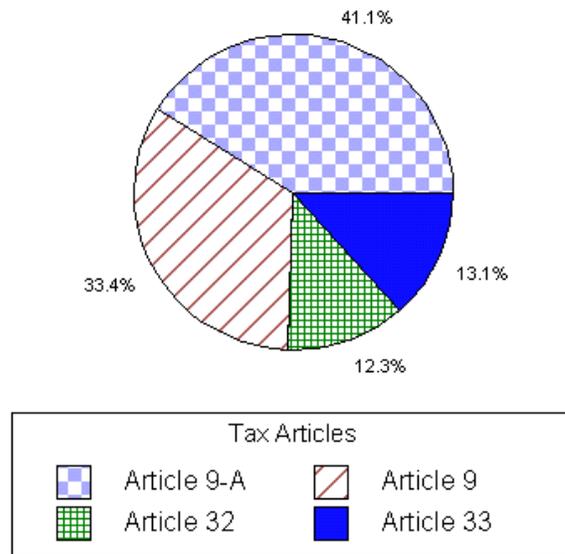

Table 1 provides a summary of the number of taxpayers and tax liability for the selected tax articles presented in this report. The data compares the 1998 and 1999 tax years. Appendix D provides selected historical tables and charts which were presented in this report previously. Consistent with previous years, Article 9-A represents the greatest number of taxpayers and the largest amount of tax liability. Article 32, the franchise tax on banking corporations, represents the smallest in both categories for 1999.

Table 1: Selected Tax Articles – Total Number of Taxpayers and Tax Liability 1998 and 1999

Tax Article	Number of Taxpayers 1998	Total Tax Liability 1998	Number of Taxpayers 1999	Total Tax Liability 1999
Article 9-A	539,144	\$1,624,895,120	546,083	\$1,762,241,338
Article 9	7,230	1,484,339,476	6,510	1,433,096,363
Article 32	855	534,330,676	923	529,020,191
Article 33	966	596,584,023	1,001	554,057,891
Total All Articles	548,195	\$4,240,149,295	554,517	\$4,278,415,783

Figure 1 shows the representative shares of tax liability for each article presented in this report.

Figure 1: Selected Corporate Tax Articles – Percent of 1999 Tax Liability

Tables 2 and 3 show detailed profiles of Articles 9-A and 9 for the 1999 tax year.

Tables 2 and 3: Articles 9-A and 9 Detailed Profiles – 1999

Article 9-A	Number of Taxpayers 1999	Tax Liability 1999
C Corporations	259,961	\$1,615,193,148
S Corporations	286,122	147,048,190

Total	6,510	\$1,433,096,363

Tax Articles: 1999 Highlights

Article 9-A: Franchise Tax on Business Corporations

Highlights

- The number of Article 9-A taxpayers grew by about 1.3 percent, and total tax liability increased by almost 9 percent from 1998 to 1999. The number of C corporation filers increased by 0.3 percent, and total liability for C corporations increased by 13 percent.
- Although the number of S corporation filers grew by about 2 percent, total liability for S corporations dropped sharply, by nearly 24 percent.
- The number of Article 9-A filers were nearly evenly split between S and C corporations.
- Although the number of C and S corporation filers were similar, C corporations represented 92 percent of total liability.
- As in previous years, the entire net income (ENI) base continued to contribute the most to total C corporation tax liability. ENI base filers constituted about 24 percent of total C corporation returns. However, this tax base contributed almost 85 percent of total C corporation tax liability.
- Total liability for the alternative minimum and fixed dollar minimum tax bases declined, while total liability for the capital and ENI tax bases grew.
- Recent tax law changes have resulted in significant shifts within the fixed dollar minimum tax, leading to a decline of almost 38 percent in total liability for this tax base.

Article 9: Corporation and Utilities Tax

Highlights

- The number of taxpayers declined by 720 from 1998 to 1999, and total tax liability declined by approximately \$51 million over this period.

-
- The greatest number of taxpayers paid under Sections 183 and 184. Section 183 is the franchise tax on transportation and transmission corporations and associations and Section 184 is an additional tax on transportation and transmission corporations and associations.
 - However, the number of taxpayers under both Section 183 and Section 184 has declined by more than 40 percent since 1995. Tax law changes have been enacted since that time that have moved taxpayers out of these sections of the tax law.
 - Section 186-a (gross receipts tax on the furnishing of utility services) taxpayers continued to incur the highest tax liability, while Section 186-e (excise tax on telecommunications services) taxpayers ranked as the second highest in 1999.
 - In 1999, businesses subject to Sections 186-a and 186-e paid about 78 percent of all Article 9 tax liability.

Article 32: Franchise Tax on Banking Corporations

Highlights

- Total tax liability declined by only about \$5 million, from \$534.3 million to \$529.0 million between 1998 and 1999.
- Between 1998 and 1999, foreign bank liability, as a percentage of bank tax liability, decreased from 36 percent to 30 percent. Clearinghouse and commercial bank liability, as a percentage of bank tax liability, increased from 60 percent to 66 percent.
- The vast majority of bank tax liability continues to come from the income base. The income base accounted for 85 percent of bank tax liability in 1998 and 78 percent in 1999. Alternative bases account for almost all of the remainder of bank tax liability. The minimum tax accounts for less than 1 percent of bank tax liability in both years.
- Between 1998 and 1999, the amount of positive allocated entire net income reported for all banks decreased from \$5.5 billion in 1998 to \$5.0 billion in 1999. In contrast, negative allocated entire

net income increased from \$2.7 billion to \$2.9 billion during this period.

Article 33: Franchise Tax
on Insurance Corporations

Highlights

- Total tax liability, before the limitation on gross premiums and before credits, decreased from \$898.1 million to \$789.3 million between 1998 and 1999. This represented a decrease of \$109 million during this period.
- The income base continues to account for the majority of insurance tax liability. In addition, foreign insurers continue to account for the majority of insurance tax liability.
- The value of the limitation on tax liability decreased from \$240.6 million in 1998 to \$170.7 million in 1999. In 1999, property and casualty insurers received a significantly lower share of the limitation than in 1998.
- The amount of credits used by taxpayers equaled approximately \$60.9 million in the 1998 tax year and approximately \$64.5 million in the 1999 tax year.
- Tax liability for all insurers after the limitation and credits decreased from \$596.6 million in 1998 to \$554.1 million in 1999.

Article 9-A: Franchise Tax on Business Corporations

Tax Structure: Tax Law as of 1999

Article 9-A imposes a tax on corporations for the privilege of exercising a corporate franchise in the State. All domestic corporations (organized in New York State), and all foreign corporations (organized in another state or country) doing business, or employing capital, or owning or leasing property in a corporate or organized capacity, or maintaining an office in the State, become subject to the corporate franchise tax. Article 9-A applies to any general business corporation except those specifically exempt or those subject to tax under other specified articles of the tax law.

Corporations compute tax under four bases: entire net income (ENI); business and investment capital; alternative minimum taxable income (AMTI); and fixed dollar minimum amounts. The corporation pays the tax computed on the base that yields the highest liability. An additional tax applies, based on the value of the corporation's subsidiary capital allocated to the State, which is taxed at the rate of 0.09 percent.

- A rate of 9 percent applies to the ENI base. The rate decreases to 8.5 percent for tax years beginning after June 30, 1999. A tax rate of 8 percent applies to qualified small business corporations with ENI of \$200,000 or less. Graduated rates apply to qualified small business corporations with ENI of more than \$200,000, but not more than \$290,000. The small business rate is reduced to 7.5 percent for tax years beginning after June 30, 1999.
- A rate of 0.178 percent applies to the capital base. Allocated business and investment capital form the capital base. Total tax liability under the capital base is capped at \$350,000.
- A rate of 3.25 percent applies to the AMT base. The AMT base equals ENI adjusted to reflect certain federal tax preference items and adjustments and state specific net operating loss (NOL)

modifications. The rate decreases to 3 percent for tax years beginning after June 30, 1999.

- Separate fixed dollar minimum amounts apply, based on a corporation's gross annual payroll, including general executive officers, during the applicable tax period. The amounts range from \$100 to \$1,500. A fixed amount of \$800 applies to corporations whose gross property, receipts and payroll are each less than \$1,000.

Corporations allocate ENI, business capital and AMT income using a three factor-formula to proxy their economic presence in the State. Representative factors include owned and rented real and tangible personal property, business receipts and payroll (exclusive of general executive officers). Corporations allocate investment capital and income to New York based on the New York presence of the issuer of the investment instrument.

Corporations that elect S corporation status for federal and New York tax purposes, compute an entity level tax imposed by Article 9-A. The S corporation first computes a franchise tax on its entire net income, determined as if it were a regular "C" corporation. The S corporation then applies a tax rate of 7.875 percent to that same entire net income base. The resulting difference in these two computations equals the differential tax. The rate is reduced to 7.525 percent for tax years beginning after June 30, 1999.

**Significant Tax Law
Changes: 1998 and
1999**

1998

- The AMT tax rate was reduced from 3.5 percent to 3.25 percent for taxable years beginning after June 30, 1998.
- The fixed dollar minimum tax was reduced from \$325 to \$100 for gross payrolls of \$250,000 or less for taxable years beginning after June 30, 1998.

1999

- The tax rate on entire net income was reduced from 9 percent to 8.5 percent for taxable years beginning after June 30, 1999.

- The AMT tax rate was reduced from 3.25 percent to 3 percent for taxable years beginning after June 30, 1999.
- The tax rate on entire net income for small businesses was reduced from 8 percent to 7.5 percent for taxable years beginning after June 30, 1999.
- The S corporation differential tax rate on entire net income was reduced from 7.875 percent to 7.525 percent for taxable years beginning after June 30, 1999.
- The fixed dollar minimum tax was reduced from \$325 to \$225 for gross payrolls of more than \$250,000 but less than \$500,000 for taxable years beginning after June 30, 1999.

**Statistical Summary:
Comparison of 1998
Versus 1999**

The corporate franchise tax represented approximately 41 percent of total New York State corporate tax liability in 1999. Slightly more than 546,000 corporate taxpayers (both C corporations and S corporations) filed returns in this year. These taxpayers reported a total tax liability of almost \$1.8 billion.

Table 4 summarizes and compares information from taxable returns filed by Article 9-A corporations in 1998 and 1999. In 1999, total tax liability increased by almost \$140 million from 1998.

Table 4: Profile of C and S Corporations, Number of Taxpayers and Tax Liability – 1998 and 1999

Tax Year	1998	1999
Number of Taxpayers		
Number of C Corporations	259,093	259,961
Number of S Corporations	280,051	286,122
Total Number of Corporations	539,144	546,083
Millions of Dollars		
Tax Liability C Corporations	\$1,432.7	\$1,615.2
Tax Liability S Corporations	192.2	147.0
Total Tax Liability of Corporations	\$1,624.9	\$1,762.2

Distribution of C Corporations and Tax Liability

Table 5 shows both 1998 and 1999 C and S corporations by basis of tax for the number of taxpayers and tax liability. The most significant feature of the data was the decline in the fixed dollar minimum tax for C corporations. S corporation liability also declined significantly.

Table 5: C and S Corporations by Bases, Number of Taxpayers and Tax Liability – 1998 and 1999

Type of Corporation	Base of Primary Tax	Number of Taxpayers			Tax Liability		
		1998	1999	Percent Change	1998	1999	Percent Change
C Corporation	Entire Net Income	55,955	63,414	13.3	\$1,167,068,697	\$1,369,808,432	17.4
	Fixed Dollar Minimum Tax	171,513	153,423	-10.5	62,249,258	38,844,899	-37.6
	Capital	22,724	32,021	40.9	99,294,360	115,817,750	16.6
	Alternative Minimum Taxable Income	8,901	11,103	24.7	104,103,039	90,722,067	-12.9
C Corporation Total		259,093	259,961	0.3	1,432,715,354	1,615,193,148	12.7
S Corporation	Entire Net Income & Fixed Dollar Minimum Filers	280,051	286,122	2.2	192,179,766	147,048,190	-23.5
Article 9-A Total		539,144	546,083	1.3	\$1,624,895,120	\$1,762,241,338	8.5

The data in Figure 2 illustrates that the greatest number of C corporations paid tax on the fixed dollar minimum base for both 1998 and 1999. This was followed by the entire net income base and the capital base.

Figure 2: Distribution of Number of C Corporations by Basis – 1998 and 1999

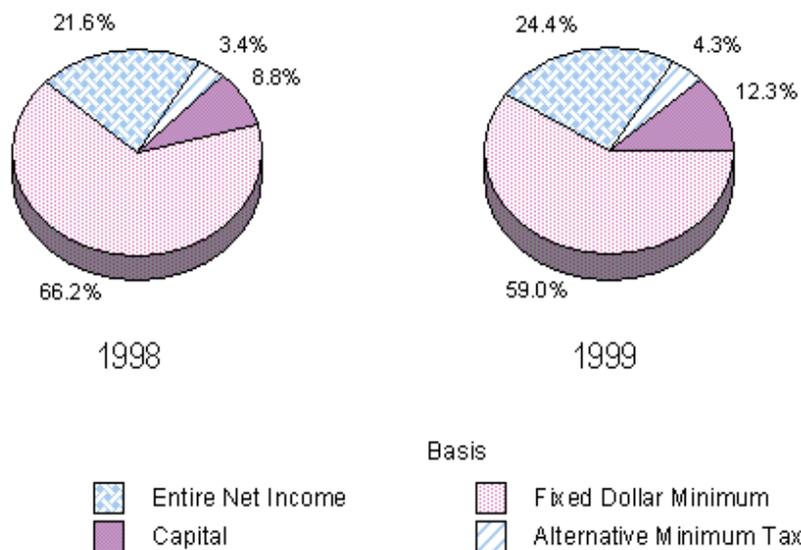

Figure 3: C Corporation Tax Liability by Basis – 1998 and 1999

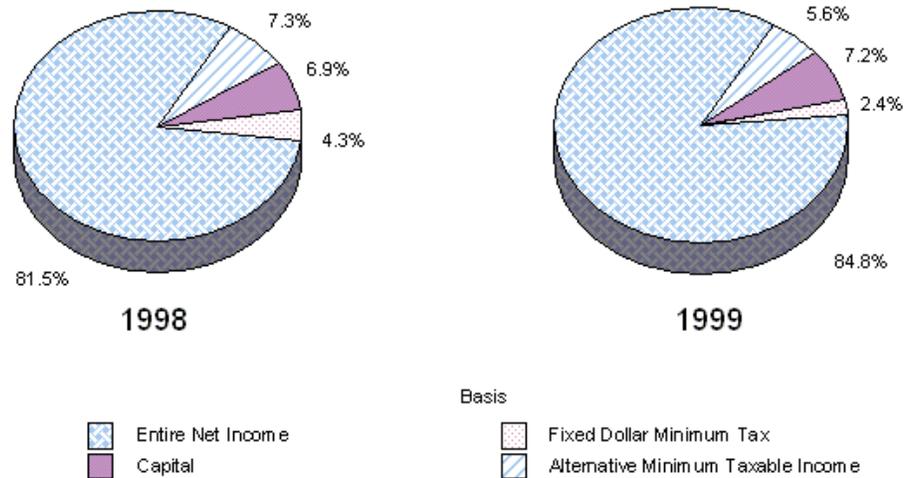

Figure 3 shows that the greatest share of tax paid was under the entire net income base for both 1998 and 1999. The fixed dollar minimum, alternative minimum taxable income, and the capital bases represented much smaller shares of tax liability in each year.

Tax liability for taxpayers subject to the fixed dollar minimum tax varies by size of gross payroll. In 1998, the new \$100 amount was added, and in 1999 the new \$225 amount was added. As a result, taxpayers are migrating from other tax bases to the new fixed dollar minimum categories. In addition, taxpayers that had formerly paid the \$325 fixed dollar minimum tax may now be paying lesser fixed dollar minimum amounts.

Figure 4: Number of Fixed Dollar Minimum Taxpayers by Fixed Dollar Minimum Tax – 1998 and 1999

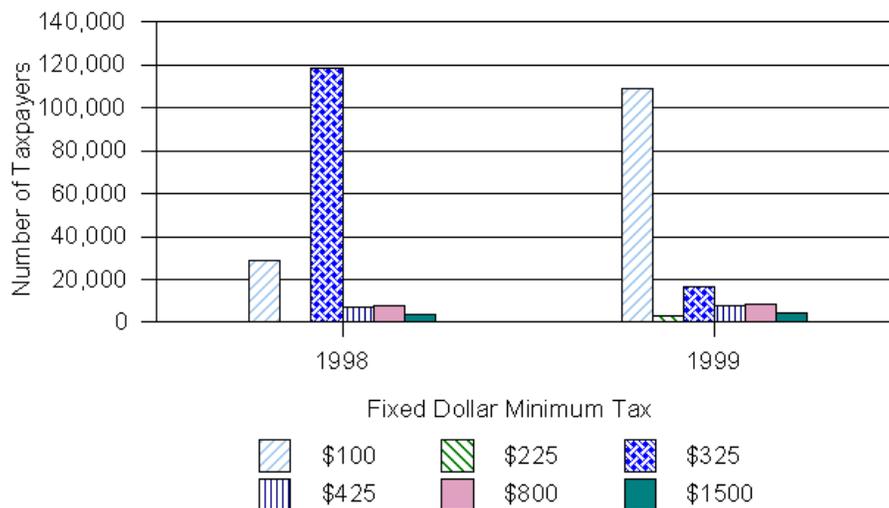

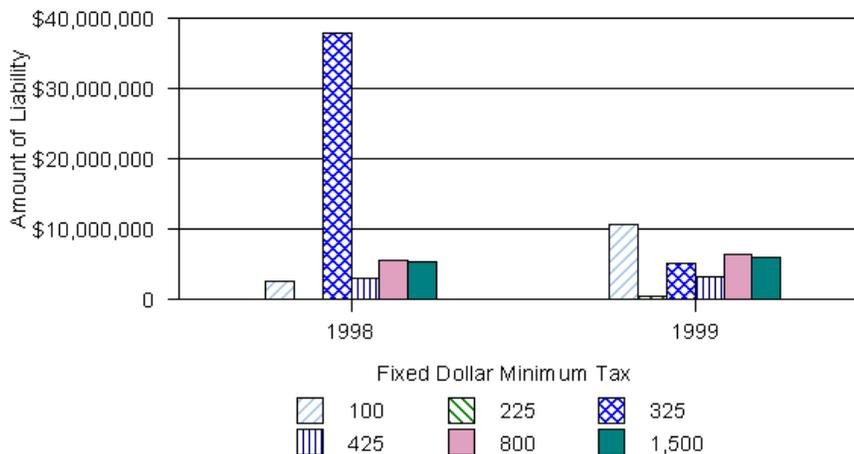

Figure 5 below shows the distribution of tax liability within the fixed dollar filing population. A dramatic shift in liability can be seen that is due to the movement of taxpayers out of paying the \$325 amount. The liability under this amount declined by about \$33 million. This decline was most responsible for the overall decline of almost 38 percent under the fixed dollar minimum tax.

Figure 5: Liability of Fixed Dollar Minimum Taxpayers by Fixed Dollar Minimum Tax – 1998 and 1999

Industry Profiles: 1998
Versus 1999

Table 6 profiles the distribution of taxpayers and liability by major industries. It shows that the total number of taxpayers increased slightly from 1998 to 1999. The distribution of tax liability by industry was very similar in both 1998 to 1999. Most industries remained relatively constant in their share of total tax liability.

Table 6: Percent Change in Distribution of C Corporation Taxpayers and Tax Liability by Industry – 1998 and 1999

Industry	Number of Taxpayers		Tax Liability		Share of Total Tax Liability (%)	
	1998	1999	1998	1999	1998	1999
Agriculture	1,122	1,149	\$1,919,663	\$1,662,980	0.1	0.1
Mining	424	421	4,068,206	3,663,376	0.3	0.2

C Corporations by Filing
Period 1998 and 1999:
Number of Taxpayers

Table 7 shows that the greatest number of taxpayers filed as calendar year taxpayers with a fiscal year ending December 31 for both 1998 and 1999. The next largest number filed for the fiscal year ending June 30 in both years. The fewest number of taxpayers filed with a fiscal year ending November 30 in both years.

Table 7: Distribution of C Corporation Taxpayers by Fiscal Period – 1998 and 1999

Fiscal Year Ending	Number of Taxpayers	
	1998	1999
December	137,063	139,935
January	7,929	7,651
February	8,776	8,760
March	15,498	15,290
April	9,404	9,276
May	9,714	9,498

	Number of Taxpayers	
June	18,814	18,416
July	8,444	8,332
August	9,295	9,003
September	16,423	16,288
October	10,028	9,866
November	7,705	7,646
Total	259,093	259,961

C Corporations by Filing
Period 1998 and 1999:
Tax Liability

As Table 8 shows, December filers overwhelmingly reflected the greatest amount of tax liability for fiscal years ending in both 1998 and 1999. In 1999, December had the highest liability, followed by January and March. June was the second highest month for tax liability paid in 1998, followed by January.

Table 8: Distribution of C Corporation Tax Liability by Fiscal Period – 1998 and 1999

Fiscal Year Ending	Tax Liability	
	1998	1999
December	\$896,241,416	\$1,010,826,832
January	83,184,181	92,811,605
February	25,118,959	26,854,222
March	68,175,401	88,642,723
April	32,093,334	27,195,611
May	31,461,108	32,818,168
June	95,164,338	71,609,966
July	24,547,762	18,483,671
August	25,914,957	30,873,464
September	76,267,912	80,842,782
October	33,487,953	54,242,880
November	41,058,033	79,991,224
Total	\$1,432,715,354	\$1,615,193,148

Note: Tax liability for 1998 reflects tax years ending December 31, 1998 through November 30, 1999. Tax Liability for 1999 reflects tax years ending December 31, 1999 through November 30, 2000.

Detailed Article 9-A Summary Tables

This section contains detailed Article 9-A summary tables for the 1999 tax year. Consistent with the data presented in the main text of this report, the data includes the tax on subsidiary capital. In addition, liability includes the fixed dollar minimum tax on subsidiaries. The total minimum tax on subsidiaries was \$6.3 million in 1999. Tax liability excludes the MTA surcharge.

The following tables present data on C corporations only. Tables 13 through 20 do not include data for certain fixed dollar minimum tax filers because most of the items presented in these tables are not verified for these filers. Therefore, the number of taxpayers and amount of tax liability presented in these tables will differ from that presented in the other tables included in this report. In certain tables, tax law provisions prohibit the disclosure of data. The data are included in the appropriate totals, and are designated by "d/".

1/ Tax liability excludes the MTA surcharge.

2/ Tax liability includes the tax on subsidiary capital.

3/ Values represent tax on subsidiary capital prior to the application of credits.

4/ Data for selected three and four-digit NAICS subsectors may not necessarily add to the appropriate totals for the two-digit NAICS industry sectors.

This is due to the fact that data may not be presented for all subsectors in a given industry sector. However, data for all subsectors are included in the appropriate industry sector totals.

d/ Tax Law provisions prohibit disclosure of data. However, the data are included in the appropriate totals.

Article 9: Corporation and Utilities Tax

Tax Structure: Tax Law as of 1999

Article 9 contains several separate taxes that apply to various general and specialized businesses operating in New York State. These taxes appear in separate sections of Article 9 as follows:

- *Section 180* organization tax on domestic (New York State) corporations;
- *Section 181* license fee on foreign (out-of-state) corporations;
- *Section 183* franchise tax on transportation and transmission companies and associations;
- *Section 184* additional franchise tax on transportation and transmission companies and associations;
- *Section 185* franchise tax on agricultural cooperatives;
- *Section 186* franchise tax on waterworks companies, gas companies, electric or steam heating, lighting and power companies;
- *Section 186-a* gross receipts tax on the furnishing of utility services;
- *Section 186-e* excise tax on telecommunications services; and
- *Section 189* tax on businesses importing natural gas for their own consumption.

This report presents data for the five major sections of Article 9. These sections represented the greatest number of taxpayers and tax liability in 1999.

Significant Tax Law Changes: 1998 and 1999

1998

- The rate of tax under Section 186-a falls from 3.5 percent to 3.25 percent for tax years beginning on October 1, 1998.
- The rate of tax under Section 186-e falls from 3.5 percent to 3.25 percent for tax years beginning on October 1, 1998.
- Beginning on January 1, 1998, the tax under Sections 183 and 184 only applies to trucking and railroad companies if such companies elect to remain under Article 9, otherwise they are subject to Article 9-A, the Corporate Franchise Tax on business corporations. Because the tax under Section 183 is paid in advance, the effects of this change on Section 183 taxpayers was first reflected in 1997.

1999

There were no significant Article 9 tax law changes in 1999.

Statistical Summary: Comparison of 1998 Versus 1999

The corporation and utilities tax represented slightly more than 33 percent of total New York State corporate tax liability in 1999. The number of Article 9 taxpayers totaled 6,510 in 1999, representing a total tax liability of \$1,433 million.

Table 21 summarizes information from taxable returns filed by Article 9 corporations in 1998 and 1999. The number of taxpayers declined by 720 from 1998 to 1999, and total tax liability declined by approximately \$51 million over this period.

Table 21: Article 9 Number of Taxpayers and Tax Liability – 1998 and 1999

Article 9	Tax Year 1998	Tax Year 1999
Total Number of Taxpayers	7,230	6,510
Total Tax Liability	\$1,484,339,476	\$1,433,096,363

Distribution of Article 9 Taxpayers and Tax Liability

Table 22 and Figure 6 compare the number and share of taxpayers for tax years 1998 and 1999. The number of taxpayers declined overall from year to year, with certain sections experiencing a more dramatic decrease than others, and certain sections experiencing an increase. In 1995, the provision of telephone services was taken out of Section 186-a, and a new section of tax, Section 186-e, was imposed on

telecommunications services. Section 186-e experienced a slight increase in the number of taxpayers from 1998 to 1999.

A noticeable decline is evident in the number of taxpayers under Section 184. The decline is due to the move of trucking and railroad corporations to Article 9-A in 1998. This decline was first evident for Section 183 in 1997. There was also a dramatic decline in the number of taxpayers under Section 186-a. This decline can be ascribed partly to the move of taxpayers out of Section 186-a and into Section 186-e.

Table 22: Total Article 9 Taxpayers by Section – 1998 and 1999

Article 9 Tax Law Sections	Total Number of Taxpayers 1998	Total Number of Taxpayers 1999
Section 183	2,344	2,385
Section 184	2,607	2,153
Section 186	355	324
Section 186-a	739	449
Section 186-e *	1,185	1,199
Total	7,230	6,510

* The provisions of Section 186-e were effective beginning in 1995, when the excise tax on the provision of telecommunication services was transferred from Section 186-a to the new Section 186-e.

Figure 6: Share of Number of Article 9 Taxpayers by Section

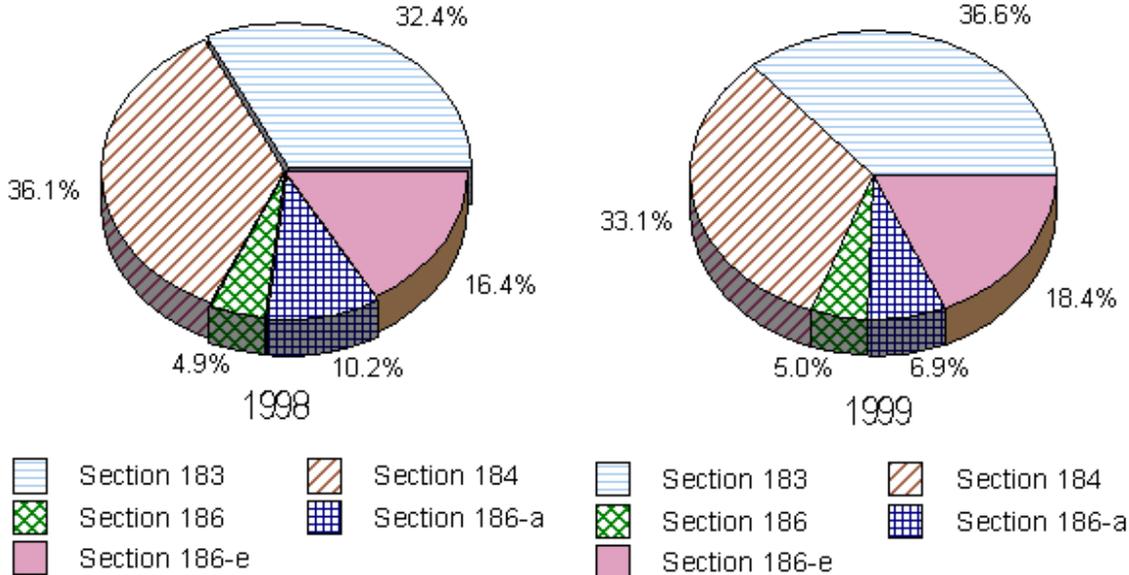

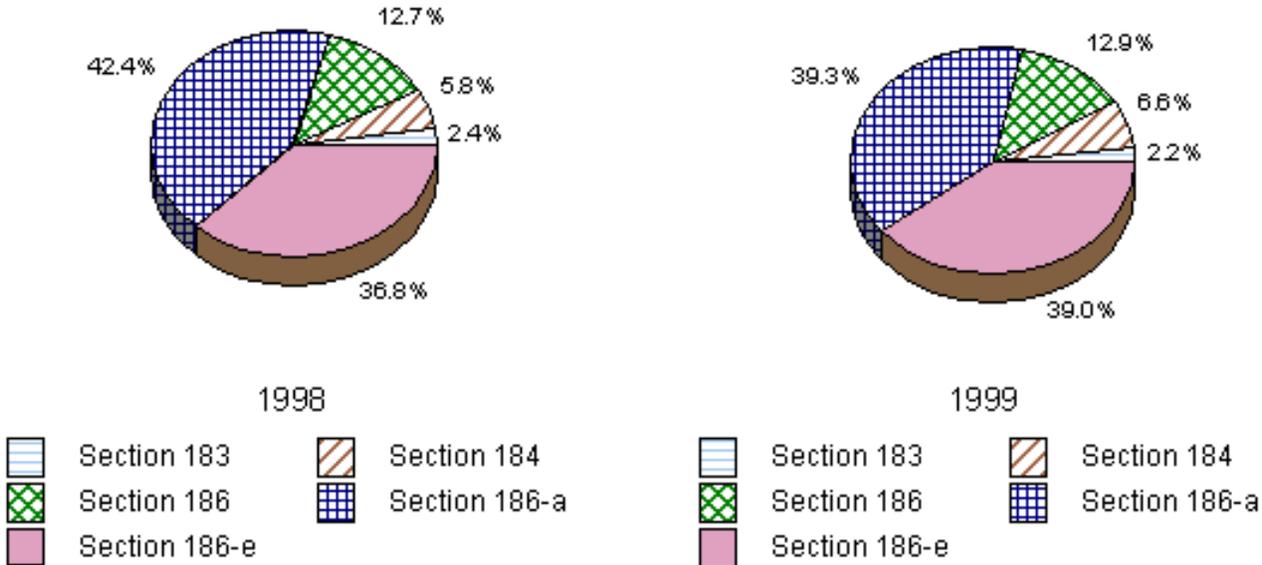

Table 23 and Figure 7 compare tax liability and share of liability for 1998 and 1999. Tax liability declined from year to year for each section except for Sections 184 and 186-e. Of the other sections, only Section 186-a experienced a dramatic decline in the level of liability. This decline can be ascribed partly to the move of taxpayers out of Section 186-a and into Section 186-e.

Table 23: Total Article 9 Tax Liability by Section – 1998 and 1999

Article 9 Tax Law Sections	Total Tax Liability 1998	Total Tax Liability 1999
Section 183	\$34,903,163	\$31,493,414
Section 184	86,619,939	94,782,080
Section 186	187,810,639	185,051,004
Section 186-a	628,755,072	563,329,640
Section 186-e *	546,250,663	558,440,225
Total	\$1,484,339,476	\$1,433,096,363

* The provisions of Section 186-e were effective beginning in 1995, when the excise tax on the provision of telecommunication services was transferred from Section 186-a to the new Section 186-e.

Figure 7: Share of Article 9 Tax Liability by Section

Article 32: Corporate Franchise Tax on Banking Corporations

Tax Structure: Tax Law as of 1999

Article 32 levies a franchise tax on banking corporations doing business in the State. The bank tax is computed on the highest of four alternative bases:

- 9 percent of allocated entire net income (ENI); or
- 3 percent of alternative income (ENI without regard to specified exclusions); or
- \$250; or
- one-tenth, one twenty-fifth or one-fiftieth of a mill of taxable assets allocated to New York (depending on net-worth-to-asset ratio and percentage of assets secured by mortgages).

Calculation of the tax based on allocated ENI begins with federal taxable income, to which certain exclusions and deductions are applied. Taxpayers then make several other modifications, and allocate their income to arrive at New York taxable income. These modifications include, for example, a bad debt deduction for large commercial banks, a deduction for the eligible net income of international banking facilities (IBFs), deductions for a portion of interest income from government obligations, and interest and dividend income from subsidiary capital.¹ Banks conducting business both inside and outside New York allocate their income and assets by applying a three-factor allocation formula consisting of payroll, deposits, and receipts. The receipts and deposits factors are double-weighted and only a fraction of the payroll factor is used.

Alternative entire net income differs from ENI in that it does not include deductions for portions of subsidiary interest and interest on government

obligations. In addition, the factors of the alternative income allocation formula are single weighted.

The tax on allocated taxable assets starts with the taxpayer's total assets. Taxable assets equal total assets less assets attributable to the Federal Deposit Insurance Corporation and the Federal Savings and Loan Insurance Corporation. Taxpayers then apply an allocation percentage, equivalent to the percentage used for allocating ENI. The tax rate imposed on allocated taxable assets equals:

Net Worth Ratio:*	Mortgage as a Share of Total Assets:	Tax Rate:
Less than 4%	33% or more	0.00002
At least 4% but less than 5%	33% or more	0.00004
5% or more	Any percentage	0.0001

* The net worth ratio equals the taxpayer's net worth on the last day of the tax year divided by total assets on the last day of the tax year.

Taxpayers may take credits against the highest tax liability, with the exception of the \$250 minimum tax, to determine their after-credit liability. These credits include, for example, the mortgage servicing credit and the special additional mortgage recording tax credit.

Significant Tax Law Changes: 1998 and 1999

There were no significant Tax Law changes relating to Article 32 in 1998 or 1999.

Statistical Summary: Comparison of 1998 Versus 1999

This section summarizes tax liability data for tax years 1998 and 1999. Tables 24 through 26 reflect summary data for five separate categories of banks and total amounts for all banks. The five categories are foreign banks, clearinghouse banks, commercial banks, savings banks, and savings and loan associations. However, to protect taxpayer confidentiality, the clearinghouse and commercial bank categories were grouped together, as were savings banks and savings and loan associations. Thus, each table provides statistics profiling three groups of taxpayers for the tax years 1998 and 1999.

Number of Taxpayers and Total Tax Liability

Number of Taxpayers

Table 24 reports data on the number of taxpayers in each category, the amount of their total tax liability and the percent of the bank tax paid by each category. This table shows that between 1998 and 1999, the total number of banks increased from 855 to 923. The clearinghouse/commercial bank category and foreign banks were the largest groups of Article 32 taxpayers during this period. The number of banks classified as foreign banks decreased from 288 in 1998 to 263 in 1999. The number of clearinghouse/commercial banks, however, increased during this period, from 469 to 556. The number of savings banks and savings and loan associations increased from 98 in 1998 to 104 in 1999.

Total Tax Liability

Total tax liability for Article 32 decreased by only about \$5 million, from \$534.3 million in 1998 to \$529.0 million in 1999. The relative share of total liability represented by clearinghouse and commercial banks grew by 6 percent from 1998 to 1999. Over the same period, the relative share of total liability represented by foreign banks declined by more than 5 percent, while the relative share represented by savings and savings and loans declined by only 1 percent.

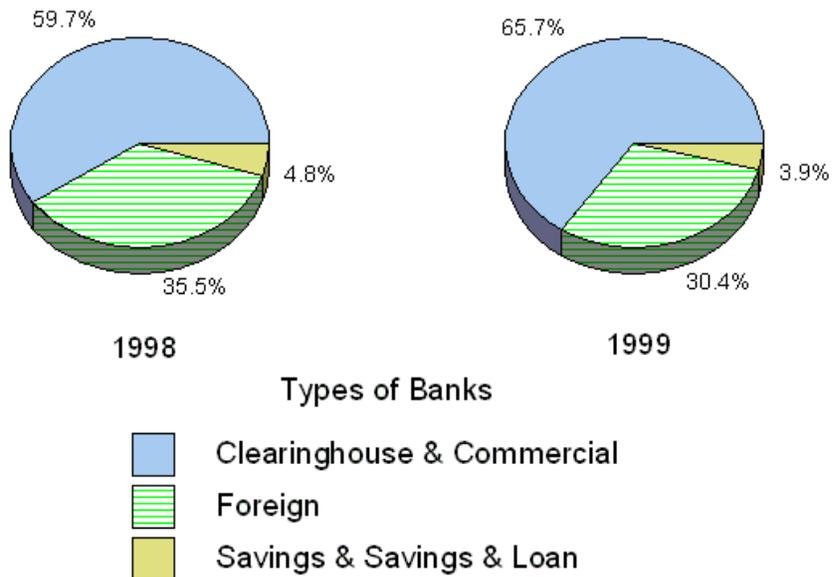

Table 24: Number and Total Tax Liability of Article 32 Taxpayers – 1998 and 1999

Tax Year	Type of Bank	Number of Taxpayers	Total Tax Liability	Share of Bank Tax (%)
1998	Clearinghouse & Commercial	469	\$319,172,580	59.7
	Foreign	288	189,579,425	35.5
	Savings & Savings & Loans	98	25,578,671	4.8
	Total	855	\$534,330,676	100.0
1999	Clearinghouse & Commercial	556	\$347,569,049	65.7
	Foreign	263	160,686,235	30.4
	Savings & Savings & Loans	104	20,764,907	3.9
	Total	923	\$529,020,191	100.0

Shares of Total Tax

Figure 8 shows that the distribution of bank tax liability by type of bank remained relatively constant between 1998 and 1999. Clearinghouse and commercial banks continued to represent nearly two-thirds of total bank tax liability, followed by foreign banks, savings banks and savings and loan associations.

Figure 8: Distribution of Article 32 Tax Liability by Bank Type – 1998 and 1999

Distribution of Tax Liability
by Basis of Tax

Table 25 includes statistics regarding the distribution of tax liability by basis of tax. The table lists the number of taxpayers paying on the income base, alternative bases (asset or alternative entire net income bases), and the minimum tax base, and the amount of tax liability paid under each base.

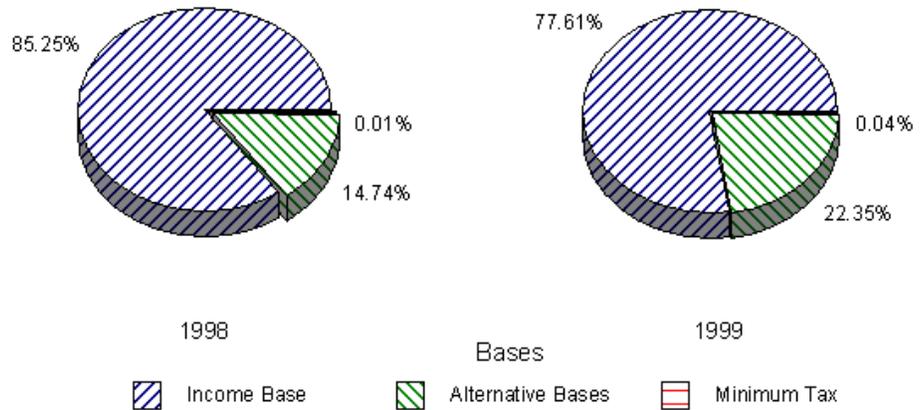

Basis of Tax

Table 25 and Figure 9 show the distribution of Article 32 tax liability by type of bank and basis of tax in 1998 and 1999. During these two years, the portion of total tax liability attributable to the income base decreased from 85.3 percent to 77.6 percent. In contrast, the portion of total tax liability attributable to the alternative bases increased from 14.7 percent to 22.4 percent. The proportion of minimum tax filer liability remained virtually unchanged between 1998 and 1999.

Table 25: Distribution of Article 32 Tax Liability by Basis of Tax – 1998 and 1999

Tax Year	Type of Bank	Income Base		Alternative Bases		Minimum Tax	
		Number of Taxpayers	Liability	Number of Taxpayers	Liability	Number of Taxpayers	Liability
1998	Clearinghouse & Commercial	251	\$277,865,658	97	\$41,253,922	121	\$53,000
	Foreign	109	154,490,997	145	35,079,928	34	8,500
	Savings & Savings & Loans	60	23,149,066	12	2,415,355	26	14,250
	Total	420	\$455,505,721	254	\$78,749,205	181	\$75,750
1999	Clearinghouse & Commercial	254	\$264,752,059	102	\$82,608,074	200	\$208,916
	Foreign	100	131,154,462	135	29,524,773	28	7,000
	Savings & Savings & Loans	51	14,671,764	22	6,083,393	31	9,750
	Total	405	\$410,578,285	259	\$118,216,240	259	\$225,666

Figure 9: Distribution of Article 32 Tax Liability by Basis of Tax – 1998 and 1999

Allocated Entire Net Income

Table 26 provides data regarding the number of taxpayers with positive and negative allocated entire net income and the amount of total positive and negative allocated entire net income. These statistics indicate the number and types of banks that reported income or losses and the amount of the income and losses during the 1998 and 1999 tax years. The number of banks reporting positive allocated entire net income increased by 46 from 1998 to 1999, while the number of banks reporting negative allocated entire net income increased by 22.

Table 26: Allocated Entire Net Income Under Article 32 – 1998 and 1999

Tax Year	Type of Bank	Positive Allocated ENI			Negative Allocated ENI		
		Number of Taxpayers	Total (Thousands)	Average (Thousands)	Number of Taxpayers	Total (Thousands)	Average (Thousands)
1998	Clearinghouse & Commercial	346	\$3,434,756	\$9,927	123	\$(1,304,395)	\$(10,605)
	Foreign	167	1,777,347	10,643	121	(1,278,046)	(10,562)
	Savings & Savings & Loans	86	326,667	3,798	12	(100,394)	(8,366)
	Total	599	\$5,538,770	\$9,247	256	\$(2,682,835)	\$(10,480)
1999	Clearinghouse & Commercial	425	\$3,259,006	\$7,668	131	\$(1,017,947)	\$(7,771)
	Foreign	138	1,529,733	11,085	125	(1,641,879)	(13,135)
	Savings & Savings & Loans	82	231,463	2,823	22	(199,675)	(9,076)
	Total	645	\$5,020,202	\$7,783	278	\$(2,859,501)	\$(10,286)

As shown in Figure 10, the amount of positive allocated entire net income reported for all banks decreased from 1998 to 1999 for all categories. In contrast, negative allocated entire net income increased for savings & savings and loans and foreign banks during this period.

Figure 10: Allocated Entire Net Income by Bank Type – 1998 and 1999

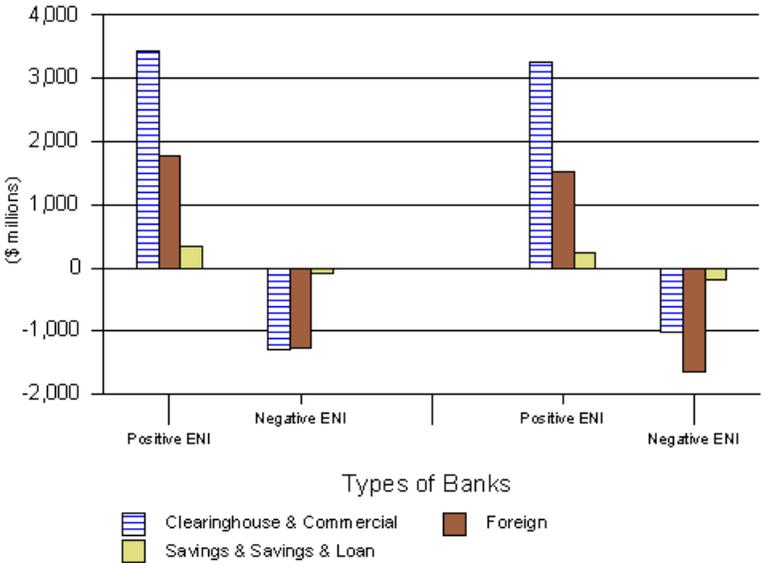

Table 27 provides statistics on the total number of banks that used the Special Additional Mortgage Recording Tax Credit, the Mortgage Servicing Credit, the Investment Tax Credit for Financial Services, and Empire Zone tax credits for 1998 and 1999. This table also shows the value of the credits used during this time period. Data regarding the Zone Equivalent Area Wage Tax Credit for the 1998 and 1999 tax years is not disclosable. In addition, no Article 32 taxpayers used the Job Incentive Credit during 1998 and 1999.

Tax Credits Used

As displayed in Table 27, during 1998 and 1999, the Special Additional Mortgage Recording Tax Credit was used by the greatest number of taxpayers. In 1998, the value of the credit used by 127 taxpayers equaled \$15.2 million. In 1999, 117 taxpayers used this credit which totaled \$12.0 million. The Mortgage Servicing Credit was used by the next largest number of taxpayers during this period. In 1998, the value of the credit, used by 36 taxpayers, equaled \$6.3 million. In 1999, the value of the credit, used by 35 taxpayers, equaled \$8.0 million.

Use of Empire Zone tax credits greatly increased from 1998 to 1999. In 1998, the value of the credits, used by 10 taxpayers, equaled \$0.2 million. In 1999, the value of the credits, used by 40 taxpayers, equaled \$2.2 million. The Investment Tax Credit for Financial Services was used by 20 taxpayers in 1998, and equaled \$0.6 million. In 1999, the value of the credit, used by 24 taxpayers, equaled \$2.4 million.

Table 27: Credits Used by Article 32 Taxpayers – 1998 and 1999

Tax Year	Tax Credits Used			
	Mortgage Recording Tax Credit		Mortgage Servicing Credit	
	Number of Taxpayers	Amount of Credit Used	Number of Taxpayers	Amount of Credit Used
1998	127	\$15,155,418	36	\$6,282,579
1999	117	\$11,965,562	35	\$7,997,871

Tax Year	Tax Credits Used			
	Investment Tax Credit for Financial Services*		Empire Zone Tax Credits	
	Number of Taxpayers	Amount of Credit Used	Number of Taxpayers	Amount of Credit Used
1998	20	\$634,746	10	\$201,626
1999	24	\$2,413,993	40	\$2,204,287

Note: If, for example, a taxpayer used the mortgage recording tax credit and the mortgage servicing credit, it would be counted separately in each category by year.

* Credit available for property placed in service after October 1, 1998.

Endnotes

1. For an analysis of how these deductions impact tax liability, please see *2003-04 New York State Tax Expenditure Report*, prepared jointly by the New York State Department of Taxation and the New York State Division of the Budget.

Detailed Article 32 Summary Tables

This section contains detailed Article 32 summary tables for the 1999 tax year. Tax liability excludes the MTA surcharge.

In certain tables tax law provisions prohibit the disclosure of data. The data are included in the appropriate totals, and are designated by “d”.

Article 33: Corporate Franchise Tax on Insurance Companies

Tax Structure: Tax Law as of 1999

New York imposes a franchise tax on insurance companies under Article 33 of the Tax Law. The tax has two components. The first component is based on the highest of four alternative bases, plus a .08 percent tax rate applied to allocated subsidiary capital. The four bases and applicable tax rates include:

- 9 percent of allocated entire net income; or
- 0.16 percent of allocated business and investment capital; or
- 9 percent of allocated income and officers' salaries; or
- a minimum tax of \$250.

The second component is a tax on gross premiums, less return premiums thereon, written on risks located or resident in New York. Different tax rates apply to premiums written by life insurers and property and casualty insurers. Premiums received by corporations licensed as life insurers, including premiums on accident and health contracts, are taxed at a rate of 0.7 percent. Premiums written by corporations licensed as property and casualty insurers are taxed at the rate of 1.3 percent. However, premiums received by property and casualty insurers on accident and health contracts are taxed at the rate of 1.0 percent.

For corporations doing business within and without the State, the bases in the first component of the tax are allocated to New York, with the exception of the fixed dollar minimum. The apportionment formula uses weighted ratios of premiums (with a weight of nine) and wages (with a weight of one), earned or paid in New York to those earned or paid everywhere.

In computing the Article 33 tax, insurance corporations add the tax on gross premiums to the highest of the four alternative taxes. The total tax liability of the two components less Empire Zone (EZ) and Zone Equivalent Area (ZEA) credits cannot exceed 2.6 percent of taxable premiums. This limitation equals 2 percent for life insurers. Taxpayers may then claim other credits against the total tax liability.¹

Section 1502-a of the tax law requires certain taxpayers to compute their tax based solely on their premiums limitation, and this amount becomes the tax due after the limitation. In addition, certain taxpayers may report tax due before the limitation on premiums of \$250 (based on the fixed minimum amount), but have zero tax due based on the limitation and report zero tax due after the limitation.

Significant Tax Law Changes: 1998 and 1999

1998

- The tax rate on premiums received from life insurers, including premiums on accident and health contracts, is reduced from 0.8 percent to 0.7 percent.
- Captive insurance companies are allowed to be formed in New York. Captives are taxed at a top rate of 0.4 percent or \$5,000, whichever is higher.
- The limitation on tax for life companies is reduced from 2.6 percent to 2.0 percent.

1999

There were no significant tax law changes relating to Article 33 in 1999.

Statistical Summary: Comparison of 1998 Versus 1999

This section provides tax return data for tax years 1998 and 1999. Tables 34 through 37 provide statistics for four separate categories of insurance companies and for all insurance companies. The four categories include life insurance companies, property and casualty insurance companies, other insurance companies (accident and health, title, mortgage and financial guaranty and reciprocal insurers), and savings banks.

**Tax Liability Before
Limitation and Credits**

Number of Taxpayers

As shown in Table 34, the number of insurance companies subject to Article 33 increased by 35 from 1998 to 1999. Both domestic property and casualty insurers and foreign property and casualty insurers increased in number (see Table 35). Property and casualty insurers increased overall in number from 710 in 1998 to 741 in 1999.

Table 34 also shows that life insurers were the second largest group of Article 33 taxpayers. The number of life insurers grew from 167 in 1998 to 170 in 1999. The two remaining categories of Article 33 taxpayers, others and savings banks, remained relatively constant from 1998 to 1999.

Tax Liability Before Limitation and Credits

Table 34 shows that the tax, before the limitation on gross premiums and before credits, decreased from \$898.1 million to \$789.3 million between 1998 and 1999. This represented a decrease of about \$109 million or 12 percent during this period.

Between 1998 and 1999, the share of tax liability of property and casualty insurers decreased from 61.9 percent to 56.8 percent. During this period, the percentage of tax liability of life insurers increased from 32.1 percent to 33.0 percent. The tax liability of the remaining categories of insurers increased from 6.1 percent to 10.1 percent of total liability.

Table 34: Article 33 Tax Liability Before Limitation and Credits – 1998 and 1999

Tax Year	Insurance Category	Number of Taxpayers	Tax Liability Before Limitation & Credits	Share of Total Insurance Tax Liability (%)
1998	Life	167	\$288,227,896	32.1
	Property & Casualty	710	555,815,095	61.9
	Others	72	52,620,083	5.9
	Savings Bank	17	1,485,985	0.2
	Total	966	\$898,149,059	100.0
1999	Life	170	\$260,642,387	33.0
	Property & Casualty	741	448,692,296	56.8
	Others	74	78,891,366	10.0
	Savings Bank	16	1,086,063	0.1
	Total	1,001	\$789,294,112	100.0

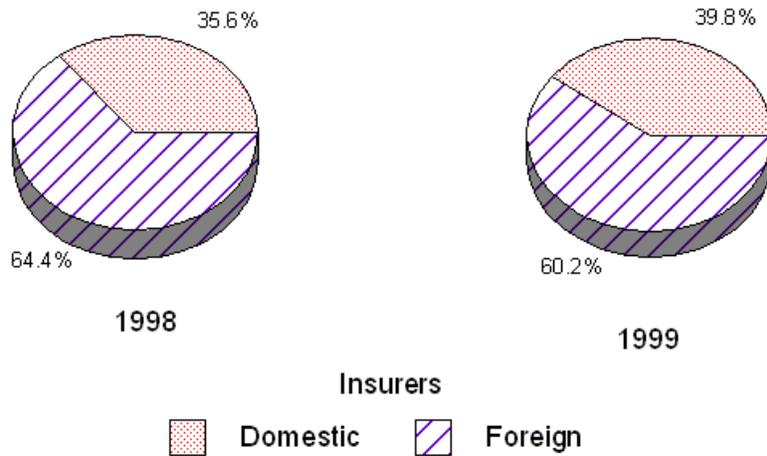

Table 35 shows that foreign insurers accounted for about two thirds of the Article 33 population in 1998 and 1999. Property and casualty insurers had the greatest ratio of foreign to domestic insurers. In 1998 and 1999, domestic insurers exceeded foreign insurers in the life and savings bank categories.

Figure 11 shows that foreign insurers represented 64.4 percent and 60.2 percent of total Article 33 tax liability in 1998 and 1999, respectively. Table 35 indicates that this distribution is attributable to foreign property and casualty insurers, which represented 76 percent of foreign insurers' liability in 1998 and 75 percent in 1999.

Table 35: Article 33 Tax Liability of Domestic and Foreign Insurers Before Limitation and Credits – 1998 and 1999

Tax Year	Insurance Category	Number of Domestic Companies	Liability of Domestic Companies	Number of Foreign Companies	Liability of Foreign Companies
1998	Life	91	\$167,412,306	76	\$120,815,590
	Property & Casualty	159	116,877,678	551	438,937,417
	Others	30	33,930,645	42	18,689,438
	Savings Bank	17	1,485,985	0	0
	Total	297	\$319,706,614	669	\$578,442,445
1999	Life	91	\$165,687,635	79	\$94,954,752
	Property & Casualty	168	90,925,022	573	357,767,274
	Others	31	56,310,611	43	22,580,755
	Savings Bank	16	1,068,063	0	0
	Total	306	\$313,991,331	695	\$475,302,781

Figure 11: Distribution of Article 33 Tax Liability Between Domestic and Foreign Insurers – 1998 and 1999

Tax Liability by Basis of Tax

Percentage of Tax from Premiums and “Income” Bases

As illustrated in Table 36, the premiums base, as a percent of total Article 33 tax liability before application of the tax limitation and credits, increased from 40.5 percent in 1998 to 45.9 percent in 1999.

Table 36: Article 33 Tax Liability by Base of Tax Before Limitation and Credits – 1998 and 1999

Tax Year	Insurance Category	Amount of Premiums Based Tax	Share of Tax from Premiums Base (%)	Amount of Income Based Tax	Share of Tax from Income Base (%)
1998	Life	\$86,491,084	30.0	\$201,736,812	70.0
	Property & Casualty	255,932,453	46.0	299,882,642	54.0
	Others	20,519,724	39.0	32,100,359	61.0
	Savings Bank	656,603	44.2	829,382	55.8
	Total	\$363,599,864	40.5	\$534,549,195	59.5
1999	Life	\$ 88,076,219	33.8	\$172,566,168	66.2
	Property & Casualty	246,440,447	54.9	202,251,849	45.1
	Others	26,942,938	34.2	51,948,428	65.8
	Savings Bank	605,659	56.7	462,404	43.3
	Total	\$362,065,263	45.9	\$427,228,849	54.1

Tax Liability After
Limitation and Credits

Tax Limitation

As shown in Table 37, the number of taxpayers whose tax liability was “capped” at 2.6 (2.0 for life companies) percent of gross premiums decreased from 514 in 1998 to 503 in 1999. During this period the value of the cap, or the limitation on tax liability, for all Article 33 taxpayers decreased from \$240.6 million in 1998 to \$170.7 million in 1999. In 1999, the benefit of the limitation was split relatively evenly between life and property & casualty insurers.

Tax Credits

The number of taxpayers using credits increased from 291 in 1998 to 299 in 1999. The amount of credits used by taxpayers equaled \$60.9 million in the 1998 tax year and \$64.5 million in the 1999 tax year.

The retaliatory tax credit, which may be used only by domestic taxpayers, represented the only credit used by life insurers in 1998, and the majority of credits used by life insurers in 1999. In contrast, the retaliatory tax credit represented a much smaller portion of total credits used by property and casualty insurers for the same years. This may be attributable to the high proportion of foreign to domestic property and casualty insurers as well as the use of the fire premiums credit, which is not used by life insurers.

Tax Liability After Tax Limitation and Credits

Table 37 and Figure 12 also show that tax liability after limitation and credits equaled \$596.6 million and \$554.1 million in the 1998 and 1999 tax years respectively.

Table 37: Article 33 Tax Liability After Limitation and Credits – 1998 and 1999

Tax Year	Insurance Category	Tax Limitation		Total Tax Credits 1/		Limitation & Tax Credits	After Limitation & Tax Credits
		Number of Taxpayers	Amount of Limitation	Number of Taxpayers 2/	Amount of Tax Credits		
1998	Life	97	\$78,741,381	29	\$19,237,039	\$97,978,420	\$190,249,476
	Property & Casualty	373	138,157,390	252	38,767,541	176,924,931	378,890,164
	Others 3/	44	23,724,963	10	2,936,722	26,661,685	27,444,383
	Total	514	\$240,623,734	291	\$60,941,302	\$301,565,036	\$596,584,023
1999	Life	98	\$68,175,287	32	\$21,582,790	\$89,758,077	\$170,884,310
	Property & Casualty	363	63,980,112	256	40,273,113	104,253,225	344,439,071
	Others 3/	42	38,567,579	11	2,657,340	41,224,919	38,734,510
	Total	503	\$170,722,978	299	\$64,513,243	\$235,236,221	\$554,057,891

1/ Total credits includes the retaliatory tax credit, job incentive credit, EZ wage and capital credits, fire premiums credit, credit for employers who hire persons with disabilities, the mortgage recording tax credit, and the CAPCO credit.

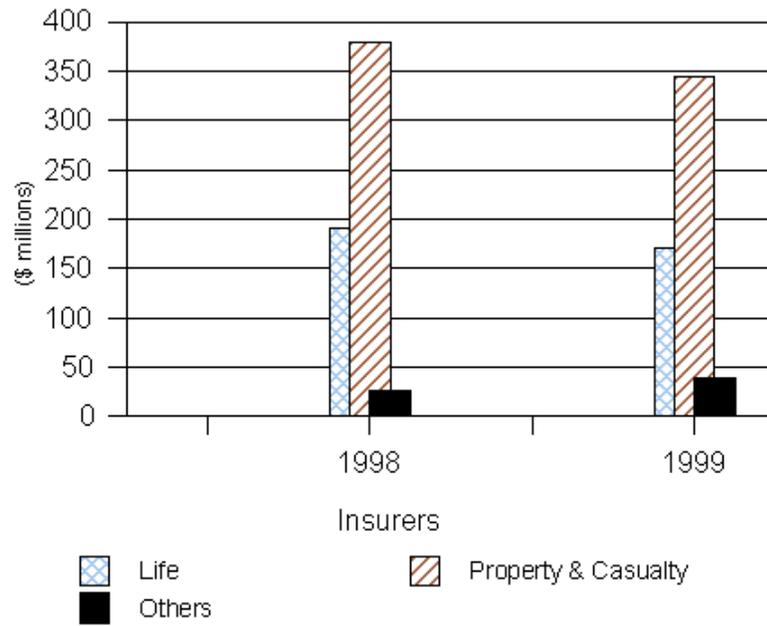

2/ The number of taxpayers displayed in the "Total Credits" column reflects the number of taxpayers taking individual credits. Because taxpayers may use multiple credits, the same taxpayer may be included in this column more than once.

3/ In order to maintain confidentiality, savings banks were included in the "others" category.

The number of life and property and casualty insurers using the retaliatory credit and the amount used equaled:

Retaliatory Tax Credit: Number of Taxpayers and Amount of Credit Used – 1998 and 1999				
Tax Year	Life Insurers		Property & Casualty	
	Number of Taxpayers	Amount of Credit Used (millions)	Number of Taxpayers	Amount of Credit Used (millions)
1998	29	\$19.2	45	\$11.4
1999	24	\$17.7	41	\$10.6

Figure 12: Distribution of Article 33 Tax Liability After Limitation and Credits – 1998 and 1999

Endnotes

1. Insurance companies may claim the following credits under Article 33: Empire Zone Wage and Capital credits and Zone Equivalent Area Wage credits (Tax Law Sections 1511(g)(h)); life insurance company guarantee fund assessment credit (Tax Law Section 1511(f)); special additional mortgage recording tax credit (Tax Law Section 1511(e)); eligible business facilities credit (Tax Law Section 1511(d)); retaliatory tax credits (Tax Law Sections 1511(c) and 1511(h)); credit for employing persons with disabilities (Tax Law Section 1511(j)); credit for investment in certified capital companies (Tax Law Section 1511(k)); and fire insurance tax credit (Tax Law Section 1511(a)).

Detailed Article 33 Summary Tables

This section contains detailed Article 33 summary tables for the 1999 tax year. Tax liability excludes the MTA surcharge.

These tables do not include data for taxpayers who report zero tax due as a result of the premiums tax limitation or who are required under Section 1502-a of the tax law to compute their tax based solely on their premiums limitation. Income related items of information on these returns is often unreliable and is not verified. Therefore, data presented in these tables will differ from that presented in the other tables included in this report, which include data for all taxpayers. In 1999, these two categories combined represented 84 taxpayers with a total liability of approximately \$20 million.

In certain tables tax law provisions prohibit the disclosure of data. The data are included in the appropriate totals, and are designated by “d”.

Appendix A: Description of Terms and Data and Data Sources

Appendix A describes selected terms and data used in the tables and charts in each tax law section, as well as the data sources used in this report. In some tables, total dollar amounts may not equal 100 percent due to rounding.

Description of Terms and Data

Liability Year

Liability year corresponds to the corporate franchise tax return filing period. A liability year includes returns filed by taxpayers with business operating years that end between December 31 of the current year, and November 30 of the subsequent year. For example, the 1999 liability year data used in this analysis encompasses tax years for calendar and fiscal year taxpayers with business operating years ending December 1999 through November 2000. All Article 9 taxpayers file on a calendar year basis.

MTA Surcharge

The report does not include the 17 percent temporary franchise tax surcharge imposed on taxpayers operating in the Metropolitan Commuter Transportation District (MCTD). The MCTD includes the counties of New York, Bronx, Kings, Queens, Richmond, Dutchess, Nassau, Orange, Putnam, Rockland, Suffolk, and Westchester.

Data users cannot determine the value of the MCTD surcharge from the statistical tables because tax liability data for business activity conducted in the MCTD is not readily available. Legislation enacted in 2001 extended the MTA surcharge through taxable years ending before December 31, 2005. For gas importers under Article 9, the surcharge was extended through taxable years ending on or before June 30, 2005.

Temporary Business Tax Surcharge

Some of the historical tables presented in this report include the temporary business tax surcharge, which was eliminated after 1996. Beginning in 1990, the surcharge rate equaled 15 percent and applied to the post-credit liability of Articles 9-A, 9, 32 and 33 taxpayers. For Articles 9-A, 32 and 33 taxpayers, the surcharge was reduced to 12.5 percent for tax years ending after June 30, 1994 and before July 1, 1995.

The surcharge decreased to 7.5 percent for tax years ending after June 30, 1995 and before July 1, 1996. It was further reduced to 2.5 percent for tax years ending after June 30, 1996 and before July 1, 1997. The surcharge was reduced to 0 percent after this date. For Article 9 taxpayers, the surcharge was reduced to 12.5 percent beginning in tax year 1994, to 7.5 percent beginning in tax year 1995 and to 2.5 percent beginning in tax year 1996. It fell to 0 percent after 1996.

Data Classification by Industry

Taxpayers are classified according to Principal Industry Activity (PIA)¹ and North American Industrial Classification System (NAICS) codes appropriate for their industry groups. Taxpayers self-report appropriate PIA or NAICS codes on their tax returns. These codes identify the general type of business activity in which the entity is engaged (e.g., construction, manufacturing, retail trade, or finance and insurance). However, taxpayers often fail to provide this information.

Industries are grouped by two-digit industry sectors and three and four-digit subsectors in this report. Only data from certain selected industry subsectors has been presented in this report. As a result, data presented in tables for subsectors may not necessarily add to the appropriate two-digit industry sector totals. NAICS coding expands into much more detail by going as far as the six-digit level. This can be highly specific by activity or product classification. For the purposes of this report, this level of detail is not required.

NAICS coding for New York tax returns began in 1998. Previously, industries had been classified using the Standard Industrial Classification (SIC) system. The associated liability is quite small for those taxpayers who cannot be identified by industry group. Because some of the taxpayer universe remains unidentified, only general comparisons can be

made between industry sectors for each particular tax. This caveat applies to both the number of taxpayers and liability data.

Number of Taxpayers

This represents the actual number of tax returns filed for each tax year, although this data may not include some late filed returns. This count refers to each filing entity as a single corporation, regardless of whether the corporation files a separate return or as part of a combined/consolidated group.

Tax Liability

This represents the sum of the post-credit liability for all taxpayers filing a return. Tax liability data includes the tax on subsidiary capital and the fixed dollar minimum tax for subsidiaries of combined filers. It does not include the MTA surcharge.

Tax Credits Used

The credit data are limited to credits used on the taxpayer's return. They do not reflect credits earned but not used, or balances of unused credits.

Article 9-A

Table Terms

Tax Return Items

Certain tables include data for selected items taken from tax returns filed by corporations. Data for each tax return item is given for basis of tax, industry group, return type, and fiscal period.

Industry Group

Certain tables are classified by industry group as reported by NAICS industry code. There are a few caveats to be aware of:

Finance, Insurance and Real Estate

This industry designation excludes banks taxable under Article 32 and insurance companies taxable under Article 33.

Industry Code Not Given/Not Classified

The terms “Industry Code Not Given” and “Not Classified” that appear in tables profiling corporations by industry, represent those corporations whose returns did not indicate an industry code and an appropriate code could not be assigned based upon the information submitted with the returns.

Transportation/Communications/Public Utilities

This industry designation excludes transportation, communications and public utility companies taxable under Article 9 of the Tax Law.

Data Terms/Descriptions

Primary Tax Base

The tax base on which the taxpayer paid, after the application of all available credits. The law includes four bases: entire net income, capital, fixed dollar minimum and alternative minimum taxable income. Certain Article 9-A tables include “true” fixed dollar minimum taxpayers. These taxpayers were liable only for the fixed dollar minimum tax of \$100 - \$1500, without subsidiary capital taxes. Certain tables also include data for S corporations.

Tax Liability

Tax liability data are compiled in the aggregate, by sector of industry. Data includes the respective shares that each sector of industry represents in relation to all taxpayers as well as the average liability per taxpayer for each sector.

Number of Taxpayers

This count refers to each filing entity as a single corporation, regardless of whether the corporation files a separate return or as part of a combined/consolidated group. Data are compiled in the aggregate, by sector of industry. The data also includes the respective shares that each sector of industry represents in relation to the total number of taxpayers.

Return Type

Return filed by taxpayers. Article 9-A tables include data for the CT-3, CT-3A, and CT-4 return types.

Fiscal Period

Taxpayers are classified by the last day of their fiscal year as reported for tax purposes.

Tax Credits

Information on Article 9-A tax credits is not provided in this report. For detailed information on these credits please see *Analysis of Article 9-A Tax Credits*, published by the Office of Tax Policy Analysis.

Article 9

Table Terms

Tax Law Section

The following sections of Article 9 are included in this report:

Section 183 Franchise Tax on Transportation and Transmission Corporations and Associations

Section 184 Additional Franchise Tax on Transportation and Transmission Corporations and Associations

Section 186 Franchise Tax on Waterworks Companies, Gas Companies, Electric or Steam Heating, Lighting and Power Companies

Section 186-a Gross Receipts Tax on the Furnishing of Utility Services

Section 186-e Excise Tax on Telecommunications Services

Data Terms/Descriptions

Tax Liability

Tax liability data are shown in the aggregate, and for each selected tax section of Article 9.

Number of Taxpayers

Each taxpayer should be considered to represent a single filing entity, although the tax law allows for combination of taxpayers under Article 9. These data are shown in the aggregate, and for each selected tax section of Article 9.

Data Aggregation

Some data (both number of taxpayers and tax liability) have been aggregated based on the product sold which is subject to Article 9. For example, the real estate industry has been combined with the electric and gas industry under Section 186-a. This is because the real estate industry, which includes large New York City apartment complexes, resembles the electric and gas industry in providing metered heat and other services to tenants and other customers. Similarly, the hotel industry has been combined with the telephone and telegraph industry because it charges customers for placing telephone calls.² Other categories have been combined for confidentiality reasons. The pipeline sales category has been combined with the miscellaneous/unidentified category. In addition, for 186-e taxpayers, the stock exchange category has been combined with “other.”

Article 32

Table Terms

Tax Return Items

Certain tables include data for selected items taken from tax returns filed by banks. Data for each tax return item is given for basis of tax, bank type, and return type.

Clearinghouse Banks

Clearinghouse banks are financial institutions that are members of the New York Clearing House Association. As members of this Association, their functions include handling daily fund exchanges from other clearinghouse banks and settling exchanges.

Commercial Banks

Commercial banks are institutions that are not classified as clearinghouse banks, foreign banks, savings banks or savings and loan associations. Banks included in this category are domiciled in the United States.

Foreign Banks

Foreign banks are commercial banks headquartered outside the United States or its possessions with nexus in New York State.

Savings Banks

Savings banks are depository financial institutions that primarily accept consumer deposits and make home mortgage loans.

Savings and Loan Associations

Savings and loan associations are depository financial institutions that receive deposits primarily from consumers and hold most of their assets as home mortgage loans.

Data Terms/Descriptions

Tax Liability

Tax liability data includes the respective shares of certain bank types in relation to total bank tax liability as well as the average liability per taxpayer for each bank type.

Number of Taxpayers

This count refers to each filing entity as a single bank, regardless of whether the bank files a separate return or as part of a combined/consolidated group.

Alternative Bases

For confidentiality reasons, the taxable assets and alternative entire net income bases are aggregated in the tables. They are referred to in the tables as alternative bases.

Fixed Dollar Minimum Taxpayers

All tables include “true” fixed dollar minimum taxpayers. These taxpayers were liable only for the fixed dollar minimum tax of \$250, without subsidiary capital taxes.

Allocated Entire Net Income (ENI)

Allocated ENI refers to the New York portion of ENI. Taxpayers determine the amount of ENI attributable to New York using formula apportionment.

Tax Credits

Empire Zone and Zone Equivalent Area Credits

Taxpayers may qualify for credits for making certain investments and creating jobs in Empire Zones and Zone Equivalent Areas. Unused credits may be carried forward indefinitely.

Mortgage Servicing Tax Credit

A credit is allowed for servicing mortgages acquired by the State of New York Mortgage Agency (SONYMA). The credit value varies by dwelling size and the amount of the mortgage.

Special Additional Mortgage Recording Tax Credit

A corporation may claim a credit for the New York special additional mortgage recording tax paid on mortgages recorded on or after January 1, 1979. Taxpayers may carry forward the unused mortgage recording tax credit to future tax years. Mortgages on certain property, such as property in the Metropolitan Commuter Transportation District and Erie County, are ineligible for the credit.

Investment Tax Credit for Financial Services

A credit is allowed for equipment or buildings used in broker/dealer activity and related activities. Credit is effective for property placed in service from October 1, 1998 to September 30, 2008.

Article 33

Table Terms

Tax Return Items

Certain tables include data for selected items taken from tax returns filed by insurers. Data for each tax return item is given for basis of tax and type of insurer.

Life Insurance Companies

Life insurance companies include companies authorized by the Superintendent of Insurance to conduct an insurance business consisting of either insuring the lives of human beings or providing annuity contracts.

Property and Casualty Insurance Companies

Property and casualty insurance companies include companies authorized by the Superintendent of Insurance to write insurance against the loss of, or damage to, property.

Others

This category includes insurance companies authorized by the Superintendent of Insurance to write accident and health insurance, title insurance, mortgage and financial guaranty insurance, or reciprocal insurance.

Savings Banks

Officers and employees of savings banks may be authorized by the Superintendent of Insurance to negotiate, order, solicit, or procure applications or orders for life insurance or annuity contracts.

Zero Liability Companies

These companies have been included as a separate category of insurance company in the historical tables for this report for 1995. Zero liability companies are insurers who do not have any premiums in New York, but may have tax due on the income base before the tax limitation on gross premiums. Their tax liability, according to the limitation, is zero. For years after 1995, this category is no longer separately reported, and data

Data Terms/Descriptions

for these companies has been appropriately placed among the remaining categories.

Fixed Dollar Minimum Taxpayers

All tables include “true” fixed dollar minimum taxpayers. These taxpayers were liable only for the fixed dollar minimum tax of \$250, without subsidiary capital or premiums based taxes.

Tax Liability

Tax Liability is shown both before and after the application of the limitation on gross premiums and application of credits. The data also includes the respective shares of each category of insurance companies in relation to total insurance tax liability, as well as the average liability per taxpayer for each of these categories.

Number of Taxpayers

This count refers to each filing entity as a single insurance company, regardless of whether the company files a separate return or as part of a combined/consolidated group.

Domestic Companies

Domestic insurance companies are companies incorporated or organized in New York State.

Foreign Companies

Foreign insurance companies are companies incorporated or organized in any other state, U.S. possession, nation, territory, or province.

Income Base Tax

The “Income Base Tax” category in applicable tables is defined as the higher of four alternative bases, plus a tax on subsidiary capital.

Premiums Base

The “Premiums Base” category in applicable tables includes data from the separate tax on premiums.

Limitation on Tax

Article 33 provides a “cap,” or limitation, on total tax liability which equals 2.6 percent of gross premiums for non-life insurance companies and 2.0 percent of gross premiums for life insurance companies.

Tax Credits

Empire Zone Credits

Taxpayers may qualify for credits for making certain investments and creating jobs in Empire Zones and Zone Equivalent Areas. Unused credits may be carried forward indefinitely.

Fire Insurance Tax Credit

Taxpayers may take a credit for additional taxes on premiums written by corporations organized in another state or country for any insurance against loss or damage by fire, paid by foreign fire insurance companies and foreign mutual fire insurance companies. These taxes are imposed under the Insurance Law. Unused credits may not be carried forward.

Special Additional Mortgage Recording Tax Credit

Taxpayers may take a credit equal to special additional mortgage recording tax paid on mortgages recorded on or after January 1, 1979, on property located in New York. Mortgages on certain property, such as property in the Metropolitan Commuter Transportation District and Erie County, are ineligible for the credit. Any unused credit may be carried forward and used in subsequent years.

Credit for Investment in Certified Capital Companies

Taxpayers may claim a credit for 100 percent of investments in Certified Capital Companies (CAPCOs). CAPCOs are for-profit venture capital firms that invest directly in small-to-mid-size businesses. The credit is claimed at a rate of 10 percent per year over a ten year period.

Retaliatory Tax Credit

Taxpayers domiciled or organized in New York may take a credit for up to 90 percent of any retaliatory taxes paid to other states as a result of New York State-imposed taxes on insurers domiciled or organized in

those states. Taxpayers may elect to have the unused credit refunded or carried forward to future tax years.

Data Sources

Article 9-A

All tax statistics provided in this section of the report come from the Article 9-A Office of Tax Policy Analysis (OTPA) Study File and Minimum Tax File. These files include data collected from Article 9-A corporate franchise tax returns for the liability year to which the study and minimum tax files pertain. These data files include all timely filed and amended returns available at the time the study file is created. Although the presented data are prior to audit, OTPA staff may adjust taxpayer provided information for items failing the Office's verification program.

Article 9

The data come from the Department of Taxation and Finance's Corporation Master Files. A contracted processing bank provided the original data. All returns have been subjected to a basic calculations check necessary for verifying tax liability. However, the data are neither manually reviewed nor are missing data computed and added to the file. Therefore, these data are less reliable than that available from OTPA's other tax liability study files. Also, these data are extracted from the Department's Master File, as the file existed at a point in time, and may not include audit adjustments or amended or late filed returns.

Article 32

All tax statistics provided in this section of the report come from the Article 32 Office of Tax Policy Analysis (OTPA) Study File. This study file includes data collected from Article 32 banking franchise tax returns for the liability year to which the study file pertains. This data file includes all timely filed and amended returns available at the time the study file is created. Although the presented data are prior to audit, OTPA staff may adjust taxpayer provided information for items failing the Office's verification program.

Article 33

All tax statistics provided in this section of the report come from the Article 33 Office of Tax Policy Analysis (OTPA) Study File. This study file includes data collected from Article 33 insurance franchise tax returns for the liability year to which the study file pertains. This data file includes all timely filed and amended returns available at the time the study file is created. Although the presented data are prior to audit, OTPA staff may adjust taxpayer provided information for items failing the Office's verification program.

Endnotes

1. The Internal Revenue Service (IRS) asks taxpayers to identify their principal business activity using these codes for federal tax purposes.
2. Section 186-a constitutes a small portion of tax liability for the real estate and hotel industries. Such businesses are more commonly taxed under other articles of the tax law.

Appendix B: Tax Rate Changes in 1998 and 1999

Appendix B lists the changes in business tax rates effective in 1998 and 1999. The tables are organized by business tax type. There were fourteen rate changes effective in business taxes in these two years. There were no rate changes in bank taxes over this period.

Article 9-A: Corporation Franchise Tax

Table B1: Reduction in Rate of Alternative Minimum Tax for Article 9-A Taxpayers

Rate for taxable years beginning before July 1, 1998	3.5%
Rate for taxable years beginning on or after July 1, 1998 but before July 1, 1999	3.25%
Rate for taxable years beginning on or after July 1, 1999 but before July 1, 2000	3%

Table B2: Reduction in Rate of Tax on Entire Net Income for Article 9-A Taxpayers

Rate for taxable years beginning before July 1, 1999	9%
Rate for taxable years beginning on or after July 1, 1999 but before July 1, 2000	8.5%

Table B3: Reduction in Rate of Tax on Entire Net Income for Small Business Taxpayers

Gross Payroll	Rate for Taxable Years Beginning Before July 1, 1999	Rate for Taxable Years Beginning After June 30, 1999 and Before July 1, 2000
\$200,000 or Less	8%	7.5%
More than \$200,000 but not more than \$290,000	8%	\$15,000, plus 8.5% of amount between \$200,000 and \$250,000, plus 5% of amount over \$250,000

Table B4: Reduction in Differential Rate of Tax on Entire Net Income for S Corporations

Rate for taxable years beginning before July 1, 1999	7.875%
Rate for taxable years beginning on or after July 1, 1999 but before July 1, 2000	7.525%

Table B5: Reduction in Differential Rate of Tax on Entire Net Income for Small Business S Corporations

Gross Payroll	Rate for Taxable Years Beginning Before July 1, 1999	Rate for Taxable Years Beginning After June 30, 1999 and Before July 1, 2003
\$200,000 or Less	7.875%	7.45%
More than \$200,000 but not more than \$290,000	7.875%	\$14,900, plus 6.85% of amount between \$200,000 and \$250,000, plus 3.85% of amount over \$250,000

Table B6: Reduction in Fixed Dollar Minimum Tax for Article 9-A Taxpayers

Gross Payroll (Set Ranges in Accordance with the Second Year of the New Law)	Taxable Years Beginning Before July 1, 1998	Taxable Years Beginning After June 30, 1998 and Before July 1, 1999	Taxable Years Beginning After June 30, 1999
\$250,000 or Less	\$325	\$100	\$100
More than \$250,000 but not more than \$500,000	\$325	\$325	\$225

Article 9: Corporation and Utilities Tax

Table B7: Reduction in Rate of Tax Under Sections 186-a and 186-e of Article 9

	Tax Rate	
	Section 186-a	Section 186-e
Taxable years prior to October 1, 1998	3.5%	3.5%
Taxable years after October 1, 1998 but before January 1, 2000	3.25%	3.25%

Article 33: Corporation Franchise Tax on Insurance Corporations

Table B8: Reduction in Rate of Tax on Life Insurance Premiums for Article 33 Taxpayers

Rate for taxable years prior to January 1, 1998	0.8%
Rate for taxable years beginning on or after January 1, 1998	0.7%

Table B9: Reduction in the Limitation on Premiums for Life Insurers Under Article 33

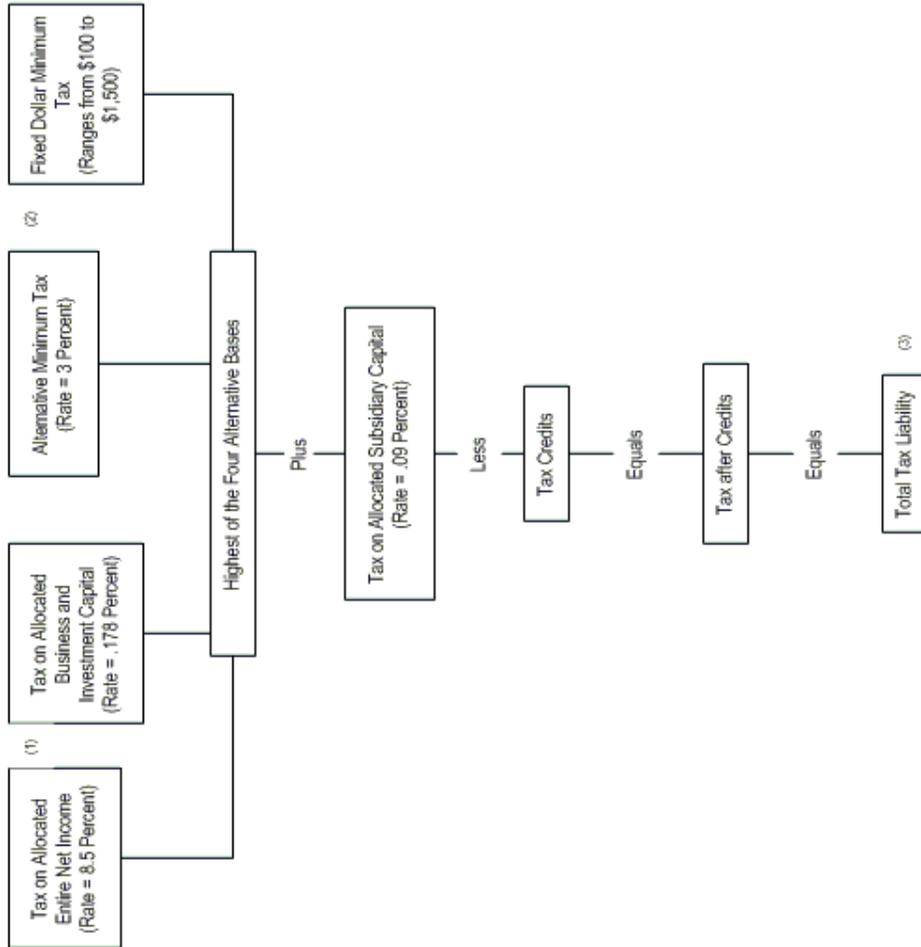

Limitation for taxable years prior to January 1, 1998	2.6%
Limitation for taxable years beginning on or after January 1, 1998	2%

Appendix C: Descriptive Charts of the Calculation of Tax Liability for Articles 9-A, 32 and 33

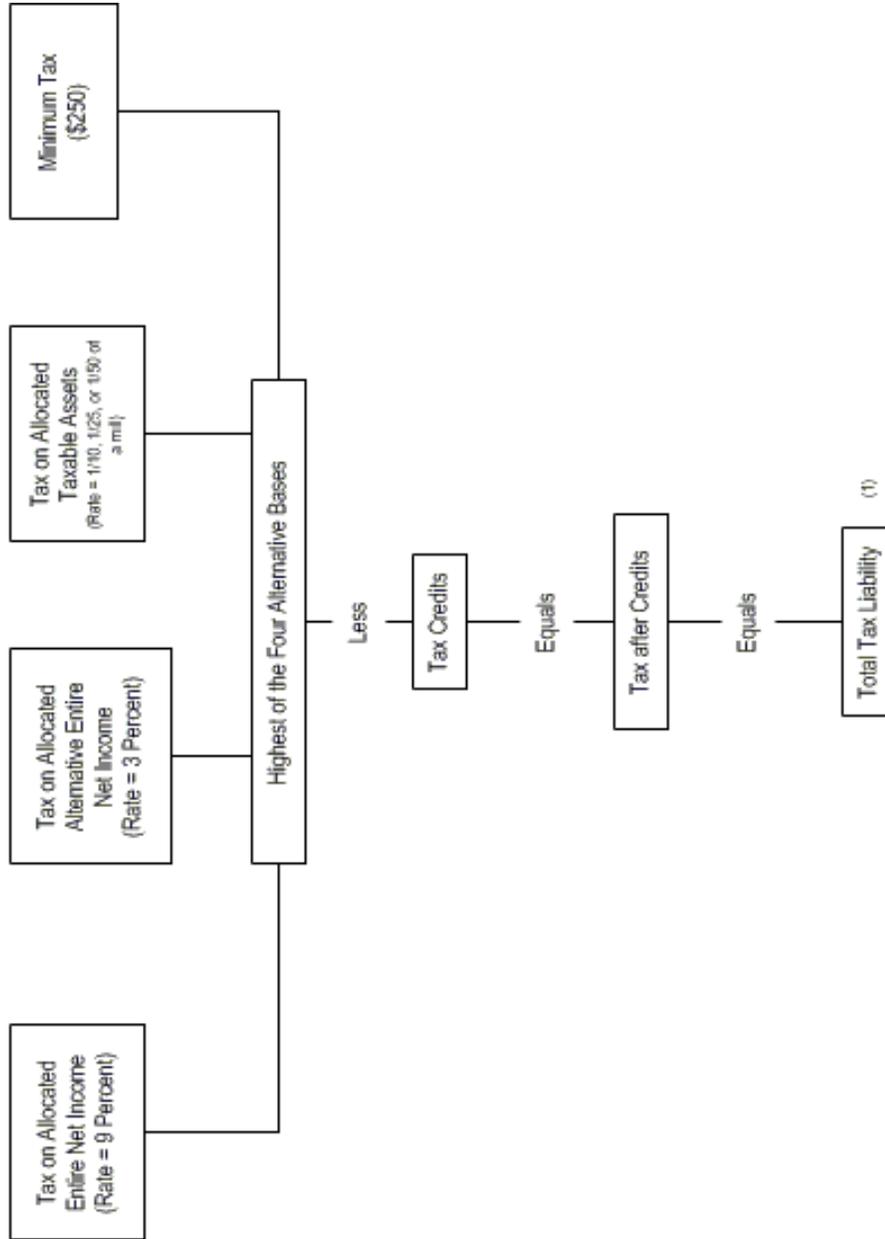

Appendix C contains descriptive charts of the calculation of tax liability for Articles 9-A, 32 and 33. The charts (except where noted) reflect the Tax Law as of January 1, 1999. Article 9 has not been included due to its complexity and the taxation of different sections under the Tax Law. For more information on the taxation of these Articles, see *New York State Tax Sourcebook* issued by the Office of Tax Policy Analysis.

Corporation Franchise Tax on General Business Corporations
Article 9-A
1999

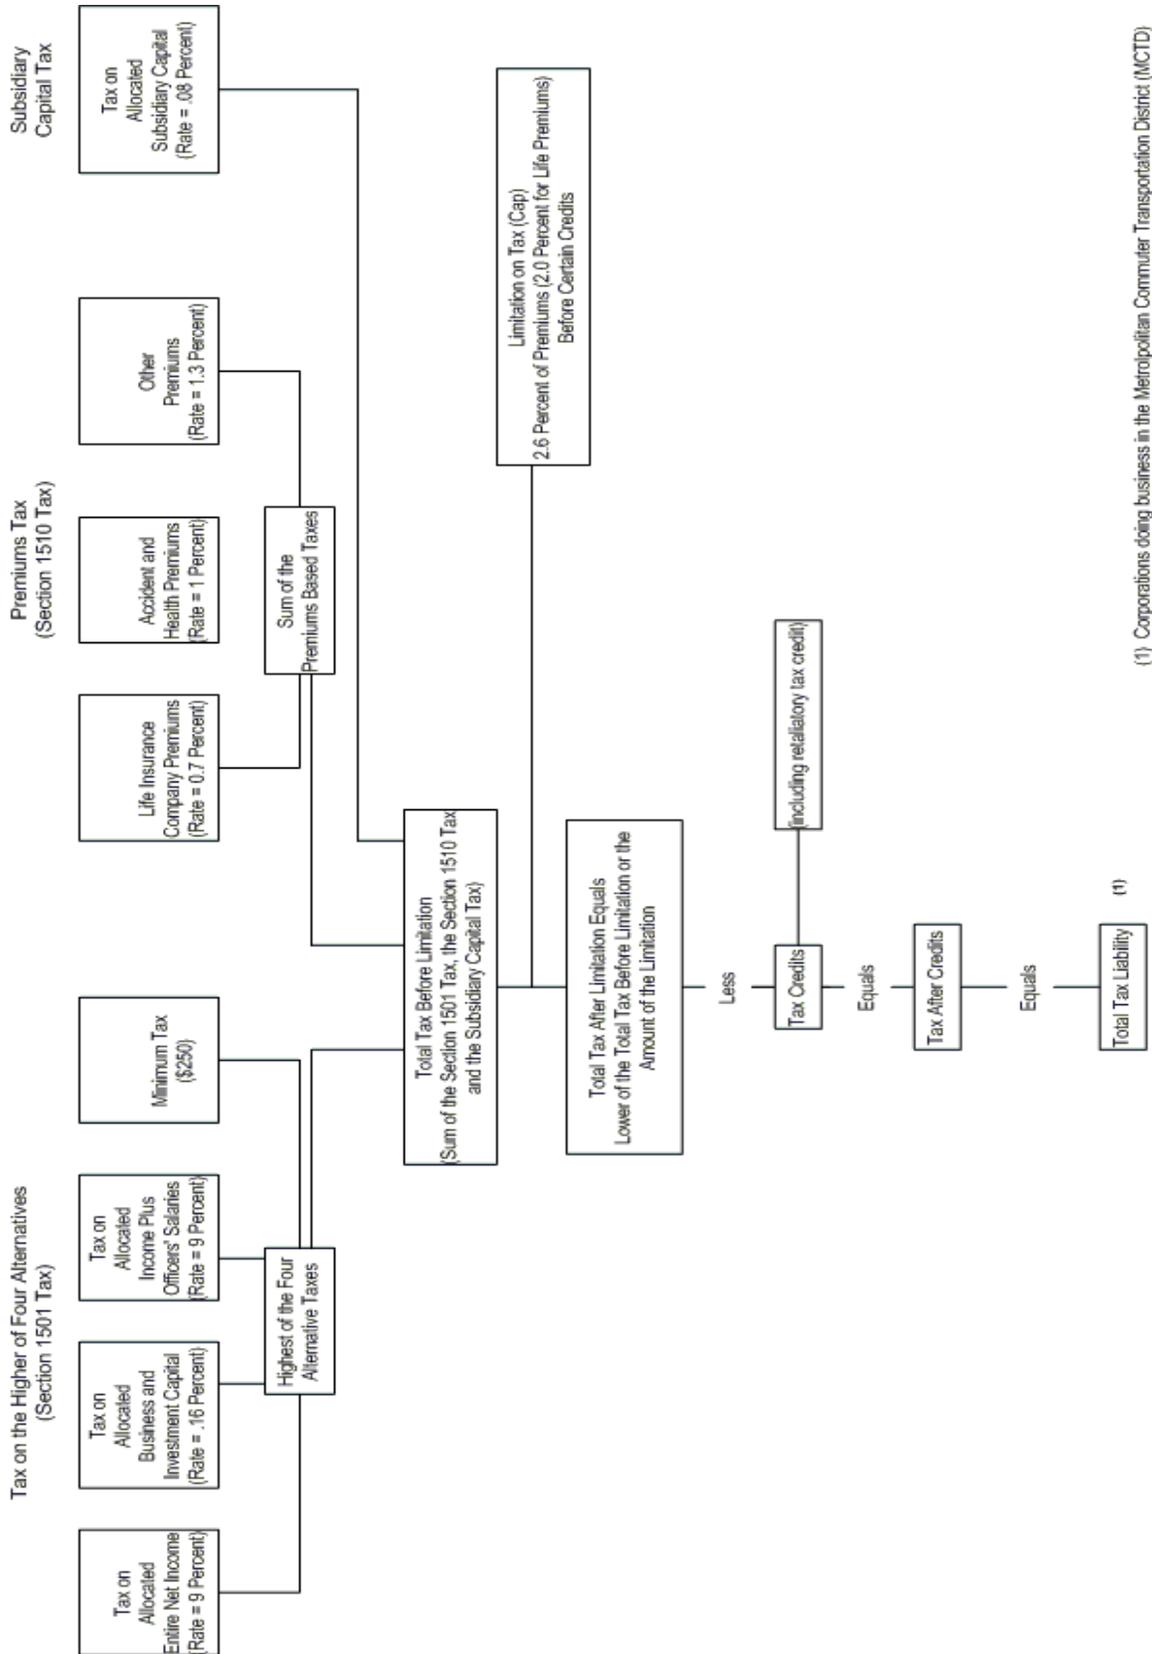

(1) The tax rate on Entire Net Income is reduced from 9 to 8.5 percent for tax years beginning after 6/30/99 but before 7/1/00.
 (2) The rate for the Alternative Minimum Tax is reduced from 3.25 to 3 percent for tax years beginning after 6/30/99 but before 7/1/00.
 (3) Corporations doing business in the Metropolitan Commuter Transportation District (MCTD) are subject to a 17 percent surcharge on the portion of total tax liability allocable to activities within the MCTD.

Corporation Franchise Tax on Banking Corporations
Article 32
1999

(1) Corporations doing business in the Metropolitan Commuter Transportation District (MCTD) are subject to a 17 percent surcharge on the portion of total tax liability allocable to activities within the MCTD.

Calculation of Corporation Franchise Tax on Insurance Companies Article 33 1999

(1) Corporations doing business in the Metropolitan Commuter Transportation District (MCTD) are subject to a 17 percent surcharge on the portion of the total tax liability allocable to activities within the MCTD

Appendix D: Historical Tables Accompanying This Report

This appendix contains four sections of selected historical tables and charts which were presented in this report previously. The historical tables are presented for tax years 1995-1999 for Articles 9-A, 9, 32 and 33. Section 1 refers to Article 9-A data, Section 2 displays Article 9 data, Section 3 depicts Article 32 data and Section 4 contains Article 33 data.

Section 1: Article 9-A

Table D1: Distribution of C Corporation Taxpayers by Industry - 1995-1999

Industry	Number of Taxpayers				
	1995	1996	1997	1998	1999
Agriculture	1,085	1,662	1,398	1,122	1,149
Mining	500	591	502	424	421

	Others 4/	42	38,567,579	11	2,657,340	41,224,919	38,734,510
	Zero Liability Companies	0	0	0	0	0	0
	Total	503	\$170,722,978	299	\$64,513,243	\$235,236,221	\$554,057,891

1/ The amount displayed in the "Tax Limitation" column equals the amount of a taxpayer's total tax liability minus the limitation on the taxpayer's total tax liability (which equals 2.0 percent of the taxpayer's gross premiums for life insurers and 2.6 percent for all other insurers).

2/ Total credits includes the retaliatory tax credit, job incentive credit, EZ wage and capital credits, fire premiums credit, credit for employers who hire persons with disabilities, the mortgage recording tax credit, and the CAPCO credit. The number of life and property and casualty insurers using the retaliatory credit and the amount used equaled:

Retaliatory Tax Credit: Number of Taxpayers and Amount of Credit Used - 1995 through 1999

Tax Year	Life Insurers		Property & Casualty	
	Number of Taxpayers	Amount of Credit Used (millions)	Number of Taxpayers	Amount of Credit Used (millions)
1995	29	\$21.8	46	\$12.1
1996	29	\$24.9	44	\$11.1
1997	27	\$30.5	46	\$11.8
1998	29	\$19.2	45	\$11.4
1999	24	\$17.7	41	\$10.6

3/ The number of taxpayers displayed in the "Total Credits" column reflects the number of taxpayers taking individual credits. Because taxpayers may use multiple credits, the same taxpayer may be included in this column more than once.

4/ In order to maintain confidentiality, savings banks were included in the "others" category.
