Statistical Highlights

*Statistical Highlights of
the Child and Dependent
Care Credit for the 2002
Tax Year*

- Approximately 535,500 resident and nonresident taxpayers claimed \$227.2 million in child and dependent care credit for the 2002 tax year. The average credit taken was \$575 in New York City compared to the statewide average of \$424.
- Over 94 percent of the credit was claimed by taxpayers with incomes below \$75,000. Low to middle income taxpayers also claimed higher average credits than those in the upper income classes.
- Head of household was the most common filing status for returns claiming the credit.
- Approximately 84 percent of the resident married joint filers claiming the credit had two wage earners.
- Approximately 16 percent of all taxpayers with dependents claimed the child and dependent care credit.
- Approximately 361,000, or 67 percent, of the total claims were from taxpayers claiming expenses for one qualifying person. Taxpayers with one qualifying person claimed an average credit of \$355 while those with two or more qualifying persons received an average credit of \$568.

Introduction and Background

This report provides a statistical overview of New York's child and dependent care credit (CDCC) for tax year 2002. Summary information is presented on a statewide and county-level basis for numbers and amounts of credit claims based on income, filing status, number of qualifying dependents, and number of wage earners. The data is derived from New York State personal income tax returns filed for the 2002 tax year. To claim the CDCC, taxpayers must file a separate Form IT-216, together with their tax return. The Department of Taxation and Finance computes the credit for taxpayers who file the no-compute Form IT-100. It is important to note that some taxpayers receive tax benefits through the Federal dependent care exclusion. These taxpayers are in addition to the total number of taxpayers who claimed the child and dependent care credit noted in this report.

The federal government first instituted a child and dependent care tax credit in 1976. For tax year 2002, the federal credit, which is nonrefundable, allowed up to \$2,400 of qualifying expenses for one qualifying person and up to 4,800 of expenses for two or more qualifying persons. A qualifying person is a child under age 13 who can be claimed as a dependent or a disabled spouse or other disabled person that can be claimed as a dependent. Qualifying persons must share a home with the taxpayer. For one qualifying person, the credit reached a maximum level of \$720 for federal adjusted gross incomes (FAGI) below \$10,000, phasing down to \$480 when FAGI exceeded \$28,000. For two or more qualifying persons, the maximum credit was \$1,440 for FAGI below \$10,000, phasing down to \$960 for FAGI above \$28,000. Beginning in tax year 2003, the federal credit was significantly enhanced.

Effective beginning in the 1977 tax year, New York adopted a nonrefundable CDCC equal to 20 percent of the federal credit. Except for the impact of some minor changes to the federal credit, New York's CDCC remained unchanged through 1995. However, a series of law changes enacted in 1996 through 2000 gradually increased the credit percentage at certain income levels, above which it continues to phase down to 20 percent. Also, effective in 1996 the CDCC was made refundable for New York residents, though the CDCC remains nonrefundable for nonresidents. Finally, the New York credit increased again beginning in 2003 because it incorporated the federal enhancements.

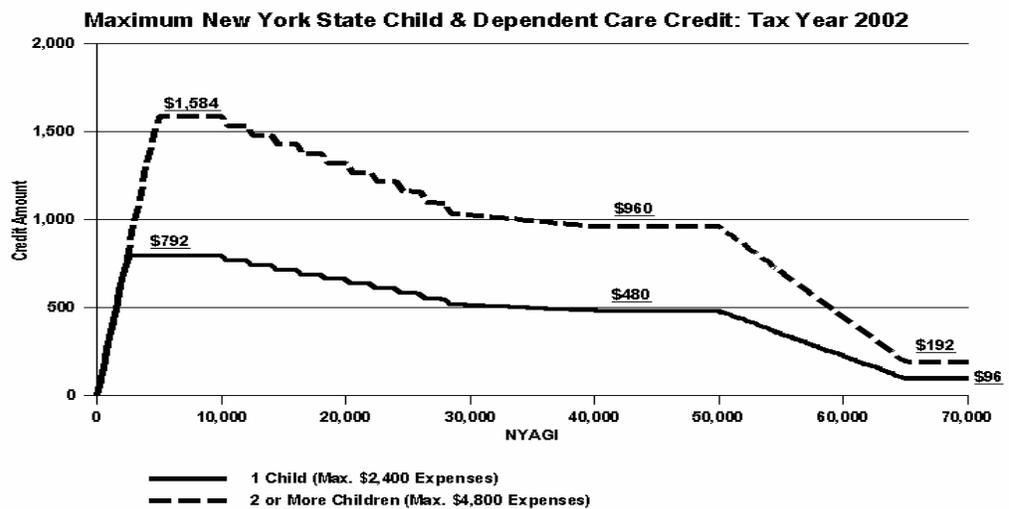

Table 1 summarizes these changes:

Table 1: History of Credit							
	Before 1996	1996		2003-2005* (1)			
Maximum Percentage of the Federal Credit	20	30	60	100	100	110	110
Maximum Income for 100% Credit	NA	\$10,000	\$10,000	\$17,000	\$35,000	\$50,000	\$50,000
Maximum Amount 1 Child	\$144	\$216	\$432	\$720	\$720	\$792	\$1,155
Maximum Amount 2 or more Children	\$288	\$432	\$864	\$1,440	\$1,440	\$1,584	\$2,310
Minimum Amount 1 Child	\$96	\$96	\$96	\$96	\$96	\$96	\$120
Minimum Amount 2 or More Children	\$192	\$192	\$192	\$192	\$192	\$192	\$240
Income Range Over Which Credit Phases	NA	\$10-14,000	\$10-14,000	\$17-30,000	\$35-50,000	\$50-65,000	\$50-65,000

* Tax years through 2002 calculated using the maximum pre-2003 qualifying expenses of \$2,400 (for 1 child) and \$4,800 (for 2 or more children). Tax Years 2003 and later calculated using qualifying expenses of \$3,000 (1 child) and \$6,000 (2 or more children).

Currently, the CDCC equals 110 percent of the federal credit for taxpayers with NYAGI below \$25,000. Percentages ranging from 110 percent to 20 percent apply to those with incomes from \$25,000 to \$65,000. Taxpayers with incomes over \$65,000 receive 20 percent of the federal credit. The following figure shows how the credit varies by income and number of qualifying dependents:

Figure 1

States with Child and Dependent Care Provisions

Table 2 provides details on current state child care provisions. Currently, some 24 states have such provisions. These provisions include both refundable and nonrefundable credits, subtractions, deductions, and itemized deductions. New York's CDCC provisions are the highest in the nation in terms of both the credit percentage and income ranges at which specific credit rates apply. Moreover, New York's credit is fully refundable.

Table 2: State Child & Dependent Care Tax Provisions as of January 1, 2005

State	Maximum % of Federal Credit	Link to Federal Structure	Refundable for Residents	Income Measure	Maximum Benefit Income Range (1)	Max. Eff. State Benefit Rate (2)	Minimum Benefit Income Range (1)	Min. Eff. State Benefit Rate (2)

Notes:

- (1) The maximum Federal credit is 35% of qualifying expenses in the Federal Adjusted Gross Income (FAGI) range \$0 - \$15,000. The minimum percentage is 20% of qualifying expenses for taxpayers with FAGI over \$43,000. Qualifying expenses must exceed earned income. Maximum qualifying expenses are \$3,000 for one dependent and \$6,000 for two or more dependents.
- (2) Maximum or minimum effective state benefit rates are calculated for comparison with Federal benefit rates.
- (3) Qualifying expenses are the pre-2003 Federal expense amounts of \$2,400 (one dependent) and \$4,800 (two or more dependents).
- (4) Qualifying expense amounts are \$4,600 (one dependent) and \$9,600 (two or more dependents).

Source: Office of Tax Policy Analysis, based largely on Commerce Clearinghouse State Tax Guide

One way to compare the relative value of state child and dependent care tax provisions (and the federal credit) is to calculate maximum and minimum benefit rates. Benefit rates are the percentage of federal expenses multiplied by the maximum (or minimum) percent of the federal credit allowed. For example, for tax year 2003 New York's highest benefit of 110 percent of the federal credit equals a maximum benefit rate of 38.5 percent versus the federal benefit rate of 35 percent. The minimum benefit rate is 4 percent, or 20 percent of the minimum federal credit allowed (20 percent of expenses).

Overview of Statistical Tables

The following tables present information regarding the child and dependent care credit claimed by New York State income taxpayers on returns filed for the 2002 tax year. The information is derived from returns which claimed the credit on their New York State income tax returns for that year. Also included is information from approximately 3,100 credits claimed on the form IT-216 *Claim for Child and Dependent Care Credit* which were filed by the taxpayer subsequent to the filing of the regular tax return. In addition, this year's report features data improvements in the number of nonresidents who claimed the credit. The child and dependent care credit reported for nonresidents is the amount claimed after allocation.

As indicated in Table 3, a total of 535,477 resident and nonresident taxpayers claimed \$227.2 million in credit for the 2002 tax year. The average credit taken was \$424. Approximately \$153 million, or 67 percent, of the total credit was claimed by taxpayers residing in New York City. These taxpayers accounted for only 50 percent of credits claimed and their average credit was \$575. The New York City average credit is significantly higher than the statewide average due to the higher cost of child care services and, potentially, differences in labor market conditions (including wages). The \$49 million claimed by residents of Kings County (Brooklyn) was the largest amount claimed in a single county.

Table 4 presents the number and dollar amount of credit claimed by New York State adjusted gross income class. The table shows that over 94 percent of the credit was claimed by taxpayers with incomes below \$75,000. Low to middle income taxpayers also claimed higher average credits than those in the upper income classes.

Table 5 contains information on the child and dependent care credit by filing status and county of residence. This table excludes approximately \$1.5 million in credit claimed by taxpayers filing the IT-216 separately from the regular return because the filing status for these taxpayers was not available. The table illustrates that taxpayers filing as head of household constituted the largest category with over \$175 million of credit claimed by over 290,000 taxpayers. Taxpayers filing as married joint/qualifying widower or head of household claimed \$218.8 million of the \$225.6 million in total credit shown on the table.

Table 6 presents information on credit claimed by resident married joint returns with one or two wage earners. As expected, approximately 84 percent of the resident married joint filers claiming the credit had two wage earners. The average credit claimed by one wage earner families was over \$70 more than the average for dual income families.

Table 7 presents the number of returns claiming the credit as a percentage of all returns with dependents by county of residence. Overall, the table illustrates that approximately 16 percent of all taxpayers with dependents claimed the child and dependent care credit in 2002. This ranges from a low of 5.7 percent in Hamilton County to a high of 26.2 percent in Bronx County.

Finally, Table 8 presents county level information on the child and dependent care credit by number of persons who qualify for the credit. The table shows that 361,000, or 67 percent, of the total claims were from taxpayers claiming expenses for one qualifying person. Taxpayers with one qualifying person claimed an average credit of \$355 while those with two or more qualifying persons received an average credit of \$568.
