Introduction and Background

Chapter 170 of the Laws of 1994 created the New York State earned income tax credit (EITC), which became effective in 1994. Authorized by Section 606(d)(7) of the Tax Law, the credit equaled 27.5 percent of the federal EITC for the 2002 tax year. New York residents may receive a refund of any excess credits. The credit is nonrefundable to nonresidents. Taxpayers must file a New York State income tax return to receive the earned income tax credit.

Table 1 provides a summary of the major provisions of both the federal and New York credits. The federal credit equals a percentage of earned income, up to a maximum credit amount. At greater income levels, the credit begins to decline as income increases. Maximum earnings and income phase out levels are indexed annually for inflation. Taxpayers must receive earned income to claim the credit. Sixteen states currently provide an earned income tax credit. Fifteen states, including New York, are linked to federal law.

Table 2 lists these states and provides comparative information on the State credits.

Legislation enacted in 1995 amended the State EITC in two ways. First, it increased the percentage for tax year 1996 from the previously scheduled 15 percent to 20 percent of the federal credit. The scheduled percentage for 1997 and thereafter remained at 20 percent. Second, it restored the household credit for 1996 and thereafter, and requires taxpayers to subtract it from their EITC.

Legislation enacted in 1999 increased the EITC from 20 percent of the federal credit to 22.5 percent in tax year 2000, and to 25 percent in tax years beginning after 2000. However, the rate will revert to 20 percent if the federal government reduces New York's allocation of temporary assistance for needy families (TANF) grant, or does not permit spending on the EITC to apply toward the TANF maintenance of effort requirement.

Legislation enacted in 2000 further increased the EITC to 27.5 percent of the federal credit in 2002 and to 30 percent after 2002. These increases are similarly predicated upon funding through the federal TANF grant.

This statistical study results from a legislative mandate. The Department of Taxation and Finance (the Department) must submit to the Governor and the Legislature an annual preliminary report by September 30, and an annual final report by February 15 of each year. The legislation mandates the reporting of detailed data, on a county-level basis, showing the usage and value of the EITC. It also requires classification of this data by amount of earned income, size of credit, and number of qualifying children. Appendix A contains the actual mandate for this statistical study as contained in Chapter 170 of the Laws of 1994.

Workers without children*	7.65%	5,100	390	30.00%	117	6,390	7.65%	11,490

* Must be over age 24 and under age 65.

** The credit is reduced by the amount of household credit used.

*** Beginning in tax year 2002, married taxpayers filing jointly and all other taxpayers have different earnings for the start of the phase-out and income cut-offs.

Note: Credit is refundable to residents, but nonrefundable to nonresidents. Phase-out based on greater of earnings or modified FAGI.

Table 2: State Earned Income Tax Credits as of January 1, 2004

State	Maximum Percentage of Federal Credit or Approximate Equivalent	Link to Federal Structure	Refundable for Residents	Eligibility for Workers Without Children
Colorado (1)	10.00%	Credit	Yes	Yes
Illinois (2)	5.00%	Credit	Yes	Yes
Indiana	6.00%	Credit	Yes	No
Iowa	6.50%	Credit	No	Yes
Kansas	15.00%	Credit	Yes	Yes
Maine	4.92%	Credit	No	Yes
Maryland	50.00%	Credit	Partially	Partially
Massachusetts	15.00%	Credit	Yes	Yes
Minnesota (3)	45.00%	NA	Yes	Yes
New Jersey (4)	20.00%	Credit	Yes	No
<i>New York</i>	<i>30.00%</i>	<i>Credit</i>	<i>Yes</i>	<i>Yes</i>
Oklahoma	5.00%	Credit	Yes	Yes
Oregon	5.00%	Credit	No	Yes
Rhode Island (5)	25.00%	Credit	Partially	Yes
Vermont	32.00%	Credit	Yes	Yes
Wisconsin (6)	43.00%	Credit	Yes	No

Notes:

- (1) Credit is only available if state revenues exceed constitutional spending limitations. The State did not offer a credit for tax year 2002 - 2004.
- (2) The Credit was initially nonrefundable and available for tax years 2000-2002. The Credit is permanent and fully refundable for tax years beginning on or after January 1, 2003.
- (3) Credit is not based on the federal credit, but on earned income at various rates for each filing status.
- (4) The credit is available for taxpayers with gross incomes of \$20,000 or less.
- (5) Beginning in tax year 2003, 5% of unused credit is refundable to taxpayers.
- (6) Percentage of federal credit varies by number of children - 4% (one child), 14% (two children), and 43% (three or more children)

Nature and Purpose of the EITC

Congress adopted the federal earned income tax credit as part of the Tax Reduction Act of 1975. It subsequently expanded the scope and enriched the size of the credit three times – in 1986, 1990, and 1993. In each case, both qualifying earnings and corresponding credit amounts increased significantly. Most recently, Congress enacted the Economic Growth and Tax Relief Reconciliation Act of 2001 (P.L. 107-16) which seeks to reduce any EITC marriage penalty by specifying higher earnings for the start of the phase-out and income cut-offs for married taxpayers filing jointly.

While Congress has expanded both the size and scope of the earned income tax credit, it has generally retained the credit's basic structure. It applies at a fixed rate of earned income up to a maximum amount of earnings, resulting in a maximum credit amount. When the higher of earnings or federal adjusted gross income (FAGI) exceeds the maximum earnings amount, the credit begins to phase out at a fixed rate. The EITC first functions like a negative income tax, because it is fully refundable if it exceeds tax liability.¹ It then becomes fixed over a narrow income range and, finally, it creates an additional marginal tax rate over the phase-out range. Figure 1 illustrates the relationship between credit amounts and earnings (or FAGI, if greater) by qualifying status.

Figure 1: 2002 New York State Earned Income Tax Credit by Earnings.

The EITC serves several intertwined purposes within the federal tax and transfer system. First, because it is based on earned income, it acts as a type of wage subsidy. This increases the net return on work effort and thus is intended to encourage either additional work effort or higher labor force participation. Either response would mean that the credit helps make work a more attractive alternative to welfare.²

Second, Congress intended the EITC to offset all or part of the payroll (Federal Insurance Contributions Act, or FICA) tax burden faced by lower-income workers.³ Because the FICA tax contains no deductions or exemptions, it can prove especially burdensome for workers with earnings in the range of those qualifying for the EITC. Over time, increases in maximum credit amounts have more than offset the increases in FICA tax rates, making the current maximum EITC substantially greater than the combined employee-employer share of FICA tax paid on the same earnings.

Finally, because it phases out as income increases, the EITC plays a general role in increasing the progressivity of the federal income tax. The EITC targets tax relief to low and moderate-income taxpayers, while its refund ability feature provides cash rebates to the lowest-income workers. The New York earned income tax credit serves similar purposes as well. In addition, because New York does not impose any FICA-like payroll taxes, the New York EITC goes completely toward either reducing the personal income tax burden, or providing cash rebates. In tax year 2002, approximately 86 percent of the total earned income credit claimed was refundable to taxpayers.⁴ This is similar to the percentage of the federal EITC which is refundable under the federal income tax.

Summary Statistics

Table 3 provides a general statistical overview of the 2002 EITC by taxpayers' place of residence. Some major statistical highlights include:

- The total earned income credit claimed increased from approximately \$501 million in 2001 to \$591 million in 2002. Figure 2 shows how the total credit claimed has increased over tax years from 1994 through 2002.
- The \$90 million (18.0 percent) increase in total credit claimed from 2001 to 2002 is due to the increase in the credit from 25.0 percent to 27.5 percent of the federal credit, regular indexation of the federal credit parameters and, potentially, labor market factors.

* Includes nonresidents and part-year residents who moved out of New York. Part-year residents who move into New York are classified by the county into which they moved.

- Approximately 1,308,000 returns claimed an earned income tax credit. This is a more than 7 percent increase over 2001. This represents about 15 percent of all taxable and nontaxable returns. Figure 3 shows credit claimants since the inception of the EITC.
- Average credit amounts varied by county, ranging from a low of \$364 in Putnam County, to a high of \$494 in Bronx County. The statewide average credit for all filers equaled \$452.
- The average credit for nonresidents, part-year residents, and unclassified claimants was less than half the average for residents.

Figure 3: Total New York State Earned Income Tax Credit Claimants – 1994-2002

As shown on Table 1, EITC eligibility and amounts vary by family size. Workers with children can earn considerably more income before the credit phases out. They also qualify for considerably higher credit rates. Table 4 below summarizes credit usage by family size for all taxpayers.

Table 4: EITC Claims by Number of Qualifying Children – 2002

Family Size	Number of Claimants		Credit Amount		Avg. Credit (\$)
	Number	% of Total	Number	% of Total	
No Children	249,201	19.10%	16,231	2.70%	65

Total	1,308,021	100.00%	590,914	100.00%	452

Statistical Tables Accompanying This Report

The statistical tables in this report provide information on the number of EITC claims, and their total and average dollar amounts. The information is displayed alphabetically by county. It is followed by summary data for New York City and its counties. The last section presents aggregate statistics for full-year nonresidents, part-year residents moving out of New York and data for filers with missing addresses.

Within each county, EITC usage is shown by \$4,000 ranges of earned income, and by number of qualifying children. As used here, earned income includes wages, salaries and tips; business income or loss; and certain other taxable and nontaxable income. EITC usage is shown by three filing statuses – single, married filing joint, and head of household. Qualifying widows(ers) are included in the married filing joint category, and married taxpayers filing separate returns are included in the head of household category. Disclosure limitations did not allow for displaying these two filing statuses separately. The average credit value displayed in the total column includes in its computation values of less than \$500.

The information in the following tables comes from IT-215 forms filed through December 2003. It includes claims for EITC that passed the Department's two-stage verification procedure, and therefore were credited or paid to taxpayers. Taxpayers who did not file returns through December 2003 may file a claim for EITC for the 2002 tax year until April 15, 2006.

Taxpayers must file both a regular income tax return and form IT-215 to claim the EITC. This procedure differs from that for claiming the real property tax circuit breaker credit. Taxpayers may claim that credit using a “stand alone” form IT-214, without having to file a regular tax return. Appendix B contains a copy of form IT-215 and instructions.

Endnotes

1. Currently, about 87 percent of the federal EITC constitutes cash rebates to persons filing tax returns, but not owing tax. For New York taxpayers, approximately 82 percent of the federal EITC constitutes cash rebates.
2. However, the way in which the credit phases out significantly increases the marginal tax rate on workers in the phase out range, thereby potentially reducing their incentive to earn additional wages.
3. For elaboration on the tax policy objectives of the earned income credit, see Joseph Pechman, *Federal Tax Policy, Fifth Edition*, (Washington, D.C., The Brookings Institution, 1987). For a comparison and analysis of state programs, see Center on Budget and Policy Priorities, *A Hand Up: How State Earned Income Tax Credits Help Working Families escape Poverty in 2004*, (May 14, 2004).
4. This percentage is based on a simulation of taxpayer liability that does not take into account taxpayer prepayments.

Appendix A: Legislative Mandate for the Earned Income Tax Credit Study, Chapter 170, Laws of 1994

“The commissioner shall prepare a preliminary written report after July thirty-first and a final written report after December thirty-first of each calendar year, which shall contain statistical information regarding the credits granted on or before such dates under this subsection during such calendar year. Copies of these reports shall be submitted by such commissioner to the governor, the temporary president of the senate, the speaker of the assembly, the chairman of the senate finance committee and the chairman of the assembly ways and means committee within sixty days of July thirty-first with respect to the preliminary report, and within forty-five days of December thirty-first with respect to the final report. Such reports shall contain, but need not be limited to, the number of credits and the average amount of such credits allowed; and of those, the number of credits and the average amount of such credits allowed to taxpayers in each county; and of those, the number of credits and the average amount of such credits allowed to taxpayers whose earned income falls within ranges, determined by the commissioner, of not more than four thousand dollars; and of those, the number of credits and the average amount of such credits allowed to taxpayers who file under the different statuses set forth in subsections (a), (b) and (c) of section six hundred one; and of those, the number of credits and the average amount of such credits allowed to taxpayers whose number of qualifying children falls within the categories set forth in such section thirty-two of the internal revenue code.”

Appendix B: Form IT-215
