Introduction

This statistical report provides information on households receiving real property circuit breaker tax credits as provided by Article 22, Section 606(e), of the New York State Tax Law. Qualified individuals may claim a credit in the amount of 50 percent of excess real property taxes, determined by the level of household gross income, and subject to certain specified conditions and limits. Eligibility for the credit depends on the size of household gross income (\$18,000 or less), property use, and the value of the property or the adjusted rent of a tenant. The credit claimant must be a resident of the State for the entire taxable year. The maximum credit is \$375 for taxpayers age 65 and over and \$75 for taxpayers under age 65. The amount of the credit decreases as household gross income increases. Only one credit is allowed per household.¹

This report presents detailed information on circuit breaker credit use in each New York State county. Number of claims, total credits and average credit are displayed by filer age, type of residence and household income for the 2002 income tax year. In addition, the data tables include information on the number of claims filed without a personal income tax return. In effect, these stand-alone claims represent households who received cash payments for the credit because they had no New York State personal income tax liability and they were not required to file a tax return. Appendix A contains a copy of the 2002 form used to claim the credit, the IT-214 Claim for Real Property Tax Credit for Homeowners and Renters.

Summary Statistics

For 2002, 285,417 households claimed the credit. The total amount of credits claimed totaled almost \$31.2 million, with an average credit of \$109.18. Table 1 provides a general statistical overview of the 2002 real property circuit breaker tax credit.

14,001 - 18,000	31,214	1,709	54.73

Major statistical highlights include:

- Over 63 percent of the credit claimants were under age 65. However, these households received less than 33 percent of the total credit. This is because the maximum value of the credit for under age 65 households is \$75, while households age 65 and over can earn a credit up to a maximum of \$375.
- Over 89 percent of the households claiming the credit were renters. They claimed just under 89 percent of the total credit, for an average of \$108.87 per household.
- Homeowners received an average credit of \$111.64, as compared to renters who received an average credit of \$108.87.
- In 2002, the number of households claiming the credit increased by 3,082 or 1.1 percent compared to 2001. Although total credit claims increased by \$0.2 million in 2002, the average credit decreased by almost one-half percent to \$109.18.

- Of all 2002 claims, 48 percent were filed without a regular New York State income tax return. In effect, these filers had no State income tax liability and were not required to file a tax return. However, because these filers met the residency requirements, had household gross income of \$18,000 or less, owned real property with a total market value of \$85,000 or less, and met the monthly rental limitations for renters among other conditions, they were still entitled to a credit for part of the real property taxes or rent they paid during 2002.

Table 2 displays a summary of credits received by residents of each county in New York for 2001 and 2002. Year-over-year, the number of claims requested by residents increased in all but fourteen counties.

Table 3 summarizes real property circuit breaker tax credit (RPCBTC) use from 1986 through 2002. The current RPCBTC income and residence eligibility criteria have existed since 1985. Some observations derived from examining the program during the last seventeen years include:

- The average credit claimed by individuals under 65 years old has dropped 5.1 percent during the seventeen year period.
- In contrast, the average credit claimed by individuals age 65 and over had increased almost steadily between 1986 and 2002, growing by 33.8 percent over the seventeen year period. The only year that saw a substantial decline was 1998, where data indicates that the average credit declined by approximately 9 percent from the previous year's figure.
- The share of total credit value claimed by those individuals age 65 and over had increased from slightly more than one-half to more than two-thirds between 1986 and 2002.

Table 4 compares the amount of real property taxes paid, the number of real property tax credits, and the amount of those credits for homeowners age 65 and over for tax years 2001 and 2002.

Table 4 indicates that the total amount of credit claimed by homeowners age 65 and over declined by 2.7 percent in 2002. This credit drop is due to a 5.4 percent decrease in the number of homeowners claiming the credit. Table 5 shows that while the average household income for homeowners remained essentially the same from 2001 to 2002, the average property tax paid increased by 4.1 percent. This resulted in a 2.9 percent increase in the average credit amount.

Table 5 displays the average amount of real property taxes paid, average household income and average amount of credits. The amount of real property tax credit that homeowners are eligible for is determined by subtracting a percentage of their household gross income from the real property taxes paid (including school district taxes). The percentage of household income subtracted from real property taxes increases with income up to an eligible income limit of \$18,000.

Table 6 indicates that the total amount of credit claimed by homeowners under age 65 decreased in 2002. A 14.2 decrease in the number of homeowners under age 65 who were eligible for the credit was responsible for a 14.0 decrease in the amount of credit claimed and a 5.8 percent decrease in the amount of real property taxes paid. The data in table 7 indicates that while the average household income of homeowners under age 65 increased by only 0.4 percent from 2001 to 2002, the average real property tax increased by 9.8 percent. This resulted in the 0.2 percent increase in the average credit amount.

General

The real property tax credit is available to New York State residents who have household gross income of \$18,000 or less, and pay either real property taxes or rent for their residence. Where all qualified members of the household are under age 65, the credit can be as much as \$75. Where at least one qualified member of the household is age 65 or older, the credit can be as much as \$375.

New York State residents qualify for a refund of any real property tax credit in excess of their New York State tax liabilities. Residents who are not required to file New York State income tax returns may qualify for a refund of the full amount of the credit. Part-year residents and nonresidents of New York State do not qualify for this credit.

Who qualifies

A taxpayer who meets all of the following conditions for tax year 2002, as either a homeowner or renter, may qualify to claim the real property tax credit. However, a claim for the real property tax credit cannot be made for a taxpayer who has died.

As a **homeowner**, you qualify to claim the real property tax credit if you meet all of the following conditions:

- The total household gross income of you **and** the members of your household was \$18,000 or less. (See page 7 of this publication for the definition of *household gross income* and a list of the items that make up your household gross income.)
- You occupied the same New York State residence for six months or more in 2002.
- You or your spouse paid real property taxes on your residence.
- You were a New York State resident for all of 2002.
- You cannot be claimed as a dependent on someone else's federal income tax return.
- Your residence was not completely exempt from real property tax.

Publication 22 (11/02)

- The current market value of all real property (house(s), garage(s), land, etc.) you owned was \$85,000 or less.
- Any rent that you received for nonresidential use of your residence was 20% or less of the total rent that you received.

As a **renter**, you qualify to claim the real property tax credit if you meet all of the following conditions:

- The total household gross income of you **and** the members of your household was \$18,000 or less. (See page 7 of this publication for the definition of *household gross income* and a list of the items that make up your household gross income.)
- You occupied the same New York State residence for six months or more in 2002.
- You or your spouse paid rent for your residence.
- You were a New York State resident for all of 2002.
- You cannot be claimed as a dependent on someone else's federal income tax return.
- Your residence was not completely exempt from real property taxes.
- The current market value of all real property (house(s), garage(s), land, etc.) you owned was \$85,000 or less.
- The average monthly rent paid by the members of your household was \$450 or less, not counting charges for heat, gas, electricity, furnishings, or board.

How to claim the credit

To claim the real property tax credit, complete [Form IT-214, Claim for Real Property Tax Credit for Homeowners and Renters](#).

Publication 22 (11/02)

If you are filing a New York State income tax return, you should attach the completed [Form IT-214](#) to [Form IT-200](#) or [Form IT-201](#), *Resident Income Tax Return*. The real property tax credit **cannot** be claimed on [Form IT-100](#), *Resident Fast Form Income Tax Return*.

If you qualify to claim the real property tax credit, but are not required to file a New York State income tax return, you can file for a refund of the credit by using [Form IT-214](#) only.

When to file

If you are filing a New York State income tax return, attach [Form IT-214](#) to your return and file it after January 1, 2003, but no later than April 15, 2003.

If you cannot meet the filing date you may request an extension of time by filing [Form IT-370](#), *Application for Automatic Extension of Time to File for Individuals*. The filing date for the income tax return and [Form IT-214](#) will be automatically extended for four months if you file [Form IT-370](#) on time and pay any tax owed with [Form IT-370](#).

If you file a New York State resident income tax return without claiming the real property tax credit and later determine that you qualify to claim the credit, you may still be able to claim the credit by filing [Form IT-214](#). You have until April 17, 2006, to file [Form IT-214](#) for tax year 2002.

If you are not required to file a New York State income tax return you can file [Form IT-214](#) for tax year 2002 after January 1, 2003, but no later than April 17, 2006.

Definitions

The following definitions apply to this publication, [Form IT-214](#), and the instructions for [Form IT-214](#).

Members of your household are all who share your residence and its furnishings, facilities, and accommodations, whether those household members are related to you or not. However, tenants, subtenants, roomers, or boarders are not members of your household, unless they are related to you in one of the following ways:

- a son, a daughter, or a descendant of either;
- a stepson or stepdaughter;
- a brother, sister, stepbrother, or stepsister;
- a father, mother, or an ancestor of either;
- a stepfather or stepmother;
- a niece or nephew;
- an aunt or uncle; or
- a son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law, or sister-in-law.

No one can be a member of more than one household at one time.

Household gross income is the annual total of the following items of income that you and all members of your household received during 2002:

- Federal adjusted gross income (even if you do not have to file a federal return, you must compute this amount and include it in *household gross income*).
- New York State additions to federal adjusted gross income (the most common additions are listed on pages 10-12 of this publication).
- Support money, including foster care support payments.
- Income earned abroad exempted by section 911 of the Internal Revenue Code (IRC).
- Supplemental security income (SSI) payments to the extent not included in federal adjusted gross income.
- Nontaxable interest received from New York State, its agencies, instrumentalities, public corporations, or political subdivisions.

Publication 22 (11/02)

- Workers' compensation.
- The gross amount of loss-of-time insurance. (For example, an accident or health insurance policy or disability benefits received under a "no-fault" automobile policy.)
- Cash public assistance and relief, other than medical assistance for the needy. (For example, cash grants to clients, emergency aid to adults, value of food vouchers received by clients, etc.) Do not include amounts received from the Home Energy Assistance Program (HEAP).
- Nontaxable strike benefits.
- The gross amount of pensions and annuities, including railroad retirement benefits to the extent not included in federal adjusted gross income.
- All payments received under the Social Security Act and veterans disability pensions, less any Medicare premiums deducted from your benefit, reported on federal Form SSA-1099, *Social Security Benefit Statement*.

Household gross income does **not** include food stamps, Medicare, Medicaid, scholarships, grants, surplus food, or other relief in kind. It also does not include payments made to veterans under the Federal Veterans' Dioxin and Radiation Exposure Compensation Standards Act due to exposure to herbicides containing dioxin (Agent Orange) or pursuant to certain Agent Orange product liability litigation.

Further, household gross income does not include payments made to individuals because of their status as victims of Nazi persecution as defined in federal Public Law 103-286.

A **residence** is a dwelling that you own or rent and includes up to one acre of land around it. The residence must be located in New York State. If the residence is on more than one acre of land, only the amount of real property taxes or rent paid that applies to the residence and only one acre around it may be used to figure the credit. (Contact your local assessor to help

determine the amount of rent or real property tax paid for the one acre surrounding your residence.) Each residence within a multiple dwelling unit may qualify. A condominium, a cooperative, or a rental unit within a single dwelling is a residence. A trailer or mobile home that is used only for residential purposes is also a residence.

Real property taxes paid are all current, prior, and prepaid property taxes, special ad valorem levies, and assessments levied and paid upon a residence owned or previously owned by a qualified taxpayer (or spouse, if the spouse occupied the residence for at least six months) during the taxable year. You may elect to include any additional real property taxes that you would have paid had the taxes not qualified for the exemption under section 467 (the local exemption for persons 65 and older) of the Real Property Tax Law. However, you cannot include the additional taxes you would have paid had you not qualified for the veterans' or the STAR tax exemptions. The local assessor should be able to assist in determining the amount(s) of real property taxes paid.

Real property taxes paid also include any real estate taxes allowed (or that would be allowed if the taxpayer had filed returns on a cash basis) as a deduction for tenant-stockholders in a cooperative housing corporation under section 216 of the Internal Revenue Code.

If any part of the residence was owned by someone who was not a member of your household, include only the real property taxes paid that apply to the part you and other qualified members of the household own.

If your residence is part of a multiple dwelling unit or a multiple purpose building, include only the amount of real property taxes paid that can reasonably be attributed to your residence.

If you owned and occupied more than one residence during the tax year, add together the prorated part of real property taxes paid for the period you occupied each residence.

Rent constituting real property taxes paid is 25% of the adjusted rent paid on a New York State residence during the tax year.

Adjusted rent is the rent paid after subtracting charges, if any, for heat, gas, electricity, furnishings, or board. If these charges are not separately stated, complete schedule B on [Form IT-214](#) to compute the amount of adjusted rent. Include only rent that was paid by members of the household. Do not include any rent paid for the residence by someone other than a member of your household. Do not include any subsidized part of a rental charge when computing adjusted rent.

If you move from one rented residence to another rented residence during the tax year, add together 25% of the adjusted rent paid for each residence.

New York State additions

Certain items of income not included in federal adjusted gross income must be added to federal adjusted gross income to compute *household gross income*. (For a complete list of New York State additions, see the instructions for [Form IT-201](#).) Some of the more common additions are:

Other states' bond interest:

Interest income on obligations of other states (or political subdivisions of those states) that was received or credited in 2002, but was not included in your federal adjusted gross income. This includes interest income on state and local bonds (but not those of New York State or of local governments within the state), interest and dividend income on tax-exempt bond mutual funds, and tax-exempt money market funds that invest in obligations of states other than New York.

Interest on federal bonds:

Interest or dividend income received by or credited to you in 2002 on bonds or securities of any United States authority, commission, or instrumentality that federal laws exempt from federal income tax but not from state tax.

State income taxes:

State, local, and foreign income taxes, including unincorporated business taxes, deducted in figuring federal adjusted gross income for tax year 2002.

Interest expense:

Interest expense on loans used to buy bonds and securities whose interest is exempt from New York State tax, if the interest expense was deducted when figuring federal adjusted gross income for tax year 2002.

Public employees 414(h) retirement contributions:

The amount of 414(h) retirement contributions for 2002, shown on an employee's federal Form W-2, *Wage and Tax Statement*, (copy 2), made by a Tier 3 or Tier 4 member of the New York State and Local Retirement Systems. These retirement systems include the New York State Employees' Retirement System and the New York State Police and Fire Retirement System; or a Tier 3 or Tier 4 member of the New York State Teachers' Retirement System; or an employee of the State or City University of New York who belongs to the Optional Retirement Program; or any tier member of the New York City Employees' Retirement System, the New York City Teachers' Retirement System, the New York City Board of Education Retirement System, the New York City Police Pension Fund, or the New York City Fire Department Pension Fund; or members of the Manhattan and Bronx Surface Transportation Operating Authority (MABSTOA) Pension Plan.

NYC flexible benefits program:

The IRC 125 amount for 2002, shown on an employee's federal Form W-2, *Wage and Tax Statement*, that was deducted from the employee's salary, under a flexible benefits program established on behalf of the employees by the city of New York and certain other New York City public employers. These public employers include the City University of New York, New York City Health and Hospitals Corporation, New York City Transit Authority, New York City Housing Authority, New York City Off-Track Betting Corporation, New York City Rehabilitation Mortgage Insurance Corporation, New York City Board of Education, New York City School Construction Authority, Manhattan and Bronx Surface Transportation Operating Authority, or the Staten Island Rapid Transit Authority (section 612(b)(31) of the Tax Law).

Publication 22 (11/02)

NYC health insurance and welfare benefit fund:

The amount shown on an employee's 2002 federal Form W-2, *Wage and Tax Statement*, (copy 2), that was deducted from the employee's salary for health insurance and the welfare benefit surcharge, for career pension plan members of the New York City Employees' Retirement System or the New York City Board of Education Retirement System (section 612(b)(32) of the Tax Law).

Frequently asked questions and answers about New York State's real property tax credit

- 1. In 2002, I changed my New York residence to another location within New York State. Do I still qualify for the credit?**
 - A. Yes. If you occupied the same residence for at least six months during 2002 and meet the other conditions, you can claim the credit.
- 2. I own a mobile home (trailer) and rent the land where it is located. I pay no real property taxes. Am I considered an owner or a renter?**
 - A. For the purposes of claiming the credit, you are a renter.
- 3. If I live in a senior citizen home or a public housing project, do I qualify for the real property tax credit?**
 - A. Generally, residents of senior citizen homes and public housing projects do not qualify for this credit because these facilities are completely exempt from paying real property taxes. If you reside in a senior citizen home or a public housing project, you should ask the management of your housing facility if your residence is completely exempt from paying real property taxes. If you are a resident of a senior citizen home or a public housing project, do not file [Form IT-214](#) unless you attach a statement explaining how your household qualifies for the credit.
- 4. Do I qualify for the real property tax credit if I live in a nursing home?**
 - A. Generally, residents of nursing homes do not qualify for this credit because they share common living facilities. This situation usually disqualifies all residents of a nursing home since they are all considered to be members of one household, with household gross income exceeding \$18,000 and the average monthly rent exceeding \$450. If you are a resident of a nursing home, do not file [Form IT-214](#) unless you attach a statement explaining how your household qualifies for the credit.

Publication 22 (11/02)

- 5. Each month my social security benefits are reduced by a deduction for optional Medicare insurance. Do I include the gross amount of my social security benefits in my household gross income?**
- A. No, include only the actual amount of all social security benefits received when determining your household gross income.
- 6. My mother was a member of my household during 2002. Do I include her income when I total my household gross income?**
- A. Yes. When you claim this credit, you have to include in your household gross income all the income as described in this publication that you and all members of your household received during 2002. For the definition of *members of your household* and *household gross income*, see pages 6 - 8 of this publication.
- 7. My friend was a member of my household for part of 2002. Do I include her income in my household gross income?**
- A. Yes, but only the part of the income that she received while a member of your household.
- 8. I rented a residence for part of the year and owned a residence for the rest of the year. How do I figure the amount of real property taxes paid?**
- A. Add 25% of the adjusted rent paid (for the number of months you rented) to the prorated part of the real property taxes paid (for the number of months you owned your residence).
- 9. More than one member of my household qualifies for the credit. How much can each of us claim?**
- A. If more than one member of your household is filing [Form IT-214](#), you may divide the credit equally among all filers. However, you may also divide the credit any way you want, as long as each qualified member agrees to the division. Each qualified member must file a [Form IT-214](#) showing only his or her share of the credit. Unless you divide the credit equally, each qualified member of the household must attach a copy of the division agreement to his or her [Form IT-214](#).

10. My father is 68 and lives with me and my family. Does this qualify my household for a higher credit limitation for those 65 or older?

- A. If your father paid rent or real property taxes for your residence and met all other qualifications listed under *Who qualifies* on page 4 this publication, your household qualifies for a higher limitation. You and your father should each file a separate [Form IT-214](#), with each of you showing only your own share of the credit (see the preceding question and answer).

11. My father, who was over 65, lived with me and my family for seven months in 2002 before he died. Does this qualify my household for a higher credit limitation for those 65 and older?

- A. If your father paid rent or real property taxes for your residence, lived in your residence for at least six months during the year, and met all of the other qualifications listed under *Who qualifies* on page 4 of this publication, then your household may qualify for the higher limitation. You must include your father's income for the period that he was a member of the household in computing your household gross income. The combined household gross income of all household members must be \$18,000 or less in order to qualify for the credit. You must divide the total credit equally among all the qualified household members (including the deceased person), and you can only claim your portion of the credit on your [Form IT-214](#). You cannot claim your father's portion of the credit on his behalf. You cannot file a claim for the credit on behalf of a deceased individual.

12. Part of the rent for my residence is paid by my son who does not live with me. Can I include this in the amount of rent I paid during the tax year?

- A. No. Include only the rent paid by you and members of your household.

13. What is meant by *rent constituting real property taxes paid*?

- A. When you figure your real property tax credit, you can consider part of the rent you paid during the taxable year as payment of real property taxes. Schedule B of [Form IT-214](#) shows how to adjust your rent to arrive at the amount you paid to occupy your residence. The adjustment excludes charges for heat, electricity, gas, and furnishings that may be included in your rent payment, and the result is the adjusted rent. Your *rent constituting real property taxes paid* is 25% of this adjusted rent.

14. I own property consisting of my home and 10 acres of land around it. Can I include all the real property taxes I paid during the year when I figure my credit?

- A. No. Include only the amount of real property taxes paid that apply to the residence and **one** acre of land around it. Your local assessor should be able to assist you in determining the portion of real property tax attributed to the residence and the one acre of land around it.

15. I am 67 and have a real property tax exemption. Can I include the amount exempted as part of the real property taxes I paid during the year?

- A. Yes. You can elect to include in real property taxes paid any additional real property taxes that you would have paid if you did not qualify for the exemption under section 467 of the Real Property Tax Law (the local exemption for persons 65 or older). However, you cannot include the additional taxes you would have paid had you not qualified for the veterans' or STAR tax exemption. If you do not know the amount exempted under section 467, please contact your local assessor. If you choose to include the exempted amount, your credit, before limitation, will be only 25% (instead of 50%) of your eligible real property taxes. You may want to figure your credit both ways to see which results in the greater credit.

16. My wife and I are filing jointly for the credit on [Form IT-214](#). Do we have to divide the credit equally?

- A. You cannot divide the credit on a jointly filed return claim form. However, married taxpayers who file separate income tax returns can divide the credit any way they want. They must each attach a copy of their division agreement to their [Form IT-214](#).

17. Can I claim the real property tax credit for a taxpayer who died?

- A. No. A claim cannot be made for a taxpayer who died before filing a 2002 income tax return or [Form IT-214](#).

18. When can I claim the real property tax credit?

- A. If you are filing a New York State income tax return, attach [Form IT-214](#) to it. File your New York State return as soon as you can after January 1, 2003, but not later than April 15, 2003. If you do not have to file a New York State income tax return, file [Form IT-214](#) as soon as you can after January 1, 2003. For more information see *When to file* section on page 6 of this publication.

19. I did not know the real property tax credit was available. I now realize I was eligible to file Form IT-214 for 1999, 2000, and 2001. I did not have to file New York State income tax returns for those years. Is it too late for me to claim the credit?

- A. You may still be able to receive a refund for past years. The table below shows if there is still time to file [Form IT-214](#):

Year	Last date to file
1999	April 15, 2003
2000	April 16, 2004
2001	April 15, 2005

If you can still claim the credit, complete and file [Form IT-214](#) (for the year or years that you were eligible) as soon as you can, but before the *Last date to file* shown above.

20. If any part of my claim for the real property tax credit is refundable, can I have it directly deposited to my bank account?

- A. Yes. If you are **not required** to file a personal income tax return and are filing [Form IT-214](#) as a separate claim, complete lines 35a, 35b, and 35c of [Form IT-214](#) to have the refundable part of a claim for real property tax credit directly deposited to your bank account. If you are filing [Form IT-214](#) with your personal income tax return, you need only complete the direct deposit lines on the income tax return you are filing to have the refundable part of your claim directly deposited to your bank account.
