

State Assistance

We would like to commend those Municipal Boards for conducting cyclical reassessments and we'll continue to work with you to follow your multi-year plan.

For fiscal year 2015-2016, up to \$750,000 was appropriated for state financial assistance for improvement of real property tax administration. Assistance is only payable to assessing units conducting a reassessment that have not received aid in the previous two years.

If a locality received state assistance in 2013 or 2014 they are not eligible to receive assistance this year. Interim assistance of up to \$2 per parcel is not available this year.

Applications

Due to the 2015-2016 funding limitations, localities should not file applications for assistance for 2015 unless they are conducting (or conducted) a full reappraisal in 2015 and have not received aid in 2013 or 2014.

Plans for Cyclical Reassessments

To remain eligible for assistance, any changes to plans with respect to a reappraisal cycle must be submitted no later than 120 days prior to tentative roll date. For municipalities on a standard assessment calendar, changes for the 2015 roll needed to be filed by December 31, 2014. Changes to 2016 roll plans need to be filed by December 31, 2015.

If you have any questions regarding state assistance or amending your plan, contact your Customer Relationship Manager.
